免費PDF CIS-HAM認證 & ServiceNow CIS-HAM通過了考試

我們都知道在現在這個競爭激烈的IT行業，擁有一些IT相關認證證書是很有必要的。IT認證證書是對你的IT專業知

識和經驗的最好證明。在IT行業中ServiceNow CIS-HAM 認證考試是一個很重要的認證考試，但是通過ServiceNow CIS-HAM 認證考試是有一定難度的。但是為了能讓工作職位有所提升花點金錢選擇一個好的培訓機構來幫助你通過考試是值得的。NewDumps擁有最新的針對ServiceNow CIS-HAM認證考試的培訓資料，與真實的考試很95%相似性。如果你使用NewDumps提供的培訓，你可以100%通過考試。如果你考試失敗，我們會全額退款。

CIS-HAM認證展示出在ServiceNow中硬件資產管理工具的知識和熟練程度上更高的水平。獲得CIS-HAM認證確立IT專業人員作為企業硬件資產管理的監控、測量和優化的領袖。ServiceNow CIS-HAM認證考試是一個有效的工具，幫助IT專業人員提高職業生涯並獲得能夠對企業淨利潤產生影響的知識。

最新的 CIS-Hardware Asset Management CIS-HAM 免費考試真題 (Q188-Q193):

問題 #188

What minimum role is required in order to use the Hardware Asset dashboard?

- A. asset
- B. inventory_admin
- C. ham_admin
- **D. ham_user**
- E. asset_manager

答案: **D**

解題說明:

According to the ServiceNow IT Asset Management (ITAM) Hardware Asset Management (HAM) learning path, the Hardware Asset dashboard is a feature that shows key metrics on your hardware and consumable models and assets for the entire asset life cycle.

The Hardware Asset dashboard is available with the Hardware Asset Management (HAM) application, which is a licensable application that provides advanced workflow, automation, and mobile capabilities to maintain your assets¹.

To access the Hardware Asset dashboard, you need to have the ham_user role, which is the minimum role required to use the HAM application¹.

The ham_user role grants you the permission to view and update hardware and consumable assets, transfer orders, disposal orders, and RMA requests¹.

Therefore, the correct answer is option C, ham_user, as it is the minimum role required to use the Hardware Asset dashboard.

問題 #189

Which of the following are valid contract states during a contract's lifecycle? (Choose four.)

- **A. Canceled**
- B. Draft
- C. Active
- **D. Renegotiated**
- E. Renewed
- **F. Extended**
- **G. Expired**

答案: **A,D,F,G**

問題 #190

Once the content update adds hardware lifecycle data to your instance, can it be deleted?

- A. Yes, it can
- **B. Yes, it can be deleted or deactivated**
- C. No, it cannot unless the lifecycle stage is EOL
- D. No, it cannot

答案： B

解題說明：

The content update refers to the Hardware Model Normalization Content Service, which is a feature that enables users to normalize the details of their hardware and consumable models by comparing them against the data in the content service¹.

The content service provides hardware lifecycle data, such as end-of-life (EOL), end-of-support (EOS), and end-of-availability (EOA) dates, for the normalized models².

Once the content update adds hardware lifecycle data to your instance, you can delete or deactivate the models that you do not need or use³.

To delete a model, you can navigate to Hardware Asset Management > Model Management > Hardware Models, select the model you want to delete, and click Delete³.

To deactivate a model, you can navigate to Hardware Asset Management > Model Management > Hardware Models, select the model you want to deactivate, and uncheck the Active box³. References:

問題 #191

An event runs each night to send reminders to contract administrators about contract expiration dates (e.g., so they can renew or renegotiate the contract). By default, when does the contract administrator receive these notifications? (Choose four.)

- A. 60 days before
- B. Day of expiration
- C. 90 days before
- D. 30 days before
- E. 10 days before
- F. 1 week before

答案： A,B,C,D

解題說明：

According to the ServiceNow Hardware Asset Management overview document¹, the lease contract expiration flow sends notifications to the contract administrator before a lease contract expires and helps them act on the leased assets to return the asset or extend the contract.

According to the ServiceNow Elite blog post on contract management², when the contract.expiration event runs on the Contract [ast.contract] table each night, an email message is sent to the person identified as the contract administrator at the following times:

90 days ahead of the contract expiration date

60 days ahead of the contract expiration date

30 days ahead of the contract expiration date

Day of expiration

Therefore, the correct answer is C, D, E, and F.

問題 #192

With regard to Contract Management notifications, what is the most important contract date to be aware of?

- A. Renew date
- B. Start date
- C. Extend date
- D. Expire date

答案： D

解題說明：

Contract Management notifications are sent to contract administrators to remind them of contract expiration dates so they can renew

or renegotiate the contract¹.

The expire date is the most important contract date to be aware of because it indicates when the contract is no longer valid and the service or product is no longer covered².

If a contract expires without renewal or extension, it can result in penalties, service downtime, or loss of warranty or maintenance³. Therefore, the expire date is the most critical date for contract management and should be monitored closely. Reference:
