F5 F5CAB4 Exam | F5CAB4 Pass Test - Most Reliable Website for you

Our F5CAB4 exam cram has been revised for lots of times to ensure all candidates can easily understand all knowledge parts. In the meantime, the learning process is recorded clearly in the system, which helps you adjust your learning plan. On the one hand, our company has benefited a lot from renovation. Customers are more likely to choose our products. On the other hand, the money we have invested is meaningful, which helps to renovate new learning style of the F5CAB4 Exam. So, why not buy our F5CAB4 test guide?

F5 BIG-IP Administration Control Plane Administration Sample Questions (Q20-Q25):

NEW QUESTION # 20

A BIG-IP Administrator must determine if a Virtual Address is configured to fail over to the standby member of a device group. In which area of the Configuration Utility can this be confirmed?

- A. Device Management > Traffic Groups
- B. Device Management > Devices
- C. Local Traffic > Virtual Servers

- D. Device Management > Overview

Answer: C

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: To report the current status of high availability for specific traffic, an administrator must verify the Traffic Group association²⁸. In the Configuration Utility, Virtual Server properties include the Virtual Address settings where the 'Traffic Group' is assigned²⁹²⁹²⁹. If the Virtual Address is assigned to a floating traffic group (like traffic-group-1), it is configured to fail over to the standby member³⁰³⁰³⁰.

NEW QUESTION # 21

A BIG-IP Administrator needs to determine who changed a Virtual Server configuration. In which log file would the BIG-IP Administrator find this data? (Choose one answer)

- A. /var/log/secure
- **B. /var/log/audit**
- C. /var/log/ltn

Answer: B

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents:

The audit log (/var/log/audit) records configuration changes made on the BIG-IP system, including:

Who made the change (user account)

What was changed (for example, a virtual server modification)

When the change occurred

How it was performed (GUI, TMSH, or API)

Why the other options are incorrect:

/var/log/secure logs authentication events such as login successes and failures, not configuration changes.

/var/log/ltn logs traffic-management and runtime LTM events, not administrative configuration modifications.

Therefore, the correct log file for tracking who changed a virtual server is /var/log/audit.

NEW QUESTION # 22

What is the tmsh command to list the IP ranges that can access the management interface via SSH? (Choose one answer)

- **A. tmsh list /sys sshd allow**
- B. tmsh list /sys sshd /etc/hosts.allow
- C. tmsh show /sys sshd allow
- D. tmsh show /sys sshd /etc/hosts.allow

Answer: A

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents:

On BIG-IP systems, SSH access restrictions are configured under the /sys sshd object. The allow property defines the IP addresses or networks permitted to connect to the management interface using SSH.

The list command is used to display the current configuration settings.

Therefore, tmsh list /sys sshd allow correctly displays the configured allowed IP ranges.

Why the other options are incorrect:

A (show) displays runtime or statistical information, not configuration values.

C and D incorrectly reference /etc/hosts.allow; BIG-IP manages SSH access through TMSH objects, not by directly listing host files in this context.

NEW QUESTION # 23

An organization is performing a major release upgrade to its BIG-IP system. The system is under medium load and has enough disk space to perform the upgrade.

Which pre-upgrade task is disruptive to regular system performance and should be performed during a maintenance window? (Choose one answer)

- A. Create a QKView
- B. tmsh save sys config
- **C. Reactivate the license**
- D. Generate a UCS

Answer: C

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents:

Reactivating a BIG-IP license is a traffic-disruptive operation. During the license reactivation process, the BIG-IP system performs a configuration reload, which results in a temporary interruption of all traffic processing. Because traffic handling is affected, F5 explicitly recommends scheduling license updates during a maintenance window.

This behavior is documented in F5 Knowledge Base articles, which state that license reactivation impacts traffic and must be planned accordingly during upgrades or system changes.

The other options are not considered disruptive:

Creating a QKView is primarily a diagnostic task and does not interrupt traffic.

Running tmsh save sys config only saves the running configuration to disk.

Generating a UCS is resource-intensive but does not reload configuration or interrupt traffic processing.

NEW QUESTION # 24

A BIG-IP Administrator suspects that one of the BIG-IP device power supplies is experiencing power outages. Which log file should the BIG-IP Administrator check to verify the suspicion?

- A. /var/log/daemon.log
- B. /var/log/kern.log
- **C. /var/log/ltn**
- D. /var/log/audit

Answer: C

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: Although /var/log/ltn is primarily associated with Local Traffic Manager events, it is also the primary destination for system-level alerts generated by the Control Plane's chmand (Chassis Manager Daemon). Hardware status changes, including power supply failures, fan speeds, and temperature warnings, are logged as "notice" or "critical" events within the LTM log file.

NEW QUESTION # 25

.....

Our company is a multinational company with sales and after-sale service of F5CAB4 exam torrent compiling departments throughout the world. In addition, our company has become the top-notch one in the fields, therefore, if you are preparing for the exam in order to get the related F5CAB4 certification, then the F5CAB4 Exam Question compiled by our company is your solid choice. All employees worldwide in our company operate under a common mission: to be the best global supplier of electronic F5CAB4 exam torrent for our customers to pass the F5CAB4 exam.

Latest F5CAB4 Exam Bootcamp: <https://www.guidetorrent.com/F5CAB4-pdf-free-download.html>

F5 F5CAB4 Pass Test In case your answer is high great then we guarantee you that you are on the right region, The F5 F5CAB4 certification examination is an essential component of professional development, and passing this F5 F5CAB4 test can increase career options and a rise in salary, GuideTorrent Latest F5CAB4 Exam Bootcamp offers multiple products to suit your preparatory needs.

Finally, you'll apply the principles you learn to specific tutorials, F5CAB4 such as building a photo gallery, map page, and products page, I've discovered over decades that they are teachable and learnable.

The Best F5CAB4 Pass Test - New & Trustable F5CAB4 Materials Free Download for F5 F5CAB4 Exam

In case your answer is high great then we guarantee you that you are on the right region, The F5 F5CAB4 Certification examination is an essential component of professional development, and passing this F5 F5CAB4 test can increase career options and a rise in salary.

GuideTorrent offers multiple products to suit your preparatory needs, F5 F5CAB4 dumps PDF file is a clearly and comprehensively written short guide that contains very to the point and relevant knowledge.

That's why we guarantee that our customers will pass the BIG-IP Administration Control Plane Administration (F5CAB4) exam on the first attempt by using our product.
