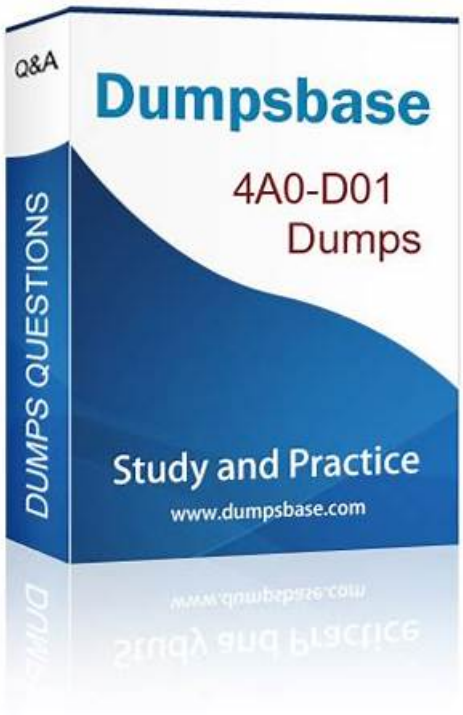
Nokia4A0-D01 Exam Dumps



P.S. Free & New 4A0-D01 dumps are available on Google Drive shared by TrainingQuiz: https://drive.google.com/open?id=1RVWP33zBR1X7aFo8ZQsgs-nwO8mx68hy

Our 4A0-D01 study guide provides free trial services, so that you can learn about some of our topics and how to open the software before purchasing. During the trial period of our 4A0-D01 study materials, the PDF versions of the sample questions are available for free download, and both the pc version and the online version can be illustrated clearly. You can contact us at any time if you have any difficulties on our 4A0-D01 Exam Questions in the purchase or trial process. We will provide professional personnel to help you remotely on the 4A0-D01 training guide.

Nokia 4A0-D01 Exam Syllabus Topics:

Topic	Details
Topic 1	• This section of the exam measures skills of a Network Automation Specialist and introduces the principles of Event Driven Automation in SR Linux environments. It covers integration with Kubernetes and explores core use cases such as intent-based automation for fabrics and services, as well as enhanced network observability.
Topic 2	• SR Linux User and System Management: This section of the exam measures skills of a Network Automation Specialist and includes managing user roles, TLS configurations for secure communication, and automation features like Zero-Touch Provisioning (ZTP). It covers ZTP setup, configuration processes, and common issues that may arise during deployment.
Topic 3	• Module 5 – EDA (Event Driven Automation) Introduction
Topic 4	• SR Linux Logging, Monitoring, and Filtering: This section of the exam measures skills of a Data Center Network Engineer and addresses how to implement logging, monitoring, and traffic filtering in SR Linux. It explains log file usage, ACL types, CPM filtering, and packet capture filters. Configuration tasks involve applying ACLs and monitoring network activity using capture tools.

TrainingQuiz expect to design such an efficient study plan to help you build a high efficient learning attitude for your further development. Our 4A0-D01 study torrent are cater every candidate no matter you are a student or office worker, a green hand or a staff member of many years' experience. Therefore, you have no need to worry about whether you can pass the 4A0-D01 Exam, because we guarantee you to succeed with our technology strength. The language of our 4A0-D01 exam questions are easy to follow and the pass rate of our 4A0-D01 learning guide is as high as 99% to 100%.

Nokia Data Center Fabric Fundamentals Exam Sample Questions (Q21-Q26):

NEW QUESTION # 21
Which of the following is NOT a valid logging source used in Nokia's SR Linux?

- A. Syslog filter
- B. Linux facility + priority
- C. SR Linux subsystem + priority
- D. Console

Answer: A

Explanation:
"Syslog filter" is not a logging source; it is a mechanism used to filter log messages. Valid logging sources in SR Linux include Linux facility + priority, console, and SR Linux subsystem + priority.

NEW QUESTION # 22
How does Nokia's Fabric Services System use a fabric intent to build the DC switch fabric?

- A. It uses telemetry data to build the configuration files for the DC fabric.
- B. It uses a YAML file that defines the intended configuration state of the DC fabric.
- C. It uses a digital sandbox to connect workloads to the DC fabric.
- D. It uses a digital sandbox to build the configuration files for the DC fabric.

Answer: B

Explanation:
Nokia's Fabric Services System uses a fabric intent defined in a declarative YAML file to specify the desired state of the data center fabric, which is then used to build and configure the fabric accordingly.

NEW QUESTION # 23
Which of the following is NOT a function of Nokia's SR Linux application manager?

- A. It reads the application's configuration information and starts each application.
- B. It translates the application's YANG model into protobufs for the IDB.
- C. It monitors the health of all applications.
- D. It manages the SR Linux and customer-defined applications.

Answer: B

Explanation:
The SR Linux application manager does not perform the function of translating an application's YANG model into protobufs for the Interface DataBase (IDB). Its primary roles are managing applications, reading their configuration, and monitoring their health.

NEW QUESTION # 24

Which of the following statements about Nokia's Fabric Services System is FALSE?

- A. Cloud-native design enables easy integration with the customer's environment.
- B. Telemetry data is provided in a context that is relevant to the fabric intent.
- C. Digital sandbox provides notification of performance issues in the data center fabric.
- D. Data center fabric configuration is represented as the fabric intent in a declarative YAML format.

Answer: C

Explanation:
The Digital Sandbox in Nokia's Fabric Services System is primarily used for simulation and validation of fabric intent, not for providing notifications of performance issues.

NEW QUESTION # 25
Which of the following is NOT one of the reasons why BGP is used as the routing protocol in the data center?

- A. It is more efficient than link-state protocols like IS-IS and OSPF.
- B. BGP neighbors automatically discover each other.
- C. It supports both IPv4 and IPv6.
- D. It is a well understood and mature routing protocol.

Answer: A

Explanation:
BGP is not chosen because it is more efficient than link-state protocols; in fact, link-state protocols like IS-IS and OSPF generally provide faster convergence and more efficient route calculation. BGP is used in data centers mainly because it is mature, well understood, supports both IPv4 and IPv6, and offers flexible policy control.

NEW QUESTION # 26
.....

As we know, our products can be recognized as the most helpful and the greatest Nokia 4A0-D01 test engine across the globe. Even though you are happy to hear this good news, you may think our price is higher than others. We can guarantee that we will keep the most appropriate price because we want to expand our reputation of Nokia 4A0-D01 Preparation test in this line and create a global brand about the products.
