So rest assured that you will get top-notch and easy-to-use SAP C-C4H56-2411 practice questions. The SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 (C-C4H56-2411) PDF dumps file is the PDF version of real SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 (C-C4H56-2411) exam questions that work with all devices and operating systems. Just download the SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 (C-C4H56-2411) PDF dumps file and start the SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 (C-C4H56-2411) exam questions preparation right now. Whereas the other two SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 (C-C4H56-2411) practice test software is concerned, both are the mock SAP C-C4H56-2411 exam dumps and help you to provide the real-time SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 (C-C4H56-2411) exam environment for preparation.

## SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 Sample Questions (Q37-Q42):

### NEW QUESTION # 37

Which elements can you use to define a service level? Note: There are 2 correct answers to this question.

- A. Day of the week
- B. Maintenance plan
- C. Priority
- D. Completion due on

**Answer: C,D**

Explanation:

Service levels in SAP Service Cloud V2 are defined to set timelines and priorities for case handling. Completion due on is a key element used to specify the due date for case resolution within an SLA. Priority is another critical element, as it determines the urgency of the case and influences the SLA timeline. According to SAP documentation, "Service Levels are defined in the SAP Service Cloud V2 to set the timeline for different types of Case (Ticket) based on the situation and priority." Maintenance plan (A) is related to service contracts, not SLAs. Day of the week (C) is part of operating hours configuration but not a direct element for defining service levels.

### NEW QUESTION # 38

Which of the following attributes are mandatory when creating new custom fields? Note: There are 2 correct answers to this question.

- A. Data type
- B. Searchable
- C. Label
- D. Sortable

**Answer: A,C**

Explanation:

When creating new custom fields in SAP Service Cloud V2, the Data type is mandatory to define the type of data the field will store (e.g., text, number, date). The Label is also required to provide a name or description for the field, ensuring clarity for users. According to SAP documentation, "When creating custom fields, administrators must specify the data type and label as mandatory attributes." Searchable (A) and Sortable (B) are optional attributes that can be enabled based on business needs but are not mandatory.

### NEW QUESTION # 39

Which of the following actions do you need to grant access to the relevant service objects? Note: There are 2 correct answers to this question.

- A. Assign a business role to a user
- B. Set up the case designer with the assignment step employee
- C. Assign a business role to an employee
- D. Assign a business role to a service organization

Answer: A,C

Explanation:

To grant access to service objects (e.g., cases) in SAP Service Cloud V2, administrators must assign a business role to a user to define their permissions for accessing specific objects. Similarly, assigning a business role to an employee ensures the employee has the necessary access rights linked to their user account. According to SAP documentation, "Access to service objects is granted by assigning business roles to users or employees." Assigning a business role to a service organization (B) is not a standard action, as roles are assigned to individuals. Setting up the case designer with the assignment step employee (D) is for case routing, not object access.

SAP Learning: Access Management for Service Objects

### NEW QUESTION # 40

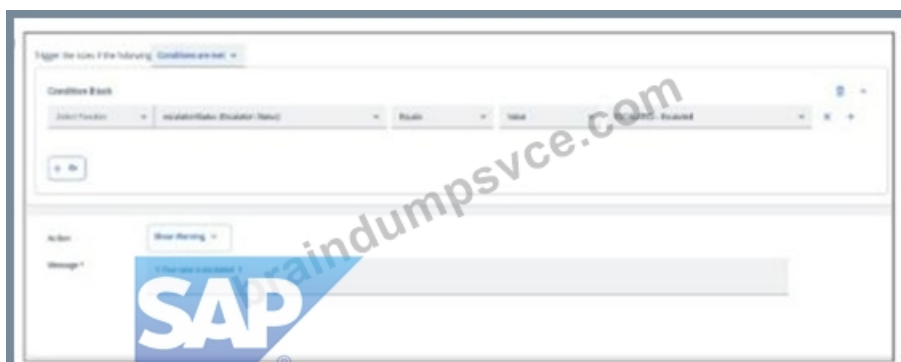

Where can you find existing cases in SAP Service Cloud Version 2? Note: There are 2 correct answers to this question.

- A. In the case worklist by choosing the Case app from the menu
- B. In the My Cases Summary card available in the home page
- C. In the cases settings view
- D. In the product page

Answer: A,B

### NEW QUESTION # 41

Which of the following options are correct to display warning messages for escalated cases? Note: Scroll down to view all possible answer options.

- A.

**Answer: C**

### NEW QUESTION # 42
