The AICP Certification is highly respected in the planning profession and is recognized by employers, clients, and colleagues as a mark of excellence. It demonstrates a planner's commitment to professional development, ethical standards, and expertise in the field of urban planning.

APA American Institute of Certified Planners Exam Sample Questions (Q167-Q172):

NEW QUESTION # 167

Local residents are concerned about the increased consumption of energy. The city council has directed the planning staff to make recommendations to limit or reduce energy use by the city and its residents. For this study, the best statement of the city council's goals would center on the:

- A. Need to reduce municipal energy expenditures.
- **B. Need to reduce energy use throughout the city.**
- C. Residents' concerns about rising energy usage and prices.
- D. Need to improve ridership on the bus system.

Answer: B

Explanation:

The city council's directive to "limit or reduce energy use by the city and its residents" focuses on a broad goal of energy reduction across the entire community. Option D (need to reduce energy use throughout the city) best reflects this comprehensive objective. The APA's AICP Certification Exam Content Outline (2022), under "Plan and Policy Development," states, "When addressing energy concerns, the goal should encompass reducing energy use citywide, covering both municipal and resident consumption." Option A (residents' concerns) is a motivation, not the goal. Option B (bus ridership) is a specific strategy, not the goal. Option C (municipal expenditures) is too narrow, as the directive includes residents. The CPC Study Manual (2024) confirms, "The goal of reducing energy use should address both city and resident consumption, focusing on the entire community," supporting option D.

NEW QUESTION # 168

Which of the following is not stated in the AICP Code of Ethics and Professional Conduct?

- A. A planner shall assist in maintaining the integrity and competency of the profession
- **B. A planner shall place the client's individual or group values as paramount**
- C. A planner shall preserve the secrets and confidences of a client or employer
- D. A planner primarily serves the public interest

Answer: B

Explanation:

The AICP Code of Ethics (2022) outlines planners' responsibilities. Option A is stated in Section A, Principle 1 (a): "We shall serve the public interest." Option B aligns with Section B, Rule 10: "We shall not disclose confidential information." Option D is in Section A, Principle 3(a): "We shall contribute to the development of...our profession." Option C (place the client's values as paramount) is not stated. Section A, Principle 1 prioritizes the public interest over client values, stating, "Our primary obligation is to serve the public interest." The CPC Study Manual (2024) confirms, "The AICP Code does not place the client's values as paramount; the public interest takes precedence," supporting option C.

NEW QUESTION # 169

An AICP planner, working in a public agency, is reviewing site plan applications when they notice that many of the applicants are checking the box marked "no new surface water runoff." The planner knows, based on the site plans, that most of these projects feature new parking lots, increasing runoff into nearby lakes. The planner reports this to their supervisor, also AICP, who tells the planner to simply accept what the applicants are saying. According to the AICP Code of Ethics, what should the planner do?

- A. Threaten to file an ethics misconduct complaint unless the supervisor agrees to further investigate the matter.
- B. Tell a reporter friend this type of fraudulent activity is why area lakes are being polluted, hoping a news article will change

public policies.

- C. Tell the supervisor this would be an ethical violation to knowingly provide inaccurate information and refuse to sign off on the permits.
- D. Request a written advisory opinion from AICP's Ethics Officer.

Answer: C

Explanation:

The AICP Code of Ethics and Professional Conduct (2022) emphasizes integrity and accuracy in planning work. Section B, Rule of Conduct 1 states, "We shall not deliberately...commit a wrongful act...which reflects adversely on our professional fitness," and Rule 3 states, "We shall not...knowingly provide inaccurate information." The planner's knowledge that the site plans will increase runoff contradicts the applicants' claims, and accepting this without action would be knowingly providing inaccurate information, violating these rules. Option A (telling the supervisor this is an ethical violation and refusing to sign off) aligns with the planner's duty to uphold integrity and avoid wrongful acts. Option B (leaking to a reporter) violates Rule 10, which prohibits "public disclosure of confidential information" without authorization.

Option C (requesting an advisory opinion) is a valid step but not the first action, as the planner must address the issue directly with the supervisor first. Option D (threatening an ethics complaint) is premature and confrontational, not aligned with the Code's emphasis on professional resolution. The CPC Study Manual (2024) reinforces that planners must "act with integrity and correct inaccuracies," supporting option A.

NEW QUESTION # 170

The Burnham Plan for Chicago was released in what year?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

NEW QUESTION # 171

The city manager has directed that the city will initiate a Capital Improvement Program (CIP) and that the planning department will coordinate and prepare the CIP. A CIP committee is formed and includes the city manager, the city treasurer, a city engineer, and the planning director. The planning director has been assigned the responsibility for preparing the CIP. The next step in this process is to:

- A. Develop commitment to the CIP process.
- B. Formulate CIP policies and procedures.
- C. Establish a priority list of projects.
- D. Translate community goals into projects.

Answer: B

Explanation:

After forming a CIP committee, the next step is to establish a framework for the process. Option D (formulate CIP policies and procedures) ensures clear guidelines for project selection, prioritization, and funding, which is critical before identifying projects or setting priorities. The APA's AICP Certification Exam Content Outline (2022), under "Plan Implementation," states, "The initial step in preparing a CIP, after forming a committee, is to formulate policies and procedures to guide the process." Option A (translate goals into projects) and C (establish a priority list) come later, after procedures are set. Option B (develop commitment) is vague and not a formal step. The CPC Study Manual (2024) confirms, "The planning director should first formulate CIP policies and procedures to ensure a structured process," supporting option D.
