

Huawei - Efficient H11-861_V4.0 - HCIP-Collaboration V4.0 Exam Topic

What's more, part of that Actual4Cert H11-861_V4.0 dumps now are free: https://drive.google.com/open?id=1sTaiEb3AWAhdGGI7Su_1-9zV1YFiIJw1

We provide three versions to let the clients choose the most suitable equipment on their hands to learn the H11-861_V4.0 exam guide such as the smart phones, the laptops and the tablet computers. We provide the professional staff to reply your problems about our study materials online in the whole day and the timely and periodical update to the clients. So you will definitely feel it is your fortune to buy our H11-861_V4.0 Exam Guide question. If you buy our H11-861_V4.0 exam dump you odds to pass the test will definitely increase greatly. Now we want to introduce you our H11-861_V4.0 study guide in several aspects in detail as follow.

Huawei H11-861_V4.0 Exam Syllabus Topics:

Topic	Details
Topic 1	Implementation and Configuration: This domain targets IIoT Solution Architects and System Integrators, focusing on configuring IoT devices, network connectivity, communication protocols, and edge computing components used in IIoT deployments.
Topic 2	Integration and Application: This section targets Solution Developers and System Integrators involved in integrating IIoT systems with existing enterprise applications, cloud platforms, and analytics tools for data-driven decision making.
Topic 3	Technical Concepts: This section measures skills of Industrial IoT Engineers and Network Engineers and covers fundamental technical principles relevant to Industrial Internet of Things (IIoT), including architectures, protocols, data management, and integration technologies.
Topic 4	Cybersecurity and Risk Management: This section assesses the expertise of Security Engineers and Compliance Officers in securing IIoT environments by applying security frameworks, identity and access management, threat detection, and risk mitigation strategies.
Topic 5	Operations and Maintenance: This domain measures skills of Operations Engineers and Network Administrators in monitoring IIoT systems, troubleshooting network and device issues, and maintaining overall system health and performance.

Huawei H11-861_V4.0 Valid Study Materials - H11-861_V4.0 Latest Test Discount

In your day-to-day life, things look like same all the time. Sometimes you feel the life is so tired, do the same things again and again every day. Doing the same things and living on the same life make you very bored. So hurry to prepare for H11-861_V4.0 exam, we believe that our H11-861_V4.0 exam braindumps will help you change your present life. It is possible for you to start your new and meaningful life in the near future, if you can pass the Huawei exam and get the certification. So it is very important for you to prepare for the practice exam, you must pay more attention to the H11-861_V4.0 Certification guide to help you.

Huawei HCIP-Collaboration V4.0 Sample Questions (Q17-Q22):

NEW QUESTION # 17

Which of the following statements is true about image sampling?

- A. RGB components have weak correlation, which is unfavorable for video image compression. Therefore, RGB is often used for image display.
- B. The transmission rate of video data using YUV 4:2:0 is 140 Mbit/s. If the 4:2:2 mode is used, the transmission rate required by the video is 175 Mbit/s.
- C. For human eyes, the Y component in YUV is the most important. Therefore, downsampling can be performed on the UV components.
- D. The YUV 4:2:0 sampling mode is half the size of the YUV 4:4:4 sampling mode.

Answer: D

Explanation:

YUV 4:2:0 subsamples chroma by a factor of two in both horizontal and vertical dimensions, reducing total data to half of the full-resolution YUV 4:4:4 format.

NEW QUESTION # 18

An endpoint is disconnected from a conference due to a power failure. After the endpoint is powered on again, it is not called to the conference again, and the SMC does not detect that the endpoint is disconnected. The SMC O&M engineer finds that this fault is caused by the "Timeout for hang-up upon no code streams" parameter on the CloudMCU. Which of the following parameter values may cause this fault? (Choose all that apply.)

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B,D

Explanation:

Setting the timeout to 0 or -1 disables the automatic hang-up when no media streams are received, so the MCU never tears down the call and SMC doesn't detect the endpoint has dropped.

NEW QUESTION # 19

FILL in BLANK

In an SVC intelligent forwarding conference, if an SVC participant requires to view 1080p video, the bandwidth of the SVC participant must be at least _____ Mbit/s. (Enter an Arabic numeral.)

Answer:

Explanation:

6

Explanation:

In an SVC intelligent forwarding conference, delivering 1080p (1920×1080) at 30 fps requires approximately 6 Mbit/s of bandwidth to carry the base and enhancement layers needed for full-HD reconstruction.

NEW QUESTION # 20

Assume that a channel of 4CIF analog TV signal uses a 48-bit color depth. Which of the following is nearest to the stream transmission speed of the signal before compression and encoding?

- A. 238 Mbit/s
- B. 557 Mbit/s
- C. 600 Mbit/s
- D. 446 Mbit/s

Answer: C

Explanation:

4CIF (704×576) at 30 fps gives $704 \times 576 \times 30 \approx 12.17$ million pixels/s. At 48 bits per pixel, that's $12.17 \text{ M} \times 48 \approx 584$ Mbit/s, which is nearest to 600 Mbit/s.

NEW QUESTION # 21

Assume that a dual-channel audio file uses the PCM encoding, the sampling frequency is 8 kHz, and each quantized sample value corresponds to an 8-bit binary code. What is the encoding rate (kbit/s) of the audio file?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

Dual-channel PCM at 8 kHz with 8 bits per sample yields $8,000 \times 8 = 64$ kbit/s per channel; two channels give $64 \times 2 = 128$ kbit/s.

NEW QUESTION # 22

.....

Scenarios of our HCIP-Collaboration V4.0 (H11-861_V4.0) practice tests are similar to the actual H11-861_V4.0 exam. You feel like sitting in the real H11-861_V4.0 exam while taking these HCIP-Collaboration V4.0 (H11-861_V4.0) practice exams. Practicing under these conditions helps you cope with Huawei H11-861_V4.0 Exam anxiety. Moreover, regular attempts of the H11-861_V4.0 practice test are also beneficial to enhance your speed of completing the final HCIP-Collaboration V4.0 (H11-861_V4.0) test within the given time.
