Salesforce ED-Con-101软件版 - ED-Con-101考題資源

VCESoft的ED-Con-101考古題是經過眾多考生檢驗過的資料，可以保證有很高的成功率。如果你用過考古題以後仍然沒有通過考試，VCESoft會全額退款。或者你也可以選擇為你免費更新考試考古題。有了這樣的保障，實在沒有必要擔心了。

最新的 Salesforce Consultant ED-Con-101 免費考試真題 (Q162-Q167):

問題 #162

The Undergraduate Admissions office needs to track new students and their current course of study. Which Education Data Architecture (EDA) object should the consultant use to meet the requirement?

- A. Education History
- B. Contact Role

- **C. Program Enrollment**

答案： C

解題說明：

Program Enrollment is an EDA object that tracks the enrollment of a student in a specific program or course of study. It can store information such as the program name, start and end dates, status, and credits earned. The consultant should use this object to meet the requirement of tracking new students and their current course of study for the Undergraduate Admissions office. Reference: [Salesforce Education Cloud Academy: Consultant Fundamentals], [EDA Data Model]

問題 #163

An institution's Admissions office needs a solution to help recruiters manage their travel, including route planning. The office also wants the ability to identify students' locations so they can be invited to a recruitment event.

Which solution should the consultant recommend to meet these requirements?

- **A. Salesforce Maps**
- B. Field Service
- C. Territory Management

答案： A

解題說明：

The consultant should recommend Salesforce Maps as a solution to help recruiters manage their travel, including route planning, and identify students' locations so they can be invited to a recruitment event for the institution's Admissions office. Salesforce Maps is a product that allows users to optimize their territories, routes, and schedules based on geographic data and insights. Salesforce Maps can help recruiters manage their travel, including route planning, and identify students' locations so they can be invited to a recruitment event by using features such as Live Tracking, Route Optimization, Geocoding, or Map Layers. Field Service, Territory Management, or Marketing Cloud are not solutions that can help recruiters manage their travel, including route planning, and identify students' locations so they can be invited to a recruitment event for the institution's Admissions office. 問題 #164

A university needs an email marketing tool that all program staff can use for mass communications. Program staff need to send emails that list missing application items to students. The items are stored on a custom object in Salesforce. It is important that program staff only have access to their own department's marketing materials, leads, prospects, and templates.

Which solution should the consultant recommend?

- A. Salesforce Mass Email
- B. Custom automation with an email alert
- **C. Marketing Cloud**
- D. Digital Engagement Messaging

答案： C

解題說明：

Marketing Cloud is a solution that the consultant can recommend to meet the requirement of providing an email marketing tool that all program staff can use for mass communications, and that can send emails that list missing application items to students. Marketing Cloud is a product that allows users to create and manage personalized and targeted email campaigns for customers or prospects. Marketing Cloud also integrates with Salesforce, so users can leverage their CRM data to segment and customize their email messages. Marketing Cloud also provides features such as Business Units and Roles, which can help control access to data, content, subscribers, reports, and settings for each program staff. Salesforce Mass Email, custom automation with an email alert, and Digital Engagement Messaging are not solutions that can meet the requirement of providing an email marketing tool that all program staff can use for mass communications, and that can send emails that list missing application items to students. 問題 #165

A consultant is working with a university that uses Salesforce and wants to install the Education Data Architecture (EDA) in that environment.

What does the consultant need to do after installing EDA to ensure it is set up correctly?

- A. Assign EDA layouts to the Cases object.
- **B. Make the EDA record types available to profiles.**
- C. Create and assign roles to all users who have access to EDA.
- D. Assign EDA access to a cloned System Admin profile.

答案： B

解題說明：

After installing EDA, the consultant needs to make the EDA record types available to profiles that need to access them. This is because EDA comes with several custom record types for standard objects, such as Account, Contact, Course, and Program Enrollment. These record types enable different views and fields for different types of records, such as Household, Student, Faculty, Course Offering, and Program Enrollment. By default, these record types are not assigned to any profiles, so the consultant needs to manually assign them to the appropriate profiles based on the business requirements and user roles of the university. This will ensure that the users can see and use the EDA record types and fields correctly and efficiently. Reference: Education Data Architecture Basics, Assign Record Types to Profiles

問題 #166

A small college plans to use Salesforce for its student services. A part-time system admin has been working with a program coordinator who has previous Salesforce experience and is eager to work on the project.

What should the consultant recommend?

- **A. The program coordinator should be a Salesforce power user.**
- B. The program coordinator's role should be on top of the role hierarchy.
- C. The program coordinator should be assigned the System Admin profile.

答案： A

解題說明：

The consultant should recommend that the program coordinator should be a Salesforce power user for the small college that plans to use Salesforce for its student services and has a part-time system admin who has been working with a program coordinator who has previous Salesforce experience and is eager to work on the project. A Salesforce power user is a user who has advanced knowledge and skills in using Salesforce and can perform tasks such as creating reports, dashboards, or workflows. The program coordinator should be a Salesforce power user for the small college that plans to use Salesforce for its student services and has a part-time system admin who has been working with a program coordinator who has previous Salesforce experience and is eager to work on the project by leveraging their Salesforce experience and eagerness to work on the project to support the part-time system admin and contribute to the project's success. The program coordinator should not be assigned the System Admin profile, the program coordinator's role should not be on top of the role hierarchy, or the program coordinator should not be a Salesforce end user for the small college that plans to use Salesforce for its student services and has a part-time system admin who has been working with a program coordinator who has previous Salesforce experience and is eager to work on the project.
