Consultant learn torrent does not need to be used in a Wi-Fi environment, and it will not consume your traffic costs. You can practice with Field-Service-Consultant Quiz torrent at anytime, anywhere. On the other hand, the online version has a timed and simulated exam function.

## Salesforce Certified Field Service Consultant Sample Questions (Q100-Q105):

### NEW QUESTION # 100

For security reasons, Northern Trail Outfitters indicates they cannot store PII directly within their Marketing Cloud account. They are considering Implementing Tokenized Sending to pull PII from their data warehouse at send time. They indicate they send several large, time-sensitive messages per year.

Which two considerations should be made about Tokenized Sending?

Choose 2 answers

- A. Tokenized Sending does not support Mobile Connect.
- B. Personalization Strings still allow PII to be displayed within an email.
- C. Journey Builder Decision Splits provide a method to access data of Tokenized data natively.
- D. Service Level Agreements for email sends are unsupported with the inclusion of outside servers.

**Answer: B,D**

### NEW QUESTION # 101

Universal Containers (UC) normally focuses on minimizing travel. Weather can cause situations that require expedited on-site service.

How should a Consultant recommend UC handle unplanned service during times of severe weather?

- A. Postpone all lower-priority jobs and extend Due Dates.
- B. Configure a new Service Level for immediate assignment.
- C. Manually flag Service Appointments as "In Jeopardy" due to weather.
- D. Configure an Emergency Policy and use the Emergency Wizard.

**Answer: D**

### NEW QUESTION # 102

Universal Containers wants to offer customers a Maintenance Plan that provides 12 monthly checkups.

The customer will call to schedule each visit.

How should a Consultant configure the Maintenance Plan to meet this requirement?

- A. Set Frequency to 1 Month; Generation Timeframe of 12; uncheck Auto-generate work orders.
- B. Set Frequency to 1 Month; Generation Timeframe of 1; uncheck Auto-generate work orders.
- C. Set Frequency to 1 Month; Generation Timeframe of 12; check Auto-generate work orders.
- D. Set Frequency to 1 Month; Generation Timeframe of 1; check Auto-generate work orders.

**Answer: B**

### NEW QUESTION # 103

The org-wide default sharing for a service appointment is set to be private. If service appointment is cancelled, which users will have visibility to record?

- A. Assigned resources, owner of service appointment and member of user territory
- B. Owner of service appointment and member of user territory
- C. Owner of service appointment and member of service territory
- D. Assigned resources, owners of service appointment and member of service territory

**Answer: B**

## NEW QUESTION # 104

Universal Containers wants to make it easier for Managers to monitor Preventative Maintenance work orders using the Dispatcher Console.

Which two filtering options should managers use to find the appropriate work orders?

- A. The Dispatcher Console Map and filter the list to show only desired service appointments
- B. The Dispatcher Work Order Polygon and filter the list to show only desired service appointments
- C. The Preventative Maintenance Gantt and filter the list to show only desired work orders
- D. The Dispatcher Console Appointment list and filter the list to show only desired service appointments

**Answer: C,D**

Explanation:

The Preventative Maintenance Gantt is a view within the Dispatcher Console that shows the scheduled service appointments for preventive maintenance work orders[217]. The Dispatcher Console Appointment list is a view within the Dispatcher Console that shows the list of service appointments with various details such as status, priority, or assigned resource[218]. Filtering is a feature that allows narrowing down the list of records based on specific criteria such as date, status, or territory[219]. Using the Preventative Maintenance Gantt and filter the list to show only desired work orders and using the Dispatcher Console Appointment list and filter the list to show only desired service appointments would allow Universal Containers' Managers to monitor Preventative Maintenance work orders using the Dispatcher Console by showing them the preventive maintenance service appointments on a Gantt chart or a list view and allowing them to apply filters to see only the relevant records[220]. Using the Dispatcher Console Map and filter the list to show only desired service appointments would not allow Universal Containers' Managers to monitor Preventative Maintenance work orders using the Dispatcher Console. The Dispatcher Console Map is a view within the Dispatcher Console that shows the locations of service appointments and resources on a map[221]. Using the Dispatcher Work Order Polygon and filter the list to show only desired service appointments would not work because there is no such feature as Dispatcher Work Order Polygon.
