## SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q54-Q59):

### NEW QUESTION # 54

What are some benefits of Process Mining? Note: There are 3 correct answers to this question.

- A. Higher automation rate
- B. Process standardization
- C. Reduced costs
- D. Ensured compliance

- E. Automated process documentation

**Answer: B,C,D**

Explanation:

Process Mining provides organizations with actionable insights to optimize their processes. The SAP Signavio documentation highlights:

- \* Option B (Process standardization): Process Mining identifies variations in process execution, enabling organizations to standardize processes by adopting best practices and reducing inefficiencies.
- \* Option D (Reduced costs): By uncovering bottlenecks, redundant steps, or inefficiencies, Process Mining helps organizations streamline operations, leading to cost reductions.
- \* Option E (Ensured compliance): Process Mining supports compliance by detecting deviations from regulatory or organizational standards, ensuring processes adhere to required guidelines.
- \* Option A (Automated process documentation) is incorrect because, while Process Mining generates process models (e.g., via Process Discovery), documentation is typically a manual or semi-automated task in SAP Signavio Process Manager.

Reference:SAP Signavio Process Intelligence Documentation, section on "Process Mining Benefits"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 5: Process Mining Outcomes.

#### NEW QUESTION # 55

How can administrator rights be granted to a new user within SAP Signavio Process Manager?

- A. Create an Administrators user group and assign the respective person to this group.
- B. **Create a user account and assign it to the Administrators user group.**
- C. Create a support ticket with SAP to request the full admin rights for a specific user.
- D. Create a user account and assign the access right "administrator".

**Answer: B**

#### NEW QUESTION # 56

What are some of the capabilities of Correction Recommendations? Note: There are 2 correct answers to this question.

- A. Determination of how common a certain correction is with others in your industry
- B. **Step-by-step instructions on how to improve the identified inefficiency**
- C. **Impact on process performance when applying a given recommendation**
- D. Relevance rating of a recommendation based on the usage of transactions or reports

**Answer: B,C**

Explanation:

Correction Recommendations in SAP Signavio Process Intelligence provide actionable suggestions to address process inefficiencies identified during analysis. The documentation details their capabilities:

- \* Exact Extract: "Correction Recommendations offer:
- \* Step-by-step instructions to guide users in implementing improvements for identified process inefficiencies, such as reducing bottlenecks.
- \* Analysis of the potential impact on process performance, such as reduced cycle time or cost, when applying a recommendation." (SAP Signavio Process Intelligence User Guide, section on "Correction Recommendations").

\* Explanation:

- \* Option A (Step-by-step instructions on how to improve the identified inefficiency):

Correction Recommendations include detailed guidance, such as modifying a process step or adjusting resource allocation, to resolve issues like delays or non-compliance.

- \* Option C (Impact on process performance when applying a given recommendation):

Recommendations provide estimates of performance improvements, such as reduced processing time or lower error rates, helping users prioritize actions.

- \* Option B (Determination of how common a certain correction is with others in your industry) is incorrect as Correction Recommendations are based on internal process data, not industry-wide comparisons, which are part of benchmarking features.

\* Option D (Relevance rating of a recommendation based on the usage of transactions or reports) is incorrect because relevance is determined by process data analysis, not transaction or report usage.

### NEW QUESTION # 57

What are some benefits of using metrics in SAP Signavio Process Intelligence? Note: There are 2 correct answers to this question.

- A. Define the purpose of an investigation
- B. Share metrics between workspaces
- C. Visualize important KPI's in the Process Discovery Widget
- D. Add and customize metrics from the library

**Answer: B,D**

### NEW QUESTION # 58

What is SAP Signavio plug and gain?

- A. A product not advertised under the SAP Signavio umbrella
- B. An approach that connects the different components of the SAP Signavio Process Transformation Suite
- C. The result of process analysis and investigations provided by SAP Signavio Process Manager
- D. An approach that connects different products across SAP Signavio and SAP Business Technology Platform

**Answer: B**
