Salesforce Certified Experience Cloud Consultant Sample Questions (Q25-Q30):

NEW QUESTION # 25

DreamHouse Reality (DR) is looking to enter the insurance business. After discussing with business advisor, DR has decided to use independent agents to manage claims.

Which two features are available for DR to implement a solution involving insurance agent persona?

Choose 2 answers

- A. Financial Services Lightning template
- B. Financial Services Community permission set license
- C. Insurance Agent Portal Lightning template
- D. Insurance agent permission set license

Answer: B,C

Explanation:

Financial Services Community permission set license is a license type that allows users to access Financial Services Cloud objects and features, such as policies, claims, referrals, and goals. Insurance Agent Portal Lightning template is a template that is designed for insurance agents who need to manage their leads, opportunities, policies, claims, and referrals. These two features are available for DR to implement a solution involving insurance agent persona.

NEW QUESTION # 26

A consultant is in the process of designing the sharing and visibility model for Cloud (CK) new hiking site built on Experience Cloud. The consultant knows that CK plans to use the Customer Community License type.

What limitations should the consultant consider related to sharing and visibility for this license type?

- A. All site users that require access to certain records for certain objects have the proper Sharing set.
- B. All site users that require access to all records across all objects have the proper Sharing Set.
- C. Any site users that require access to specific records have the proper Sharing Rule.
- D. All site users have the appropriate role assigned.

Answer: A

Explanation:

The limitation that the consultant should consider related to sharing and visibility for the Customer Community license type is A. The Customer Community license type is a license type that allows external users to access your Experience Cloud site through a customer account. Customer Community users have limited access and visibility to data in your Salesforce org, and they cannot use roles or sharing rules to share records. To share records with Customer Community users, you need to use Sharing Sets, which are features that allow you to share records based on common account or contact fields.

NEW QUESTION # 27

Ursa Major Solar is utilizing audience targeting for specific components in its portal.

Which two considerations regarding audience targeting are true? Calculator Choose 2 answers

- A. You can't assign record-based criteria to a component or branding set.
- B. Available domains are created in the Administration workspace and associated with a community through a custom URL.
- C. You can only have three audiences.
- D. You can't assign audiences to the components in the template header and footer sections.

Answer: A,D

Explanation:

Audience targeting allows you to display different content to different audiences based on criteria such as profile, location, domain, or user. However, there are some limitations of audience targeting, such as:

You can't assign audiences to the components in the template header and footer sections. These sections are shared across all pages in your site and can't be customized for different audiences.

You can't assign record-based criteria to a component or branding set. Record-based criteria are only available for page variations and navigation menu items.
