## 최신 SAFe Practice Consultant SAFe-SPC 무료샘플문제 (Q32-Q37):

### 질문 # 32

SAFe assumes that programs commit to the key priorities within the current PI and provide a forecast for a few subsequent PIs.

- A. False
- B. True**

정답: B

#### 설명:

During PI Planning, ARTs (programs) commit to the PI Objectives for the current Program Increment (PI) and, when possible, provide a forecast for the next few PIs. This is a key part of SAFe's planning and transparency practices.

"During PI Planning, teams commit to the objectives for the current PI and may provide a forecast for future PIs to aid in longer-term planning and alignment." (Source: SAFe 6.0 Framework: PI Planning; SPC 6.0 Guide, "Coaching ART Execution")

### 질문 # 33

(Select 2) What applies to the Portfolio Backlog?

- A. The Portfolio Kanban holds Capabilities that are ready for implementation.
- B. Programs plan PIs so that they exhaust the Portfolio Backlog and only then work on their local priorities.
- C. WSJF is used to prioritize Epics in the Portfolio Backlog.**
- D. It provides a low-cost holding area for approved Business and Enabler Epics.**

정답: C,D

#### 설명:

C: The Portfolio Backlog is used as a low-cost holding area for approved Business and Enabler Epics until they are ready for implementation, avoiding premature commitment of resources.

D: Weighted Shortest Job First (WSJF) is the recommended method for prioritizing Epics in the Portfolio Backlog, balancing the cost of delay and job size to deliver maximum value.

Option A is incorrect because the Portfolio Kanban holds Epics, not Capabilities (which are managed at the Solution/ART level).

Option B is incorrect because programs do not wait to exhaust the Portfolio Backlog before working on local priorities; local priorities are managed at the ART level.

- C. Return on Investment (ROI)
- D. Value stream budget
- E. Development expense

정답: A,B,E

### 질문 # 36

Which of the following is a dimension of the Organizational Agility competency?

- A. Innovation Culture
- B. Customer Centricity and Design Thinking
- C. Strategy Agility
- D. Strategy and Investment Funding

정답: C

### 설명:

"Strategy Agility" is one of the three dimensions of the Organizational Agility competency in SAFe. It refers to the organization's ability to sense and respond quickly to changing strategic needs, which is essential for thriving in the digital age.
