#### NEW QUESTION # 148

Which responsibility relates to the role of the Business Ambassador?

- A. Provide day-to-day detail of the requirements during timeboxes
- B. Resolve business issues and make financial decisions
- C. Provide the team with strategic direction.
- D. Responsible for the Business Case and project budget.

**Answer: A**

Explanation:

The responsibility of the Business Ambassador in AgilePM is to provide day-to-day detail of the requirements during Timeboxes.

This role involves representing the interests of the business within the project team, ensuring that the evolving product meets the business needs. The Business Ambassador works closely with the development team to clarify requirements, provide feedback, and make decisions promptly to keep the project on track.

#### NEW QUESTION # 149

Identify the missing words in the following sentence.

AgilePM planning concepts help keep [?] without excessive bureaucracy.

- A. projects on track
- B. Scrum work progressing
- C. commitments in place
- D. Backlog items arranged

**Answer: A**

Explanation:

AgilePM emphasizes lightweight but effective planning that maintains control without bureaucracy. Core planning concepts include timeboxing (fixed-duration delivery windows), MoSCoW prioritization (flexing scope to protect time/cost/quality), incremental and iterative delivery (frequent demonstrations and review), and rolling-wave planning (planning at multiple horizons). Together these techniques ensure transparency, predictable cadence, and early value while avoiding heavyweight documentation or rigid stage gates. Plans are living forecasts refined through continuous feedback and empirical evidence from delivered increments. Governance focuses on outcomes and fitness for purpose rather than exhaustive upfront detail. This is why the guidance often summarizes that AgilePM planning "keeps projects on track," enabling teams to respond to change, surface risks early, and align stakeholders around real progress. Options A, C, and D capture fragments of agile practice, but they understate the project-level intent. The correct completion is "projects on track."

#### NEW QUESTION # 150

Which of the following statements about the technical Coordinator role is true?

The technical Coordination provides the same function from a technical perspective as the Business Ambassador does from a business perspective.

The technical Coordinator is responsible for ensuring that the solution confirm to the requested technical standards.

- A. Both 1 and 2 are true
- B. Only 1 is true
- C. Neither 1 or 2 is true

- D. Only 2 is true

**Answer: A**

Explanation:

Both statements about the Technical Coordinator role in AgilePM are true. The Technical Coordinator provides the same function from a technical perspective as the Business Ambassador does from a business perspective, ensuring that the technical aspects of the project align with the overall business objectives. Additionally, the Technical Coordinator is responsible for ensuring that the solution conforms to the requested technical standards, overseeing the technical integrity and quality of the product throughout the development process.

\* Inclusivity: Focuses on ensuring all voices are heard.

\* Connectivity: Refers to fostering relationships.
