Oracle N16291GC10 Exam Syllabus Topics:

Topic	Details
Topic 1	• Working with NetSuite: This section of the exam measures skills of NetSuite Support Analysts and covers the day-to-day operational use and troubleshooting of NetSuite environments. It focuses on managing system alert notifications, preparing for new release testing, and diagnosing system issues based on provided scenarios. Candidates are also tested on their ability to track license usage, manage provisioning, and leverage the NetSuite Support Center role for problem resolution and system optimization.
Topic 2	• Data Security: This section of the exam measures skills of Information Security Specialists and focuses on managing access and safeguarding sensitive data within NetSuite. It includes understanding how to secure the File Cabinet, configure login security, and set up Two-Factor Authentication or Single Sign-On. Candidates are evaluated on recognizing permissions with high access levels, mitigating data risks when employees exit the organization, and managing the security impact of changing field values on reports.

Topic 3	• Setup and Administration: This section of the exam measures skills of NetSuite System Administrators and focuses on system configuration, environment management, and role-based security. It covers best practices for assigning custom roles, handling global permissions, and defining subsidiary-level access. Candidates are tested on the correct use of the Administrator role, user access configurations, multi-language settings, and environment management between Sandbox, Production, and Release Preview. Additionally, the section assesses knowledge of advanced CSV import options, troubleshooting import errors, and applying SuiteCloud Plus features.
Topic 4	• SuiteCloud Platform: This section of the exam measures skills of NetSuite Automation Developers and covers the use of SuiteFlow, SuiteScript, and SuiteTalk to automate and integrate business processes. It involves understanding the sequence of creating SuiteFlows, identifying running automations, and managing SuiteBundles. Candidates must also distinguish between managed and non-managed bundles, update existing ones, and apply REST or SOAP Web Services, ODBC, and CSV Import methods to manage NetSuite data effectively.
Topic 5	• Sitebuilder: This section of the exam measures skills of NetSuite Configuration Specialists and focuses on customizing NetSuite forms and fields. It includes recognizing appropriate form types for given use cases, understanding field-level versus form-level configurations, and applying restrictions for user-specific access. The section evaluates knowledge of creating online forms, adjusting field display types, and managing data through custom fields and records. Candidates must differentiate between custom records and custom lists, configure attributes for custom record types, and identify proper use cases for "Record is Parent" or sublist publishing.
