300-415 Valid Exam Blueprint & Test 300-415 Quiz

Our 300-415 preparation dumps are considered the best friend to help the candidates on their way to success for the exactness and efficiency based on our experts' unremitting endeavor. This can be testified by our claim that after studying with our 300-415 Actual Exam for 20 to 30 hours, you will be confident to take your 300-415 exam and successfully pass it. Tens of thousands of our loyal customers relayed on our 300-415 preparation materials and achieved their dreams.

Cisco Implementing Cisco SD-WAN Solutions Sample Questions (Q517-Q522):

NEW QUESTION # 517

Drag and drop the actions from the left into the correct sequence on the right to create a data policy to direct traffic to the Internet exit.

Apply data policy.	step 1
Enable NAT functionality.	step 2
Create centralized data policy.	step 3
Identify VPN and match criteria.	step 4

Answer:

Explanation:

Apply data policy.	Enable NAT functionality.
Enable NAT functionality.	Create centralized data policy.
Create centralized data policy.	Identify VPN and match criteria.
Identify VPN and match criteria.	Apply data policy.

NEW QUESTION # 518

Drag and drop the alarm slates from the left onto the corresponding alarm descriptions on the right.

Critical (Red)	events that might diminish performance of network
Major (Yellow)	events that impair overlay network function
Medium (Blue)	events that affect operation of network function
Minor (Green)	events that might impair performance of network

Answer:

Explanation:

Critical (Red)	Minor (Green)
Major (Yellow)	Critical (Red)
Medium (Blue)	Medium (Blue)
Minor (Green)	Major (Yellow)

- * Critical (Red): events that impair overlay network function
- * Major (Yellow): events that might impair performance of network
- * Medium (Blue): events that affect operation of network function
- * Minor (Green): events that might diminish performance of network
- * Critical (Red): These are the highest severity alarms indicating events that can cause significant impairment to the overlay network's functionality. Immediate attention is required to prevent major network issues.
- * Major (Yellow): These alarms indicate events that could potentially impair network performance. They are serious but not as critical as red alarms. They need prompt attention to prevent degradation in network performance.
- * Medium (Blue): These alarms are of medium severity and indicate events that affect the operation of the network function. They are important but do not require immediate action.
- * Minor (Green): These are the lowest severity alarms and indicate events that might diminish network performance. They are more informational and do not typically require urgent action.

NEW QUESTION # 519

What is the purpose of "vpn 0" in the configuration template when onboarding a WAN edge node?

- A. It carries control out-of-band network management traffic among the Viptela devices in the overlay network.
- B. It carries control traffic over secure DTLS or TLS connections between vSmart controllers and vEdge routers, and between vSmart and vBond
- C. It carries control traffic over secure IPsec connections between vSmart controllers and vEdge routers, and between vSmart and vManager
- D. It carries control traffic over secure DTLS or TLS connections between vSmart controllers and vEdge
- E. routers, and between vSmart and vBond

Answer: B

Explanation:

- VPN 0 is the transport VPN. It carries control traffic over secure DTLS or TLS connections between vSmart controllers and vEdge routers, and between vSmart controllers and vBond orchestrators. Initially, VPN 0 contains all a device's interfaces except for the management interface, and all the interfaces are disabled. For the control plane to establish itself so that the overlay network can function, you must configure WAN transport interfaces in VPN 0.

NEW QUESTION # 520

Drag and drop the route verification output from show omp tlocs from the left onto the correct explanations on the right.

shows if the route was chosen to enter the routing table or not	system ID
ENCAPSULATION	attribute of WAN link
COLOR	type of tunnel being used
TLOC IP	TLOC route status

Answer:

Explanation:

shows if the route was chosen to enter the routing table or not	TLOC IP
ENCAPSULATION	COLOR
COLOR	ENCAPSULATION
TLOC IP	shows if the route was chosen to enter the routing table or not

NEW QUESTION # 521

An enterprise has several sites with multiple VPNs that are isolated from each other. A new requirement came where users in VPN 73 must be able to talk to users in VPN 50. Which configuration meets this requirement?

- A. Option B
- B. Option D
- C. Option C
- D. Option A

Answer: D

NEW QUESTION # 522

.....

It can be said that all the content of the 300-415 study materials are from the experts in the field of masterpieces, and these are understandable and easy to remember, so users do not have to spend a lot of time to remember and learn. It takes only a little practice on a daily basis to get the desired results. Especially in the face of some difficult problems, the user does not need to worry too much, just learn the 300-415 Study Materials provide questions and answers, you can simply pass the exam.
