EXIN ITIL Foundation (V4) Sample Questions (Q47-Q52):

NEW QUESTION # 47

Which dimension includes activities and workflows?

- A. Value streams and processes
- B. Partners and suppliers
- C. Information and technology
- D. Organizations and people

Answer: A

NEW QUESTION # 48

Which of the following best describes a Service Request?

- A. Any request or demand that is entered by a user via a Self-Help web-based interface
- **B. A request from a User for information, advice or for a Standard Change**
- C. Anything that the customer wants and is prepared to pay for
- D. Any request for change that is low risk and can be approved by the Change Manager without a CAB meeting

Answer: B

Explanation:

Service Request (Service Operation) A request from a User for information or advice, or for a Standard Change or for Access to an IT Service. For example to reset a password, or to provide standard IT Services for a new User. Service Requests are usually handled by a Service Desk, and do not require an RFC to be submitted. See also Request Fulfillment.

NEW QUESTION # 49

What can a change schedule be used for?

- A. Tracking and managing improvement ideas from identification through to final action
- B. Providing a way to initiate normal changes
- C. Speeding up the planning and authorization of emergency changes
- **D. Providing information about deployed changes to help manage incidents and problems.**

Answer: D

Explanation:

The change schedule is used to help plan changes, assist in communication, avoid conflicts, and assign resources. It can also be used after changes have been deployed to provide information needed for incident management, problem management, and improvement planning
