

Practical FCSS_SDW_AR-7.6 Question Dumps is Very Convenient for You - PassLeader

P.S. Free 2026 Fortinet FCSS_SDW_AR-7.6 dumps are available on Google Drive shared by PassLeader:
<https://drive.google.com/open?id=1AEFYJgc28I98bmVXJ-qJm78t8uOMhPHn>

Market is a dynamic place because a number of variables keep changing, so is the practice materials field of the FCSS_SDW_AR-7.6 practice exam. Our FCSS_SDW_AR-7.6 exam dumps are indispensable tool to pass it with high quality and low price. By focusing on how to help you effectively, we encourage exam candidates to buy our FCSS_SDW_AR-7.6 practice test with high passing rate up to 98 to 100 percent all these years. Our Fortinet exam dumps almost cover everything you need to know about the exam. As long as you practice our FCSS_SDW_AR-7.6 Test Question, you can pass exam quickly and successfully. By using them, you can not only save your time and money, but also pass FCSS_SDW_AR-7.6 practice exam without any stress.

If you fail in the exam, we will refund you in full immediately at one time. After you buy our FCSS - SD-WAN 7.6 Architect exam torrent you have little possibility to fail in exam because our passing rate is very high. But if you are unfortunate to fail in the exam we will refund you immediately in full and the process is very simple. If only you provide the scanning copy of the FCSS_SDW_AR-7.6 failure marks we will refund you immediately. If you have any doubts about the refund or there are any problems happening in the process of refund you can contact us by mails or contact our online customer service personnel and we will reply and solve your doubts or questions timely.

Real FCSS_SDW_AR-7.6 Exam - Reliable FCSS_SDW_AR-7.6 Exam Cost

If you feel that you always suffer from procrastination and cannot make full use of your spare time, maybe our FCSS_SDW_AR-7.6 study materials can help you solve your problem. We are willing to recommend you to try the FCSS_SDW_AR-7.6 practice guide from our company. Our FCSS_SDW_AR-7.6 learning questions are in high quality and efficiency test tools for all people. You can just try our three different versions of our FCSS_SDW_AR-7.6 training quiz, you will find that you can study at anytime and anyplace.

Fortinet FCSS - SD-WAN 7.6 Architect Sample Questions (Q87-Q92):

NEW QUESTION # 87

Refer to the exhibits.

```
Global System configuration

config system global
    set snat-route-change enable
end

Interface port2 configuration

config system interface
    [...]
    edit "port2"
        set vdom "root"
        set mode dhcp
        set allowaccess ping
        set type physical
        set snmp-index 2
    next
    [...]

Routing Table on FortiGate

branch1_fgt # get router info routing-table all
Codes: K - kernel, C - connected, S - static, R - RIP, B - BGP
O - OSPF, IA - OSPF inter area
N1 - OSPF NSSA external type 1, N2 - OSPF NSSA external type 2
E1 - OSPF external type 1, E2 - OSPF external type 2
i - IS-IS, L1 - IS-IS level-1, L2 - IS-IS level-2, ia - IS-IS inter area
* - candidate default

Routing table for VRF=0
S*   0.0.0.0/0 [1/0] via 192.2.0.2, port2, [1/0]
      [1/0] via 192.2.0.10, port1 [10/0]
...
```

The exhibits show the source NAT (SNAT) global setting, port2 interface settings, and the routing table on FortiGate.

The administrator increases the member priority on port2 to 20.

Upon configuration changes and the receipt of new packets, which two actions does FortiGate perform on existing sessions established over port2? (Choose two.)

- A. FortiGate flags the SNAT session as dirty only if the administrator has assigned an IP pool to the firewall policies with NAT.
- B. FortiGate routes only new sessions over port2.
- C. FortiGate continues routing all existing sessions over port2.
- **D. FortiGate flags the sessions as dirty.**
- **E. FortiGate updates the gateway information of the sessions with SNAT so that they use port1 instead of port2.**

Answer: D,E

Explanation:

When the member priority of a port is increased (e.g., port2 to 20), FortiGate evaluates existing sessions and applies "dirty" flags where applicable. The SD-WAN session management mechanism is described in detail: "Upon a change in SD-WAN member priority, all existing sessions using that member are marked as dirty. For SNAT sessions, the gateway information is updated to ensure future packets are routed through the newly preferred member, in this case, port1. This automatic re-evaluation allows SD-WAN to dynamically respond to topology or priority changes, maintaining optimal routing." This is fundamental to seamless failover and session persistence in Fortinet SD-WAN, ensuring active flows are redirected based on updated priorities or health status.

FortiOS 7.4 SD-WAN Concept Guide, "Session Management During Path Change" FortiGate CLI Reference: diagnose sys session list

NEW QUESTION # 88

Refer to the exhibits.

You use FortiManager to configure SD-WAN on three branch devices.

SD-WAN template zones and rules configuration

The screenshot shows the FortiManager configuration interface for SD-WAN. It is divided into two main sections: SD-WAN Zones and SD-WAN Rules.

SD-WAN Zones: This section contains a table of zones. The zones are:

ID	Name	Interface	Gateway	Cost	Priority	Status	Installation Target
1	virtual-wan-link						
2	underlay						
1		port1	\$(sdwan_port1_gw)	0	1	Enable	
2		port2	0.0.0.0	0	1	Enable	
	WAN3						
3		port4	\$(sdwan_port4_gw)	0	1	Enable	1 Device in Total branch1_fgt [root]
	HUB1						
4		HUB1-VPN1	0.0.0.0	0	1	Enable	
5		HUB1-VPN2	0.0.0.0	0	1	Enable	
6		HUB1-VPN3	0.0.0.0	0	1	Enable	

SD-WAN Rules: This section contains a table of rules. The rules are:

ID	Name	Source	Destination	Outgoing Interface	Outgoing IP	Status
1	Critical-DIA	LAN-r	Salesforce, Microsoft	port1, port2	any	Enable
2	Non-Critical-DIA	LAN-r	Facebook, LinkedIn, Game	port2	any	Enable
3	Corp	LAN-r	Corp-net	HUB1-VPN1, HUB1-VPN2, HUB1-VPN3	any	Enable
	sd-wan	All	All	Source IP	All	

FortiManager error message

The screenshot shows the FortiManager Install Wizard - Validate Devices (3/4) window. A red banner at the top indicates "Task finished with errors." Below this, a progress bar shows "Installation Preparation Total: 4/4, Success: 3, Warning: 0, Error: 1".

The "Ready to Install" section shows a list of devices with their status:

Device Name	Status	Action
branch1_fgt	Copy Failed	Log
branch2_fgt	Connection Up	
branch3_fgt	Connection Up	

```

View Install Log
Copy device global objects
Copy objects for vdom root
Commit failed:
error -999 - - (from Template Group Corp-SOT_Branch) (in Template branches)
invalid ip - prop[gateway]: ip4class(${sdwan_port1_gw}) invalid ip addr

```

When you install the device settings, FortiManager prompts you with the error "Copy Failed" for the device branch1_fgt. When you click the log button, FortiManager displays the message shown in the exhibit.

There are two different ways to resolve this issue. Based on the exhibits, which methods could you use? (Choose two.)

- A. Review the per-device mapping configuration for metadata variables
- B. Update the management IP address of branch1_fgt.
- C. Do not define installation targets for SD-WAN members.
- D. Specify the gateway of the SD-WAN member port1 with an IP address or use the default value.

Answer: A,D

Explanation:

Specify the gateway of the SD-WAN member port1 with an IP address or use the default value → The error log shows invalid ip - prop[gateway]: ip4class(\${sdwan_port1_gw}) invalid ip addr, meaning the variable \${sdwan_port1_gw} does not have a valid mapping. Assigning a valid IP address or default value for the gateway resolves this error.

Review the per-device mapping configuration for metadata variables → The issue is tied to how the metadata variable \${sdwan_port1_gw} is mapped for branch1_fgt. If this device does not have the variable properly defined in per-device mapping, the configuration will fail. Correcting the mapping ensures that the install works.

NEW QUESTION # 89

When you use the command diagnose sys session list, how do you identify the sessions that correspond to traffic steered according to SD-WAN rules?

- A. You identify sessions steered according to SD-WAN rules with the data vwl_mbr_seq.
- B. You cannot identify SD-WAN sessions. You must use the sdwan_session filter.
- C. You identify sessions steered according to SD-WAN rules with the flag vwl.
- D. You identify sessions steered according to SD-WAN rules with the data sdwan_service_id.

Answer: D

Explanation:

The sdwan_service_id field in the output of diagnose sys session list indicates that the session was selected based on an SD-WAN rule, allowing administrators to trace which SD-WAN service (rule) steered the traffic.

NEW QUESTION # 90

You configured an SD-WAN rule with the best quality strategy and selected the predefined health check, Default_FortiGuard, to check the link performances against FortiGuard servers.

For the quality criteria, you selected Custom-profile-1.

Which factors does FortiGate use, and in which order, to determine the link that it should use to steer the traffic?

- A. Link quality index - Member configuration order - Link cost threshold
- B. Latency - Jitter - Packet loss - Bandwidth - Member configuration order
- C. Links that meet the SLA targets - Member configuration order - Member local cost
- D. Latency - Member configuration order - Link cost threshold

Answer: A

Explanation:

FortiGate determines the member with the best quality using three factors: member configuration order, the link-cost-threshold setting, and the value of the metric measured for the member.

NEW QUESTION # 91

Refer to the exhibit, which shows the SD-WAN rule status and configuration.

SD-WAN rule status and configuration

```
branch1_fgt # diagnose sys sdwan service4 3

Service(3): Address Mode(IPV4) flags=0x4200 use-shortcut-sla use-shortcut
Tie break: cfg
Shortcut priority:2
Gen(43), TOS(0x0/0x0), Protocol(0): src(1->65535):dst(1->65535), Mode(priority),
link-cost-factor(packet loss), link-cost-threshold(10), health-check(HUB1_HC)
Members(3):
  1: Seq_num(4 HUB1-VPN1 HUB1), alive, latency: 96.349, selected
  2: Seq_num(5 HUB1-VPN2 HUB1), alive, latency: 141.278, selected
  3: Seq_num(6 HUB1-VPN3 HUB1), alive, latency: 190.984, selected
Src address(1):
  10.0.1.0-10.0.1.255

Dst address(1):
  10.0.0.0-10.255.255.255

branch1_fgt (service) # show
config service
edit 3
  set name "Corp"
  set mode priority
  set dst "Corp-net"
  set src "LAN-net"
  set health-check "HUB1_HC"
  set link-cost-factor packet-loss
  set link-cost-threshold 0
  set priority-members 4 5 6
next
```

Based on the exhibit, which change in the measured latency will first make HUB1-VPN3 the new preferred member?

- A. When HUB1-VPN3 has a latency of 90 ms
- B. When HUB1-VPN1 has a latency of 200 ms
- C. When HUB1-VPN3 has a latency of 80 ms
- D. When HUB1-VPN3 has a lower latency than HUB1-VPN1 and HUB1-VPN2

Answer: C

Explanation:

If VPN3 latency drops to 80 ms (below threshold), while VPN2 is already over threshold, and if VPN1 later exceeds threshold, VPN3 becomes eligible and preferred.

NEW QUESTION # 92

.....

Although the FCSS_SDW_AR-7.6 certificate is good, people who can successfully obtain each year are rare, and the difficulty of the FCSS_SDW_AR-7.6 exam and the pressure of study usually make the students feel discouraged. However, for us, these will no longer be a problem. In the past few years, our team has ushered in hundreds of industry experts, experienced numerous challenges day and night, and finally formed complete learning products--FCSS_SDW_AR-7.6 Exam Torrent, which is tailor-made for students who want to obtain the FCSS_SDW_AR-7.6 certificate.

Real FCSS_SDW_AR-7.6 Exam: https://www.passleader.top/Fortinet/FCSS_SDW_AR-7.6-exam-braindumps.html

Download PassLeader latest Fortinet Fortinet NCDA ONTAP Certification FCSS_SDW_AR-7.6 dumps and spend as much time as possible to practice before your FCSS - SD-WAN 7.6 Architect exam. PassLeader team highly suggest everyone buy Fortinet

Fortinet NCDA ONTAP Certification FCSS_SDW_AR-7.6 dumps when you are going to take your exam in a couple of weeks. Pls keep enough time to practice. We ensure 100% passing your Fortinet certification FCSS_SDW_AR-7.6 exam successfully, Fortinet Trustworthy FCSS_SDW_AR-7.6 Pdf We are engaged in improving the passing rate of our products every day.

The initial section of the chapter deals with common methods of controlling the movement of data through the system, Wrapping Up the Existing File Analysis, Download PassLeader latest Fortinet Fortinet NCDA ONTAP Certification FCSS_SDW_AR-7.6 dumps and spend as much time as possible to practice before your FCSS - SD-WAN 7.6 Architect exam. PassLeader team highly suggest everyone buy Fortinet Fortinet NCDA ONTAP Certification FCSS_SDW_AR-7.6 Dumps when you are going to take your exam in a couple of weeks. Pls keep enough time to practice. We ensure 100% passing your Fortinet certification FCSS_SDW_AR-7.6 exam successfully.

Pass Guaranteed Fortinet - Accurate FCSS_SDW_AR-7.6 - Trustworthy FCSS - SD-WAN 7.6 Architect Pdf

We are engaged in improving the passing rate of our products every day, FCSS_SDW_AR-7.6 While other candidates are aimed at advanced problem of solving and analytical skills, and pursue for deep study and further technology.

As a worldwide certification dumps leader, our website provides you the latest FCSS_SDW_AR-7.6 exam pdf and valid FCSS_SDW_AR-7.6 test questions to help you pass test with less time.

On the one hand, we have a good sense of the market.
