

Get Efficient New H35-210_V2.5 Exam Answers and Pass Exam in First Attempt

P.S. Free 2026 Huawei H35-210_V2.5 dumps are available on Google Drive shared by 2Pass4sure:
https://drive.google.com/open?id=1DEN2BsoF3Ev5RLfgCXank_FVCxsxUAe8

The three versions of our H35-210_V2.5 training materials each have its own advantage, now I would like to introduce the advantage of the software version for your reference. On the one hand, the software version can simulate the real H35-210_V2.5 examination for all of the users in windows operation system. On the other hand, if you choose to use the software version, you can download our H35-210_V2.5 Exam Prep on more than one computer. We strongly believe that the software version of our study materials will be of great importance for you to prepare for the exam and all of the employees in our company wish you early success.

Our company employs the first-rate expert team which is superior to others. Our experts team includes the experts who develop and research the H35-210_V2.5 cram materials for many years and enjoy the great fame among the industry, the senior lecturers who boost plenty of experiences in the information about the exam and published authors who have done a deep research of the H35-210_V2.5 Latest Exam file and whose articles are highly authorized. They provide strong backing to the compiling of the H35-210_V2.5 exam questions and reliable exam materials resources. They can help you pass the H35-210_V2.5 exam.

>> New H35-210_V2.5 Exam Answers <<

Huawei - H35-210_V2.5 - Useful New HCIA-Access V2.5 Exam Answers

It takes a lot of effort and hard work to get the results. The first step is to download real HCIA-Access V2.5 (H35-210_V2.5) Exam Questions of 2Pass4sure. These HCIA-Access V2.5 (H35-210_V2.5) exam questions are available in PDF, desktop practice test software, and web-based practice exam. If you are already an employee or busy in your routine, you can prepare H35-210_V2.5 Exam quickly with 2Pass4sure pdf questions. H35-210_V2.5 pdf exam questions help applicants study for the HCIA-Access V2.5 (H35-210_V2.5) exam at any time from any location. With the pdf questions, it will be easy for you to complete the HCIA-Access V2.5 (H35-210_V2.5) exam preparation in a short time.

Huawei HCIA-Access V2.5 Sample Questions (Q131-Q136):

NEW QUESTION # 131

In the ODN network, which of the following protection methods can only protect the backbone fiber? (Multiple choice)

- A. Typec single-homing protection
- B. TypeB dual-homing protection
- C. TypeC dual-homing protection
- D. TypeB single-homing protection

Answer: A,C

NEW QUESTION # 132

The customer needs to access the following information points: AP, PC, POTS, and CATV. Which of the following statements about data transmission of these information points by ONUs is correct?

- A. When an OLT is connected downstream to an ONU, one fiber and two wavelengths are used to carry CATV and other services respectively. For all services except CATV, if POTS is a TDM service, it is transparently transmitted.
- **B. When an OLT is connected downstream to an ONU, one fiber and two wavelengths are used to carry CATV and other services respectively. All services except CATV are encapsulated into Ethernet frames before PON encapsulation.**
- C. All types of data are encapsulated into Ethernet frames before PON-related encapsulation and transmission over one fiber.
- D. POTS voice services are TDM services and directly encapsulated in GEM frames.

Answer: B

Explanation:

* Service Types and Transmission :

* AP/PC (Data Services) : These services are typically Ethernet-based and encapsulated into Ethernet frames before being transmitted over the PON network.

* POTS (Voice Services) : Voice services can be either TDM-based or packetized. In modern GPON/XGS-PON systems, POTS is often packetized into Ethernet frames.

* CATV (Video Services) : CATV uses a separate wavelength (1550 nm) for analog or digital video transmission.

* Wavelength Division Multiplexing (WDM) :

* GPON/XGS-PON systems use WDM to transmit multiple services over a single fiber:

* One wavelength (1490 nm or 1577 nm) is used for data services (Ethernet).

* Another wavelength (1550 nm) is used for CATV.

* Analysis of Options :

* Option A : Incorrect because CATV is not encapsulated into Ethernet frames; it uses a separate wavelength.

* Option B : Correct because CATV uses a separate wavelength, and other services are encapsulated into Ethernet frames before PON transmission.

* Option C : Incorrect because POTS services are typically packetized into Ethernet frames in modern systems, not directly encapsulated in GEM frames.

* Option D : Incorrect because POTS is not transparently transmitted in modern GPON/XGS-PON systems.

Thus, the correct answer is B .

References:

* HCIA Huawei ACCESS Official Documentation , Chapter: GPON Service Encapsulation.

* ITU-T G.984.x Standards for GPON .

NEW QUESTION # 133

Is the following description correct? MACAddress by48bitComposition, usually with12Bit16Hexadecimal representation, before6Bit16Base numbers are represented byIEEEEResponsible for unified distribution, used to determine the uniqueness of the manufacturer, and later6Bit16The hexadecimal numbers are managed by each manufacturer.

- **A. True**
- B. False

Answer: A

NEW QUESTION # 134

When configuring a bridging ONU, how do you set the VLAN of the ETH1 port if the ETH1 port is used for a PC to access the Internet?

- A. Configure VLAN 4094 on ETH1.
- B. Configure VLAN 1 on ETH1.
- C. Use the default configuration of the ETH1 port.
- **D. Configure a native VLAN.**

Answer: D

Explanation:

* Bridging ONU Configuration :

* A bridging ONU acts as a transparent bridge between the PC and the OLT, forwarding traffic without modifying it.

* VLAN Configuration for ETH1 :

* VLAN 1 : The default VLAN, often reserved for management purposes. Using it for Internet access is not recommended.

* Default Configuration : Leaving the port unconfigured may result in improper VLAN tagging or untagged traffic, leading to connectivity issues.

* VLAN 4094 : Typically reserved for special purposes (e.g., QinQ termination) and is not suitable for general Internet access.

* Native VLAN : Configuring a native VLAN ensures that untagged traffic from the PC is associated with the correct VLAN for Internet access.

* Why D?

* Configuring a native VLAN is the correct approach to ensure proper VLAN tagging and seamless Internet access for the PC connected to ETH1.

Thus, the correct answer is D .

References:

* HCIA Huawei ACCESS Official Documentation , Chapter: VLAN Configuration.

* GPON Bridging ONU Configuration Guide by Huawei.

NEW QUESTION # 135

In data communication, what are the modes of data transmission on the wire? (Multiple choice)

- A. Half duplex
- B. Autonegotiation
- C. Full duplex
- D. Simplex

Answer: A,C,D

NEW QUESTION # 136

.....

2Pass4sure customizable & advanced H35-210_V2.5 online test engine can create a real exam simulation environment to help to prepare for your Huawei H35-210_V2.5 exam test. The intelligence and humanization can inspire your desire for H35-210_V2.5 exam test study. Besides, the H35-210_V2.5 online test engine is suitable for all the electronic devices without any installation restriction. We know that time is very precious for everyone in the society. While 2Pass4sure H35-210_V2.5 Online Test engine can help you study efficiently. Now, you see, with the H35-210_V2.5 online test engine, you can get a score after each test, thus you will know your error and enhance your weakness. Besides, you can set the frequency of occurrence of the questions you made mistake. With the high study efficiency and valid H35-210_V2.5 exam torrent, passing the H35-210_V2.5 actual test is no longer a problem.
