### NEW QUESTION # 130

You are using the manufacturing execution module in Dynamics 365 Supply Chain Management. License plate labels must be printed for products in the Report as finished step. You need to use the manufacturing execution functionality that meets this requirement.

What should you use?

- A. License plates
- B. Load planning workbench
- C. Job card device
- D. Work templates

**Answer: C**

Explanation:

The manufacturing execution functionality that meets the requirement of printing license plate labels for products in the Report as finished step is License plates. Here is the explanation:

License plates are unique identifiers that are assigned to containers, pallets, or individual items in inventory. License plates can be

used to track and manage inventory throughout the warehouse processes, such as receiving, put away, picking, packing, and shipping<sup>1</sup>. License plates can also be used in production processes, such as reporting as finished and raw material picking<sup>2</sup>. To print license plate labels for products in the Report as finished step, you must enable the Generate license plate option on the mobile device menu item that is used for reporting as finished<sup>2</sup>. You must also set up a document routing layout and a document routing for license plate labels<sup>3</sup>. When you use the mobile device to report a production order as finished, the system will generate a license plate for the finished product and print a license plate label to the specified printer<sup>2</sup>. The license plate label can include information such as the item number, batch number, quantity, and barcode of the finished product<sup>3</sup>.
