

4A0-D01 Test Pass4sure | 4A0-D01 Exam Sample

4A0-D01	
Exam name:	Nokia Data Center Fabric Fundamentals
Exam duration:	90 Minutes
Number of questions:	40
Language:	English
Price:	\$125 US

P.S. Free & New 4A0-D01 dumps are available on Google Drive shared by Prep4cram: <https://drive.google.com/open?id=1RRaRaLkGCvNqA0JY7r8JhrqTKyEKdzBH>

Prep4cram informs you that the Nokia Data Center Fabric Fundamentals Exam (4A0-D01) questions regularly change the content of the Nokia Data Center Fabric Fundamentals Exam real exam. Therefore, you must stay informed as per these changes to save time, money, and mental peace. As was already discussed, Prep4cram satisfies the needs of Nokia 4A0-D01 Exam candidates. The customer will receive updates of Nokia Data Center Fabric Fundamentals Exam (4A0-D01) real dumps for up to 365 days after buying the product.

Nokia 4A0-D01 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Module 5 – EDA (Event Driven Automation) Introduction
Topic 2	<ul style="list-style-type: none">Nokia DC Fabric Solution: This section of the exam measures skills of a Data Center Network Engineer and covers the architecture and benefits of modern Layer 3 data center networks. It includes an overview of BGP-based routing, VXLAN and EVPN overlays for multi-tenant environments, and key features of the SR Linux operating system. The section also explains how APIs are used for external configuration and introduces the Fabric Services System's management capabilities.
Topic 3	<ul style="list-style-type: none">SR Linux Logging, Monitoring, and Filtering: This section of the exam measures skills of a Data Center Network Engineer and addresses how to implement logging, monitoring, and traffic filtering in SR Linux. It explains log file usage, ACL types, CPM filtering, and packet capture filters. Configuration tasks involve applying ACLs and monitoring network activity using capture tools.

4A0-D01 Exam Sample | Exam 4A0-D01 Answers

It is well known that under the guidance of our 4A0-D01 PDF study exam, you are more likely to get the certification easily. But I think few of you know the advantages after getting certificates. Basically speaking, the benefits of certification with the help of our 4A0-D01 practice test can be classified into three aspects. Firstly, with the certification, you can have access to big companies where you can more job opportunities which you can't get in the small companies. Secondly, with our 4A0-D01 Preparation materials, you can get the 4A0-D01 certificates and high salaries.

Nokia Data Center Fabric Fundamentals Exam Sample Questions (Q32-Q37):

NEW QUESTION # 32

Which of the following statements about the YANG model used in Nokia's SR Linux is FALSE?

- A. All configuration and state information is defined as a YANG model.
- B. The YANG model can be converted into other formats such as JSON or XML.
- C. The YANG model provides a standardized way for applications to retrieve SR Linux configuration and state information.
- **D. The YANG model uses a tree structure with "leafs" as the branches and "containers" as the data components.**

Answer: D

Explanation:

In YANG models, "leafs" are the data nodes (not branches), and "containers" group related data nodes. The statement incorrectly reverses their roles by calling leafs branches and containers data components.

NEW QUESTION # 33

Which of the following statements about next-hop groups is TRUE?

- A. A next-hop-group can only specify one next-hop for forwarding
- B. The next-hop for a next-hop-group must be a local IP address.
- C. CMP destination unreachable message is always sent when blackhole is specified in the next-hop-group.
- **D. Multiple static routes can use the same next-hop-group.**

Answer: D

Explanation:

Multiple static routes can share the same next-hop group, enabling efficient reuse of next-hop definitions for load balancing or redundancy.

NEW QUESTION # 34

Which of the following statements about using BFD with BGP is FALSE?

- **A. Using BFD can speed up the BGP advertisement interval.**
- B. The BFD endpoints agree on the send/receive rate of control packets.
- C. BGP is notified if several BFD control packets are missed.
- D. It can help rapidly detect link failures.

Answer: A

Explanation:

BFD helps detect link failures rapidly and notifies BGP to trigger route updates quickly, but it does not speed up the BGP advertisement interval itself. BGP advertisement intervals are controlled by BGP timers, not by BFD.

NEW QUESTION # 35

Based on the exhibit output, which of the following is NOT the reason the user runs the "baseline diff" command?

- **A. User admin is not able to commit their changes.**
- B. User admin wants to check if there are differences between the current running config and their baseline datastore.
- C. User admin notices that "!" appears in the CLI prompt.
- D. Another user has committed changes.

Answer: A

Explanation:

The "baseline diff" command is used to compare the candidate configuration against the baseline datastore to see changes or conflicts, especially when multiple users are involved or to verify differences. It does not indicate that the user is unable to commit changes.

NEW QUESTION # 36

Which of the following statements about Nokia's SR Linux logging is FALSE?

- A. SR Linux logs are handled using facility local6 of the native Linux syslog utility.
- B. SR Linux supports the use of filters to select log messages.
- C. SR Linux logs can be saved locally as an encrypted file.
- D. Logging parameter configuration is translated into the /etc/rsyslog.conf file.

Answer: C

Explanation:

Nokia SR Linux does not natively support saving logs locally as encrypted files. Logs are managed using standard Linux syslog facilities and can be filtered, but encryption of local log files is not a built-in feature.

NEW QUESTION # 37

• • • • •

The field of Nokia is growing rapidly and you need the Nokia 4A0-D01 certification to advance your career in it. But clearing the 4A0-D01 test is not an easy task. Applicants often don't have enough time to study for the 4A0-D01 Exam. They are in desperate need of real Nokia 4A0-D01 exam questions which can help them prepare for the 4A0-D01 test successfully in a short time.
