It is well known that even the best people fail sometimes, not to mention the ordinary people. In face of the MS-721 exam, everyone stands on the same starting line, and those who are not excellent enough must do more. Every year there are a large number of people who can't pass smoothly. If you happen to be one of them, our MS-721 Learning Materials will greatly reduce your burden and improve your possibility of passing the exam. Our advantages of time-saving and efficient can make you no longer be afraid of the MS-721 exam, and I'll tell you more about its benefits next.

The MS-721 Exam is still in beta, which means that it is currently being tested by a select group of IT professionals before it is released to the public. This gives IT professionals the opportunity to be among the first to earn this certification and to demonstrate their expertise in collaboration and communication systems engineering. The beta testing phase also means that the exam may change before its official release, so those who take the exam during the beta phase will have the chance to provide feedback and help shape the final version of the exam.

NEW QUESTION # 172

Hotspot Question

You have a Teams Phone deployment that contains an office in Mumbai.

The Mumbai office has a new Session Border Controller (SBC) named SBC1 that uses Direct Routing.

Users must be able to use SBC1 only when they are at the Mumbai office.

How should you complete the commands? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 173

You have a Teams Phone deployment that contains offices in Brisbane and Melbourne.

You deploy a new Session Border Controller (SBC) named SBC2 to the Brisbane office.

You need to ensure that emergency calls from only the users in the Brisbane office use SBC2.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign an emergency calling policy to the Brisbane office users.
- B. Assign an emergency call routing policy to the Brisbane office users.

- C. Create a new emergency calling policy.
- D. Assign a dial plan to the Brisbane office users.
- E. Create a new dial plan.
- F. Create a new emergency call routing policy.

Answer: B,F

NEW QUESTION # 174

Drag and Drop Question

You have a Microsoft 365 subscription that uses Microsoft Teams.

You need to create a resource account for a bookable desk.

Which three cmdlets should you run in sequence? To answer, move the appropriate cmdlets from the list of cmdlets to the answer area and arrange them in the correct order.

Answer:

Explanation:

Explanation:

Step 1: Connect-ExchangeOnline

Create resource account & assign the license

Each Microsoft Teams Rooms device needs its own resource account. The Teams Rooms device uses the resource account to log into Microsoft 365 and it's what users in your organization invite in Exchange to book the room.

Step 2: New-Mailbox

2. Room mailboxes don't have accounts associated by default. Add an account when you create a room mailbox so it can authenticate with Microsoft Teams.

Step 3: Set-CalendarProcessing

Configure Exchange mailbox properties

Based on organizational requirements, you may wish to customize how the resource account responds to and processes meeting invitations. Using Exchange PowerShell, you can set many properties, review the Set-CalendarProcessing cmdlet for all available configurations.

NEW QUESTION # 175

Hotspot Question

You have a Microsoft Teams deployment.

You deploy a new Teams Phone device named Phone1.

You need to ensure that Phone1 automatically calls a Teams user named User1 when the handset is picked up.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

The "Hotline" feature is specifically designed to automatically call a predetermined number or Teams user when the phone is picked up. This meets the requirement of having Phone1 automatically call User1 upon being picked up.

A configuration profile allows administrators to set up specific features and settings for Teams devices, including hotlines. By creating a configuration profile that includes the hotline setting for Phone1, you can ensure it dials User1 automatically.
