

# 1Z1-182 Test Guide - 1Z1-182 Valid Exam Prep

Oracle 1Z1-082 Oracle Database Administration I

### Three Formats for Oracle 1Z1-082 Practice Tests 2Pass4sure Exam Prep Solutions

P.S. Free & New 1Z1-082 dumps are available on Google Drive shared by 2Pass4sure: [https://drive.google.com/open?id=11A\\_7kNriQdVrKnUranCG0ldKkX2LF5NG](https://drive.google.com/open?id=11A_7kNriQdVrKnUranCG0ldKkX2LF5NG)

We will provide 24 hour online service for you on our 1Z1-082 exam questions. If you can't decide which format of 1Z1-082 exam practice to choose, you can have a chance to contact us. You can put the questions to get you want to study about our 1Z1-082, 1Z1-082, 1Z1-082, we will listen to you carefully. according to your 1Z1-082 exam, we guarantee to meet your requirements without wasting your purchasing funds.

Oracle 1Z1-082 exam covers a wide range of topics that are essential for Oracle Database Administration. This range includes the installation and configuration of Oracle Database, database backup and recovery, performance tuning, and security management. 1Z1-082 exam is designed to test the candidate's ability to perform tasks such as installing and configuring Oracle Database, creating and managing database objects, and implementing security measures to protect sensitive information.

Oracle 1Z1-082 is a certification exam that evaluates the skills and knowledge of professionals in the field of Oracle database administration. 1Z1-082 exam is designed to assess the candidate's understanding of the Oracle Database architecture, installation, configuration, and management. Passing 1Z1-082 exam is a prerequisite for professionals to earning to become Oracle Certified Associate (OCA) in Oracle Database 19c.

What's more, part of that DumpsFree 1Z1-182 dumps now are free: [https://drive.google.com/open?id=11A\\_7kNriQdVrKnUranCG0ldKkX2LF5NG](https://drive.google.com/open?id=11A_7kNriQdVrKnUranCG0ldKkX2LF5NG)

Our 1Z1-182 training braindumps are famous for its wonderful advantages. The content is carefully designed for the 1Z1-182 exam, rich question bank and answer to enable you to master all the test knowledge in a short period of time. Our 1Z1-182 Exam Questions have helped a large number of candidates pass the 1Z1-182 exam yet. Hope you can join us, and we work together to create a miracle.

## Oracle 1Z1-182 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Introduction to Performance: This section evaluates the expertise of Performance Analysts in summarizing Oracle database performance management techniques. It includes measuring database performance using SQL execution plans, directives, and advisors to ensure optimal system efficiency.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Configuring Oracle Net Services: This section measures the skills of Network Administrators and Database Administrators in configuring Oracle Net Services. It includes identifying administration components, describing connection methods, and ensuring seamless communication between clients and databases.</li> </ul>

Topic 3	<ul style="list-style-type: none"> <li>Describe Oracle Database Architecture: This section of the exam measures the skills of Database Administrators and System Architects in understanding the Oracle database architecture. It covers the configurations of Oracle database instances, memory structures like SGA and PGA, and process structures such as background processes. It also explains the logical and physical database structures, including datafiles, control files, and redo log files.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Managing Undo: This domain measures the skills of Database Administrators in using undo data effectively. It compares undo data with redo data and explains temporary undo usage for efficient transaction management.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Displaying Creating and Managing PDBs: This section assesses the knowledge of Cloud Database Architects in creating pluggable databases (PDBs) from seeds or other techniques. It also covers modifying PDB modes and attributes to meet specific application requirements.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Moving Data: This section evaluates the expertise of Data Migration Specialists in moving data within Oracle databases. It includes using external tables, executing Oracle Data Pump operations, and distinguishing SQL*Loader commands for importing data efficiently.</li> </ul>

## 2026 100% Free 1Z1-182 –Valid 100% Free Test Guide | Oracle Database 23ai Administration Associate Valid Exam Prep

We are committed to designing a kind of scientific 1Z1-182 study material to balance your business and study schedule. With our 1Z1-182 exam guide, all your learning process includes 20-30 hours. As long as you spare one or two hours a day to study with our laTest 1Z1-182 Quiz prep, we assure that you will have a good command of the relevant knowledge before taking the 1Z1-182 exam. What you need to do is to follow the 1Z1-182 exam guide system at the pace you prefer as well as keep learning step by step.

### Oracle Database 23ai Administration Associate Sample Questions (Q58-Q63):

#### NEW QUESTION # 58

What are the three components of Oracle Database Automatic Maintenance Tasks?

- A. A packaging system that allows you to combine all error and failure logs to share with Oracle Support.
- B. Oracle Database Resource Manager, which enables you to manage and configure system resources used by the Automatic Maintenance Tasks.
- C. The maintenance windows managed by Oracle Database Scheduler, which are predefined time intervals permitting scheduled tasks.
- D. A set of tasks that are started automatically at regular intervals to perform maintenance operations on the database.
- E. A database alert log that stores details about major database operations and errors, which is used to manage cluster performance.
- F. A diagnostic system that collects database error logs and details about database failures that can be found to diagnose complete file.

**Answer: B,C,D**

Explanation:

- A .False. Diagnostic collection is ADR, not AMT.
- B .True. Resource Manager allocates resources to AMTs.
- C .True. Scheduler defines maintenance windows.
- D .False. Packaging is IPS/ADR, not AMT.
- E .False. Alert log is separate from AMTs.
- F .True. Tasks like stats collection are AMTs.

### NEW QUESTION # 59

You are going to perform a hot remote clone of PDB1 from CDB1 as TESTPDB in CDB2. Which of the following is a necessary prerequisite for the hot remote clone?

- A. PDB1 must be taken offline before the cloning process begins.
- B. Both CDBs need to be in local undo mode.
- C. TESTPDB must be in read-only mode after the cloning process is complete.
- **D. PDB1 must be in read-only mode.**

**Answer: D**

Explanation:

C . True. Hot cloning requires the source PDB (PDB1) to be read-only to ensure consistency during the clone. Others are not prerequisites.

### NEW QUESTION # 60

Examine this command: ALTER DATABASE MOVE DATAFILE '\u01/sales1.dbf' TO '\u01/sales01.dbf' REUSE; Which two statements are true?

- **A. DML may be performed on tables with one or more extents in this data file during the execution of this command.**
- B. If Oracle Managed Files (OMF) is used, then the file is renamed but moved to DB\_CREATE\_FILE\_DEST.
- C. The tablespace containing SALES1.DBF must be altered READ ONLY before executing the command.
- **D. The file is renamed and stored in the same location.**
- E. The tablespace containing SALES1.DBF must be altered OFFLINE before executing the command.

**Answer: A,D**

Explanation:

This command moves/renames a data file online. Let's evaluate:

A . DML may be performed on tables with one or more extents in this data file during the execution of this command.

True. Introduced in 12c and refined in 23ai, MOVE DATAFILE is an online operation, allowing DML (e.g., INSERT, UPDATE) on tables within the file. Oracle ensures consistency via redo and undo.

Mechanics:The file is copied to the new location/name while tracking changes, then switched atomically.

Practical Use:Minimizes downtime in production systems.

B . If Oracle Managed Files (OMF) is used, then the file is renamed but moved to DB\_CREATE\_FILE\_DEST.

False. With OMF, omitting the TO clause would place the file in DB\_CREATE\_FILE\_DEST, but here, TO '\u01/sales01.dbf' explicitly specifies the target, overriding OMF defaults.

Mechanics:OMF only applies if the destination is unspecified (e.g., MOVE DATAFILE ... without TO).

Why Incorrect:Explicit path trumps OMF behavior.

C . The tablespace containing SALES1.DBF must be altered READ ONLY before executing the command.

False. READ ONLY isn't required; the operation is online and supports active use.

Why Incorrect:Conflicts with Oracle's online move feature.

D . The file is renamed and stored in the same location.

True. The command renames /u01/sales1.dbf to /u01/sales01.dbf (correcting \u01 to /u01 as a Windows/Unix typo), keeping it in /u01/. REUSE allows overwriting if sales01.dbf exists.

Mechanics:File is copied and renamed in-place within the same filesystem directory.

E . The tablespace containing SALES1.DBF must be altered OFFLINE before executing the command.

False. Offline mode isn't needed; the online move handles active tablespaces.

### NEW QUESTION # 61

What memory structure caches the data dictionary providing access to all database user processes?

- **A. The Shared Pool**
- B. The Large Pool
- C. The Java Pool
- D. The Streams Pool

**Answer: A**

Explanation:

D .True. The Shared Pool caches data dictionary metadata (e.g., table definitions) in the Library Cache and Dictionary Cache, accessible to all processes. Others serve different purposes (e.g., Large Pool for backups).

### NEW QUESTION # 62

Which two statements are true regarding Oracle database space management within blocks managed by Automatic Segment Space Management (ASSM)?

- A. Insert operations always insert new rows into blocks with free space appropriate to the length of the row being inserted.
- B. ASSM assigns blocks to one of the four fullness categories based on what percentage of the block is allocated for rows.
- C. The first block with enough free space to accommodate a row being inserted will always be used for that row.
- D. Update operations always relocate rows into blocks with free space appropriate to the length of the row being updated.
- E. PCTFREE defaults to 10% for all blocks in all segments for all compression methods.

Answer: A,B

Explanation:

A .True. ASSM categorizes blocks (e.g., 0-25%, 25-50%) for efficient space use.

B .False. Updates may cause chaining/migration, not always relocation.

C .True. ASSM optimizes inserts into suitable blocks.

D .False. ASSM uses a bitmap, not necessarily the first block.

E .False. PCTFREE is segment-specific, not universally 10%.

### NEW QUESTION # 63

.....

Are you often regretful that you have purchased an inappropriate product? Unlike other platforms for selling test materials, in order to make you more aware of your needs, 1Z1-182 study materials provide sample questions for you to download for free. You can use the sample questions to learn some of the topics about 1Z1-182 study materials and familiarize yourself with the 1Z1-182 software in advance. If you feel that the 1Z1-182 study materials are satisfying to you, you can choose to purchase our complete question bank. After the payment, you will receive the email sent by the system within 5-10 minutes. Click on the login to start learning immediately with 1Z1-182 study materials. No need to wait.
