They spend a lot of time and spirits on this exam but waste too much exam cost. Our AgilePM-Foundation quiz question torrent can help you half work with double results. Sometimes choice is more important than

choice. After purchasing our exam AgilePM-Foundation Training Materials, you will have right ways to master the key knowledge soon and prepare for AgilePM-Foundation exam easily, you will find clearing AgilePM-Foundation exam seems a really easily thing.

APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q16-Q21):

NEW QUESTION # 16
In the context of AgilePM, what two types of Increment are associated with what is delivered?

- A. Timebound and Freeform
- B. Solution and Product
- C. Team and Individual
- D. Product and Process

Answer: B

Explanation:
AgilePM distinguishes between increments in terms of what is actually delivered to stakeholders. The emphasis is on a Solution-the integrated outcome that delivers business value-not merely isolated technical outputs. As delivery progresses, teams create Solution Increments that accumulate into a releasable Product (the broader, user-facing capability). This distinction helps align day-to-day development with business outcomes: every increment should be a cohesive slice of the evolving solution that is demonstrably usable or verifiable, while the Product view ensures that increments collectively support release goals and benefits realization. AgilePM's focus on MoSCoW prioritization and timeboxing supports this by ensuring each Solution Increment contains the right mix of Must/Should/Could features to satisfy acceptance and maintain momentum. In practice, reviews showcase the Solution Increment's usability to business representatives, while release planning considers how these increments roll up into Product evolution. Therefore, the two types associated with what is delivered are best captured by Solution and Product, making option A the fit with AgilePM terminology and intent.

NEW QUESTION # 17
Which of the phases in the AgilePM project lifecycle is optional?

- A. None
- B. Realization
- C. Feasibility
- D. Foundations

Answer: C

Explanation:
The AgilePM lifecycle typically includes Pre-Project, Feasibility, Foundations, Evolutionary Development/Realization, Deployment, and Post-Project (benefits). Feasibility is designed as a lightweight, optional phase to confirm there is a sensible case to proceed before deeper investment. In some contexts-when viability is already established, or scope and constraints are straightforward-Feasibility may be skipped or greatly abbreviated, moving directly to Foundations, where the approach, governance, and baselines are established. By contrast, Foundations is expected for alignment and control, and Realization (timeboxed delivery) is where the solution is built; these are not optional if you are proceeding with delivery. Thus, Feasibility is the optional phase.

NEW QUESTION # 18
What DSDM Principles requires the transparency of all work being performed by the team?

- A. Principle 8-Demonstrate Control
- B. Principle 66-Develop iteratively
- C. Principle 1 - Build incrementally from Firm Foundations
- D. Principle 1- Focus on the Business Need

Answer: A

Explanation:
Principle 8 - Demonstrate Control requires the transparency of all work being performed by the team5. This principle ensures that plans and progress are visible to all and that progress is measured through the delivery of products rather than completed activities5.

NEW QUESTION # 19
Which information is given in the Solution Architecture Definition?

- A. The strategy for testing
- B. The tools and standards to be used in Evolutionary Development
- C. A high-level design framework for the solution.
- D. A snapshot of the evolving business, solution and management products

Answer: C

NEW QUESTION # 20
What kind of power is conveyed by a manager who is admired and respected by their subordinates and seen as a role model?

- A. Legitimate.
- B. Reward.
- C. Coercive.
- D. Referent.

Answer: D

Explanation:
* Referent Power: This form of power is derived from the personal qualities of the leader, such as charisma, integrity, or ability to inspire, making them a role model for others. AgilePM values leaders who lead by influence rather than authority.
* Other Options:
* Legitimate: Based on a formal position or title.
* Reward: Tied to the ability to offer incentives.
* Coercive: Involves using fear or threats, which is not ideal in Agile environments.
Key AgilePM Concepts Referenced:
* Leadership Styles: AgilePM Handbook, Chapter 4, Section 4.5.

NEW QUESTION # 21
......

The operation of our AgilePM-Foundation exam torrent is very flexible and smooth. Once you enter the interface and begin your practice on our windows software. You will easily find there are many useful small buttons to assist your learning. The correct answer of the AgilePM-Foundation exam torrent is below every question, which helps you check your answers. We have checked all our answers. You just need to wait a few seconds before knowing your scores. The scores are calculated by every question of the AgilePM-Foundation Exam guides you have done. So the final results will display how many questions you have answered correctly and mistakenly. You even can directly know the score of every question, which is convenient for you to know the current learning condition.
