## PRINCE2 P3O Foundation Project Office2013 Exam Sample Questions (Q58-Q63):

### NEW QUESTION # 58

Which is NOT a strategic planning or portfolio support function?

- A. Providing oversight, scrutiny and challenge
- B. Aligning programmes with strategic objectives
- C. Providing a single flexible resource pool
- D. Prioritizing programmes within the portfolio

**Answer: C**

**Explanation:**

The P3O Foundation (2013) manual lists prioritizing programmes, aligning with objectives, and providing oversight as strategic planning or portfolio support functions, but not providing a flexible resource pool.

Section 2.2.2 states, "Strategic planning and portfolio support functions include prioritizing programmes, aligning with strategic objectives, and providing oversight and challenge." A resource pool (B) is a delivery support function (Section 7.2), not a strategic one. The 2013 edition distinguishes these roles to clarify P3O's multifaceted support, ensuring strategic functions focus on direction

and governance, not resource allocation.

#### NEW QUESTION # 59

Which is a typical constraint which impacts on how a P3O is implemented?

- A. Quality, standardized data is needed
- B. Pace of change must take into account current P3M3 maturity
- C. P3O assurance services must be independent
- **D. P3O governance must align with existing corporate governance**

**Answer: D**

Explanation:

The P3O Foundation (2013) manual identifies alignment with existing corporate governance as a typical implementation constraint. Section 4.2.3 states, "A key constraint in P3O implementation is ensuring its governance aligns with the organization's existing corporate governance framework to maintain coherence and authority." This differs from pace of change (A), data quality (B), or assurance independence (C), which are operational considerations. The 2013 edition emphasizes this alignment to avoid conflicts, ensuring the P3O integrates seamlessly. This constraint shapes the implementation strategy and structure.

#### NEW QUESTION # 60

Which is a purpose of the Consultancy and Performance Management role?

- A. Assists with budget control
- B. Provides benefits realization support
- **C. Creates, maintains and distributes good practice**
- D. Identifies, monitors and resolves issues

**Answer: C**

Explanation:

The Consultancy and Performance Management role's purpose includes creating, maintaining, and distributing good practice, as per the P3O Foundation (2013) manual. Section 3.5.5 states, "The Consultancy and Performance Management function is responsible for creating, maintaining, and distributing good practice guidance to enhance PPM maturity across the organization." This differs from budget control (A), benefits realization (C), or issue management (D), which are handled by other roles like the Portfolio Analyst or Programme Office. The 2013 edition underscores this role's focus on standardizing processes, supporting P3O's goal of improving performance through shared knowledge. This ensures consistent application of best practices.

#### NEW QUESTION # 61

Which P3O capability is MOST likely to result in being able to stop inappropriate programmes?

- A. Reduction in resource
- B. Increased ability to bundle related requests for change for programmes
- C. Reduction in overheads dealing with conflicting resources
- **D. Ongoing alignment of programmes with strategic objectives and targets**

**Answer: D**

Explanation:

The P3O Foundation (2013) manual indicates that ongoing alignment with strategic objectives is the capability most likely to stop inappropriate programmes. Section 2.2.3 states, "Ongoing alignment of programmes with strategic objectives and targets enables the P3O to identify and terminate initiatives that no longer support organizational goals." This contrasts with resource reduction (A), overhead reduction (C), or bundling requests (D), which address efficiency or coordination rather than strategic fit. The 2013 edition emphasizes this alignment as a core P3O function, ensuring resources focus on value-adding initiatives. This capability enhances governance effectiveness.

### NEW QUESTION # 62

Which is delivered by the Blueprint's information flows?

- A. Realization of benefits
- B. Management of risk
- **C. Principle of management by exception**
- D. P3O implementation plan

**Answer: C**

Explanation:

The P3O Foundation (2013) manual indicates that the Blueprint's information flows deliver the principle of management by exception. Section 4.3.3 states, "The Blueprint's information flows support the principle of management by exception by providing senior management with critical data to focus on deviations rather than routine operations." This differs from the implementation plan (A), risk management (B), or benefits realization (D), which are separate processes. The 2013 edition highlights this principle as a governance mechanism, enabling efficient oversight by escalating only significant issues. This enhances P3O's strategic focus during implementation.
