All in all, buying our Sharing-and-Visibility-Architect Test Prep can not only help you pass the exam but also help realize your dream about your career and your future. So don't be hesitated to buy our Sharing-and-Visibility-Architect exam materials and take action immediately.

Salesforce Sharing-and-Visibility-Architect (Salesforce Certified Sharing and Visibility Architect) Exam is designed for individuals who specialize in the design and implementation of sharing and visibility solutions in Salesforce. Salesforce Certified Sharing and Visibility Architect certification is ideal for professionals who have a strong understanding of Salesforce's sharing model, as well as the ability to design and implement complex sharing rules, sharing sets, manual sharing, and other sharing and visibility features. Additionally, candidates for this certification should be able to design and implement custom security solutions, including field-level security, record-level security, and role hierarchy.

As a Sharing and Visibility Architect, you will be working on the most complex sharing and visibility requirements that require advanced skills and experience. You will need to leverage deep technical skills to optimize a project's sharing architecture, design efficient sharing rules, maintain field-level security, and drive the implementation of access controls. Salesforce Certified Sharing and Visibility Architect certification will prepare you for advanced Salesforce architect and consulting roles that require deep expertise in sharing and visibility, security models, and governance frameworks. Additionally, this certification will provide you with a comprehensive set of skills that will enable you to lead enterprise-level projects with confidence and drive innovation in Salesforce architecture.

The Salesforce Sharing-and-Visibility-Architect pdf dumps version allows you to print the Salesforce Sharing-and-Visibility-Architect exam questions easily and access it everywhere.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q40-Q45):

NEW QUESTION # 40

Sales operations at Universal Containers (UC) has created Public Reports and Dashboards folders for sales managers. Sales

operations and sales managers' report to the VP of Sales. Sales operations currently spends a few hours each month updating users that should have access to edit reports and dashboards in these folders.

How should UC grant access to sales managers to automate access to these Public Reports and Dashboard folder?

- **A. Share the folders with the Sales Managers profile.**
- B. Share the folders with the lowest rates in the Role Hierarchy; superiors will get access automatically.
- C. Share the folders with a "Sales Managers" Public Group.

Answer: A

NEW QUESTION # 41

Universal Containers wants to store Payment Term Details on the Account object, but the fields should only be visible on certain record types and for certain user profiles.

How can a System Administrator quickly determine which user profiles, page layouts, and record types include certain fields?

- **A. Use the Field Accessibility Viewer for the fields in question**
- B. Log in as each user profile and view the Account Page Layouts.
- C. Universally require the field at the field level.
- D. Click the Field-Level Security for the field on each Profile.

Answer: A

Explanation:

Explanation

The Field Accessibility Viewer is a tool that allows you to see how a field is visible or editable for a specific profile or permission set. You can also see which page layouts and record types include the field. This is a quick way to determine the field accessibility settings for different users without logging in as each user profile or clicking on each profile.

NEW QUESTION # 42

Universal Containers is implementing Sales Cloud. During the final quarter of the financial year, sales managers help each other close deals. They requested a solution in Salesforce to allow them to share opportunities with other sales managers from different teams as needed. They also requested that sharing deals should expire automatically 2 weeks after the new fiscal year starts.

Which proposed solution meets the requirements?

- **A. Scheduled Apex job to remove access**
- B. Sharing rules to share opportunities with sales managers
- **C. Apex sharing to share opportunities with sales managers**

Answer: A,C

Explanation:

To meet the requirement of sharing opportunities for collaboration and automatically expiring access, the following approach is best:

* Apex Sharing (Answer A): Apex sharing allows sales managers to share opportunities with specific users. This is essential for ad-hoc and granular sharing that isn't feasible with criteria-based or owner-based sharing rules.

* Scheduled Apex Job (Answer B): Use a scheduled Apex job to remove sharing entries after a specific date, ensuring access expires two weeks after the new fiscal year begins. This provides automation and aligns with the requirement for access expiration.

Option C: Sharing rules cannot handle time-based expiration, making them unsuitable for this use case.

NEW QUESTION # 43

Who can view a PDF that is uploaded to the Files Home private library by a user?

- A. The user and users above them in the Role Hierarchy
- **B. Only the user**
- C. The user and users with View All Data permission

Answer: B

Explanation:

Files uploaded to a user's private library in Salesforce Files Home are strictly private and visible only to the user who uploaded them. Even users with elevated permissions, such as those with "View All Data" access, or users higher in the Role Hierarchy, cannot view these files. This ensures the utmost privacy for files stored in a private library.

* Option A: Role Hierarchy does not affect access to files stored in a private library.

* Option B: "View All Data" does not grant access to files in private libraries.

* Option C (Correct): Only the user who uploaded the file can view it in their private library.

NEW QUESTION # 44

Universal Containers created a custom object called Defect and would like to enable the Sharing button on the Defect page layout to share the records manually to other users in the organization. In which scenario will the Sharing button appear?

- A. The Sharing model is Public Read/Write/Transfer.
- B. The Sharing button always appears.
- C. The Sharing model is Public Read/Write.
- **D. The Sharing model is either Private or Public Read only.**

Answer: D
