### Product Version

- ✓ Up to Date products, reliable and verified.
- ✓ Questions and Answers in PDF Format.

P.S. Free & New OGEA-101 dumps are available on Google Drive shared by Exams4sures: <https://drive.google.com/open?id=1UgDD-xLudzcW-SZJgPnEZpRrlhJYERF7>

Are you planning to appear in the TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) certification test and need to know where to get updated practice questions? Then you are at the right place because TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) has made the learning material for the applicants to prepare successfully for the certification exam in a short time.

## The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 Exam.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Architecture Content Framework: Candidates learn about the TOGAF content metamodel and architecture artifacts. This topic of the OGEA-101 exam measures their understanding of content organization and documentation.</li> </ul>

## Updated 100% Free OGEA-101 – 100% Free New Test Online | Valid OGEA-101 Study Plan

If you are determined to enter into The Open Group company or some companies who are the product agents of The Open Group, a good certification will help you obtain more jobs and high positions. Exams4sure release high passing-rate OGEA-101 exam simulations to help you obtain certification in a short time. If you obtain a certification you will get a higher job or satisfying benefits with our OGEA-101 Exam Simulations. Every day there is someone choosing our exam materials. If this is what you want, why are you still hesitating?

## The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q34-Q39):

### NEW QUESTION # 34

Complete the sentence A business scenario describes \_\_\_\_\_

- A. business and technology environment in which those problems occur
- B. general rules and guidelines for the architecture being developed
- C. shortfalls between the Baseline and Target Architectures
- D. business domain gaps such as cross-training requirements

**Answer: A**

Explanation:

A business scenario describes business and technology environment in which those problems occur. It provides a realistic context for identifying and addressing business problems and opportunities, as well as their impact on the enterprise's architecture. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.1 Business Scenarios.

business and technology environment in which those problems occur [https://pubs.opengroup.org/togaf-standard/business-architecture/business-scenarios.html#\\_Toc68617078](https://pubs.opengroup.org/togaf-standard/business-architecture/business-scenarios.html#_Toc68617078) " A Business Scenario is a uniform description of: - Real business problems - The business and technology environment in which those problems occur - Value streams enabled by capabilities - The desired outcome(s) of proper execution - The human and computing components (the "actors") who provide the capabilities"

### NEW QUESTION # 35

Consider the following statements of Phase E and Phase F objectives:

\* Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous

business value

- \* Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D
- \* Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan
- \* Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders Which two are objectives of ADM Phase E?

- A. 4 & 1
- **B. 1 & 2**
- C. 2 & 3
- D. 3 & 4

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation

The TOGAF ADM defines distinct objectives for Phase E (Opportunities and Solutions) and Phase F (Migration Planning).

Phase E: Opportunities and Solutions

- \* Focuses on generating the initial Architecture Roadmap.
- \* Identifies major work packages, Transition Architectures, and projects.
- \* Determines if an incremental approach is needed, and defines Transition Architectures to ensure delivery of continuous business value.

Therefore:

- \* Statement 1 (incremental approach and Transition Architectures) belongs to Phase E.
- \* Statement 2 (initial Architecture Roadmap based on gap analysis) also belongs to Phase E.

Phase F: Migration Planning

- \* Finalizes the Architecture Roadmap.
- \* Develops the detailed Implementation and Migration Plan.
- \* Ensures stakeholders understand the business value and cost of work packages and Transition Architectures.

Therefore:

- \* Statement 3 (finalizing the Roadmap and Plan) belongs to Phase F.
- \* Statement 4 (ensuring value and cost are understood by stakeholders) belongs to Phase F.

Correct Mapping

- \* Phase E Objectives = Statements 1 and 2
- \* Phase F Objectives = Statements 3 and 4

Thus the correct answer is A (1 & 2).

References

- \* The Open Group, TOGAF Standard, Version 9.2, Part II: ADM - Phase E: Opportunities and Solutions (objectives include generating the initial Architecture Roadmap, identifying major work packages, determining incremental approach and Transition Architectures).
- \* Phase F: Migration Planning (objectives include finalizing the Architecture Roadmap and Implementation & Migration Plan, and confirming business value and costs with stakeholders).
- \* The Open Group, TOGAF 9 Certified Study Guide - comparison of Phase E vs. Phase F objectives.

## NEW QUESTION # 36

Consider the illustration.

□ What are the items labelled A, B and C?

- A. A-Enterprise Architecture, B-Architecture Building Blocks, C-Solutions Building Blocks
- B. A-Enterprise Strategic Architecture, B-Segment Architecture, C-Solutions Architecture
- **C. A-Enterprise Continuum, B-Architecture Continuum, C-Solutions Continuum**
- D. A-Architecture Vision, B-Business Architecture, C-Information Systems Architecture

**Answer: C**

Explanation:

The illustration shows the relationship between the Enterprise Continuum, the Architecture Continuum, and the Solutions Continuum, which are key concepts in the TOGAF framework. The Enterprise Continuum is a view of the Architecture Repository that shows how generic foundation architectures can be leveraged and specialized to support the requirements of an individual organization. The Architecture Continuum specifies a structured classification for architectural artifacts, such as models, patterns, and descriptions, that

can be reused and adapted across different domains and levels of abstraction. The Solutions Continuum identifies implemented solutions that support various stages of business and IT capability evolution, such as common systems, industry solutions, and organization-specific solutions. The illustration also shows how the architecture context and requirements are influenced by external factors, such as business drivers, stakeholders, and standards, and how they shape the generic and specific architectures and solutions. The illustration also shows how the deployed solutions become part of the architecture context for future iterations of the architecture development cycle. Reference:

\* TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Architecture Repository, Section 6.2 Enterprise Continuum

\* TOGAF Standard, 10th Edition, Part IV: Architecture Content Framework, Chapter 35: Enterprise Continuum and Tools, Section 35.1 Introduction.

#### NEW QUESTION # 37

Complete the sentence. Risk management involves: risk classification, identification,

- A. measurement, response
- B. auditing, evaluation
- C. assessment, monitoring, mitigation and
- D. reporting, treatment

**Answer: C**

#### NEW QUESTION # 38

Which ADM phase focuses on defining the problem to be solved, identifying the stakeholders, their concerns, and requirements?

- A. Phase A
- B. Phase
- C. Preliminary Phase
- D. Phase

**Answer: A**

Explanation:

Phase A: Architecture Vision is the first phase of the Architecture Development Method (ADM) cycle, which is the core of the TOGAF standard. The main purpose of this phase is to define the scope and approach of the architecture development, and to create the Architecture Vision, which is a high-level description of the desired outcomes and benefits of the proposed architecture. To achieve this purpose, this phase focuses on defining the problem to be solved, identifying the stakeholders, their concerns, and requirements, and establishing the business goals and drivers that motivate the architecture work. This phase also involves obtaining the approval and commitment of the sponsors and other key stakeholders, and initiating the Architecture Governance process.

#### NEW QUESTION # 39

.....

Exams4sures made an absolute gem of study material which carries actual The Open Group OGEEA-101 Exam Questions for the students so that they don't get confused in order to prepare for The Open Group OGEEA-101 exam and pass it with a good score. The The Open Group OGEEA-101 practice test questions are made by examination after consulting with a lot of professionals and receiving positive feedback from them. The TOGAF Enterprise Architecture Part 1 Exam (OGEEA-101) practice test questions prep material has actual The Open Group OGEEA-101 exam questions for our customers so they don't face any hurdles while preparing for The Open Group OGEEA-101 certification exam.
