HPE0-V25 valid study test give you an in-depth understanding of the contents and help you to make out a detail study plan for HPE0-V25 preparation. All the questions are edited according to the analysis of data and summarized from the previous test, which can ensure the high hit rate. You just need take the spare time to study HPE0-V25 Training Material, the effects are obvious. You

will get a high score with the help of HP HPE0-V25 study pdf.

HPE Hybrid Cloud Solutions Sample Questions (Q13-Q18):

NEW QUESTION # 13

Match each HPE product With the customer requirements it meets.

Product	Requirements
MSA 2062	A hospital wants to store air-gapped copies of their medical imaging to protect against ransomware attacks and natural disasters.
MSL2024	A customer needs a low cost entry-level storage appliance with automatic tiering for their Fibre Channel environment.
StoreEasy 1560	A small software development company needs a solution for their growing file shares in their Microsoft environment.
StoreOnce VSA	Customer wants to backup and quickly recover their Hyper-V environment in a remote site with an option to backup to the cloud.

Answer:

Explanation:

Product	Requirements
MSA 2062	A customer needs a low cost entry-level storage appliance with automatic tiering for their Fibre Channel environment.
MSL2024	A hospital wants to store air-gapped copies of their medical imaging to protect against ransomware attacks and natural disasters.
StoreEasy 1560	A small software development company needs a solution for their growing file shares in their Microsoft environment.
StoreOnce VSA	Customer wants to backup and quickly recover their Hyper-V environment in a remote site with an option to backup to the cloud.

Explanation

- * MSA 2062: A customer needs a low cost entry-level storage appliance with automatic tiering for their Fibre Channel environment
- * MSL2024: A hospital wants to store air-gapped copies of their medical imaging to protect against ransomware attacks and natural disasters
- * StoreEasy 1560: A small software development company needs a solution for their growing file shares in their Microsoft environment
- * StoreOnce VSA: Customer wants to backup and quickly recover their Hyper-V environment in a remote site with an option to backup to the cloud This is because:
- * MSA 2062: This is a flash-enabled storage appliance that supports Fibre Channel, iSCSI and SAS connectivity. It offers automatic tiering that optimizes performance and cost by moving data between SSDs and HDDs based on usage patterns.
- * MSL2024: This is a tape library that supports up to 24 LTO tape cartridges and one or two tape drives. It provides offline data protection and long-term retention for compliance and disaster recovery purposes. It can also create air-gapped copies of data that are isolated from network threats such as ransomware.
- * StoreEasy 1560: This is a file storage appliance that supports SMB, NFS and FTP protocols. It is optimized for Microsoft environments and integrates with Active Directory, BitLocker encryption, Windows Storage Server and Windows Server Backup. It can scale up to 16 TB of internal capacity and 280 TB of external capacity.
- * StoreOnce VSA: This is a virtual storage appliance that provides backup and recovery for virtualized environments. It supports Hyper-V, VMware and KVM hypervisors and integrates with backup applications such as HPE Data Protector and Veeam. It can also deduplicate data and replicate it to
 - * another StoreOnce system or to the cloud.

NEW QUESTION # 14

Your customer needs help troubleshooting a Layer 3 network routing issue. Which command should you use?

- A. showLLDP neighbor-info
- B. show startup-config
- C. traceroute
- D. config-router

Answer: C

Explanation:

Explanation

This is because the traceroute command is a network diagnostic tool that traces the route of packets across an IP network. It shows the path that packets take from the source device to the destination device and displays information such as the IP addresses of routers and switches along the path, the round-trip times of packets, and any packet loss or errors. It can help troubleshoot a Layer 3 network routing issue by identifying where the packets are dropped or delayed.

NEW QUESTION # 15

Is HPE GreenLake a consumption-based model for IT resources?

- A. Yes
- B. No

Answer: A

Explanation:

HPE GreenLake is a consumption-based model that allows organizations to pay for their IT resources based on actual usage. It provides a flexible and scalable approach to IT resource provisioning, enabling organizations to align their IT spending with their business needs. HPE GreenLake provides a range of services, including infrastructure-as-a-service (IaaS), platform-as-a-service (PaaS), and software-as-a-service (SaaS).

NEW QUESTION # 16

How does HPE InfoSight help organizations to improve their IT infrastructure performance?

- A. By providing a unified interface for managing all IT resources
- B. By providing real-time analytics and reporting on IT infrastructure performance
- C. By using machine learning to predict and prevent issues before they occur
- D. By using software-defined networking to optimize network traffic

Answer: C

Explanation:

HPE InfoSight is an artificial intelligence and machine learning-based analytics platform that provides real-time insights into infrastructure performance. It uses machine learning algorithms to analyze data and identify potential issues before they occur, helping organizations to optimize their IT infrastructure and reduce downtime.

NEW QUESTION # 17

You need to explain how the HPE GreenLake platform can help your customer's business become more agile. What information do you provide? (Select two)

- A. The HPE GreenLake platform is always managed by HPE, reducing the need for internal IT staff.
- B. Customers can control costs since advanced metering allows them to only pay for what is used.
- C. HPE actively monitors, manages, and deploys capacity ahead of demand so the customer can scale with ease within an installed buffer.
- D. HPE GreenLake provides a larger hardware footprint than traditional HPE hardware solutions.
- E. HPE GreenLake provides infinite scale to the customer at no additional cost with its scale-up policy.

Answer: B,C

Explanation:

HPE GreenLake is a cloud services platform that delivers on-demand capacity and planning, combining the agility and economics of

the public cloud with the security and performance of on-premises IT. Some of the benefits of HPE GreenLake include:

- Customers can control costs since advanced metering allows them to only pay for what is used:

HPE GreenLake offers a pay-per-use model that aligns costs with actual usage, reducing overprovisioning and improving cash flow. Customers can also scale up or down as needed and only pay for what they use.

- HPE actively monitors, manages, and deploys capacity ahead of demand so the customer can scale with ease within an installed buffer: HPE GreenLake provides customers with buffer capacity that is ready to use in minutes, not months, enabling them to respond quickly to changing business needs. Customers can also access a range of cloud services from HPE and partners through a self-service portal.

NEW QUESTION # 18

.....

We also fully consider the characteristics of the user on studying the HPE0-V25 exam questions. For example, many people who choose to obtain a HPE0-V25 certificate don't have a lot of time to prepare for the exam. Based on this point, our team of experts really took a lot of thought in the layout of the content. The contents of HPE0-V25 Exam Materials are carefully selected by experts. We hope you can get the most effective knowledge in the shortest possible time.
