

# NCP-CN PDF Questions [2026] -Get Excellent Scores

1 | Page

## Activity Director Class Exam (2025 / 2026) Expected Questions And Revised Correct Answers | Excellent Scores

two main theories of aging - **Correct-answer:** Biological and psychological

activity theory - **Correct-answer:** Most older persons are happy when active.

Seniors do the same activities as they did in their middle years.

Seniors rust out before they wear out

most older adults can.. - **Correct-answer:** learn new things

the reason women live longer than men is that they have less stress than men -

**Correct-answer:** false

What's more, part of that PassLeaderVCE NCP-CN dumps now are free: <https://drive.google.com/open?id=1Gg8IsjWTq5WytMwHifUU1qJ49Q8ZRpjz>

The PassLeaderVCE NCP-CN PDF questions file, desktop practice test software, and web-based practice test software, all these three NCP-CN practice test questions formats are ready for instant download. Just download any Nutanix NCP-CN Exam Questions format and start this journey with confidence.

You have an option to try the NCP-CN exam dumps demo version and understand the full features before purchasing. You can download the full features of NCP-CN PDF Questions and practice test software right after the payment. PassLeaderVCE has created the three best formats of NCP-CN practice questions. These Formats will help you to prepare for and pass the Nutanix NCP-CN Exam. NCP-CN pdf dumps format is the best way to quickly prepare for the NCP-CN exam. You can open and use the Nutanix Certified Professional - Cloud Native v6.10 pdf questions file at any place. You don't need to install any software.

## Nutanix NCP-CN PDF Questions - Great Exam Study Tips

Our NCP-CN exam braindumps are conducive to your future as a fairly reasonable investment. And some after-sales services behave indifferently towards exam candidates who eager to get success, our NCP-CN guide materials are on the opposite of it. So just set out undeterred with our practice materials, These NCP-CN study prep win honor for our company, and we treat it as our utmost privilege to help you achieve your goal.

## Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q68-Q73):

### NEW QUESTION # 68

A Platform Engineer is getting started with NKP and has created a bastion host with all needed prerequisites. How should the engineer install Kommander?

- A. Terraform
- B. Ansible
- C. AWS CLI
- **D. NKP CLI**

**Answer: D**

Explanation:

As per the NKPA 6.10 documentation, the standard and supported approach for installing Kommander on an NKP cluster is using the NKP CLI. The CLI provides commands for deploying Kommander and associated platform components as part of the cluster lifecycle management workflow.

Key Reference:

"The recommended approach to deploy Kommander is by using the nkp CLI, which ensures compatibility and streamlined installation with the rest of the Nutanix Kubernetes Platform stack." Reference:

Nutanix Kubernetes Platform Administration (NKPA) 6.10 - "Installing Kommander with NKP CLI" NCP-CN 6.10 Study Guide - "Kommander Installation and Management"

### NEW QUESTION # 69

A Platform Engineer works for a service provider and needs to establish access and authentication for multiple clients into an NKP cluster. Each client has their own LDAP source that should be used for authentication into the cluster. How would this be accomplished?

- **A. An NKP workspace needs to be created for each client and an LDAP connector would be created for each NKP workspace.**
- B. A common LDAP source needs to be established and client specific groups and users need to be configured within this common LDAP provider. Then an LDAP connector would be created for this LDAP provider.
- C. The LDAP connector configuration would be modified to include an array for each client LDAP source to authenticate with. Users would provide the client name defined in the array as part of their login.
- D. An NKP project would be created for each client and an LDAP connector would be created for each NKP project. Users would provide the project name their company was assigned as part of their login.

**Answer: A**

Explanation:

NKPA 6.10 recommends leveraging workspaces to isolate different tenants (clients) in a multi-tenant environment. LDAP connectors can be scoped to individual workspaces, allowing separate authentication and RBAC configurations per client.

Key reference from documentation:

"In multi-tenant scenarios, create a dedicated workspace for each tenant and configure a unique LDAP connector within that workspace to integrate their identity source." Reference:

Nutanix Kubernetes Platform Administration (NKPA) 6.10 - "Multi-tenancy with Workspaces and LDAP" NCP-CN 6.10 Study Guide - "Managing Multiple LDAP Connectors in Workspaces"

### NEW QUESTION # 70

To keep an NKP cluster and applications healthy and drive productivity forward, a Platform Engineer needs to stay informed of all events occurring within the cluster. What component of kube-prometheus-stack will help the engineer to stay informed of these events in NKP?

- A. node-exporter
- **B. alertmanager**
- C. service monitors

- D. prometheus-operator

**Answer: B**

### NEW QUESTION # 71

A company is required by NIST to follow FIPS guidelines for compliance.  
What is the first step for enabling FIPS in NKP?

- A. Follow the OS vendor's instructions to ensure that the OS or OS images are prepared for operating in FIPS mode.
- B. Click Enable in the NKP Kommander Web UI, Global Workspace -> Settings -> FIPS menu.
- C. Run the command `nkp cluster create <provisioner> <options> --fips`
- D. Run the command `export FIPS_ENABLED=true`

**Answer: A**

Explanation:

According to the NKPA 6.10 documentation under the "Preparing for FIPS Compliance" section, the first step for enabling FIPS in an NKP environment is to ensure that the underlying operating system (OS) or OS images are correctly configured for FIPS mode. The Nutanix Kubernetes Platform can only leverage FIPS-compliant cryptographic modules if the underlying OS is already configured for FIPS operation.

Specifically, the documentation states:

"Before enabling FIPS in NKP, ensure that the OS or OS images are prepared and configured to operate in FIPS mode, following the vendor's guidelines. Once the OS is in FIPS mode, the NKP cluster components can be provisioned with FIPS support." This foundational step is critical to ensure cryptographic consistency and compliance throughout the NKP stack.

Reference:

Nutanix Kubernetes Platform Administration (NKPA) 6.10 - "FIPS Compliance" NCP-CN 6.10 Study Guide - "Preparing OS Images for FIPS"

### NEW QUESTION # 72

The cluster area will host a new application that needs to add more workers. The company cannot get more NKP licenses, so it has decided to delete the demo cluster and add the required workers to the arca cluster.

How should the engineer delete the demo cluster from this UI?

- A. Press the ("demo" cluster line) three-dot menu at the right and select Detach. Then ask the cluster owner to delete the cluster.
- B. Login with SSH to the kommander cluster and execute `kubectl delete cluster -c demo`
- C. Press the ("demo" cluster line) three-dot menu at the right and select Delete.
- D. Press the ("demo" cluster line) three-dot menu at the right and select Download kubeconfig, then use that file to execute `kubectl delete cluster -c demo --kubeconfig=demo.conf`

**Answer: C**

Explanation:

The exhibit shows the NKP UI with a list of clusters, including "arca," "demo," and "production," each with a three-dot menu on the right side. The NKPA course explains that to delete a cluster directly from the NKP UI, the engineer should use the Delete option available in the cluster's three-dot menu. This action initiates the deletion process, removing the cluster from NKP management and freeing up any associated licenses (e.g., CPU core-based licenses, as per NKP licensing).

The Nutanix Cloud Native (NCP-CN) 6.10 Study Guide states: "To delete a cluster in NKP via the UI, navigate to the cluster list, click the three-dot menu for the target cluster (e.g., demo), and select 'Delete' to remove the cluster and its resources." The UI in the exhibit aligns with this process, showing the three-dot menu next to the "demo" cluster, which includes the Delete option. This is the most straightforward method to delete the demo cluster and reallocate resources to the arca cluster.

Incorrect Options:

- \* A. Download kubeconfig and use `kubectl delete cluster`: `kubectl delete cluster` is not a valid command for deleting NKP clusters. NKP uses the `nkp` CLI or UI for cluster deletion.
- \* C. Select Detach and ask the cluster owner to delete: Detach is for external clusters (e.g., EKS), not NKP-managed clusters like "demo," which is on Nutanix infrastructure. Detaching does not delete the cluster.
- \* D. SSH to kommander cluster and execute `kubectl delete cluster`: Kommander is a management component, but `kubectl delete cluster` is not a valid command for NKP cluster deletion.

## NEW QUESTION # 73

.....

The Nutanix NCP-CN questions PDF questions are portable and printable, making it simple for you to prepare for the Nutanix Certified Professional - Cloud Native v6.10 (NCP-CN) test in a short time. Smart devices such as smartphones, tablets, and laptops all support the Nutanix NCP-CN Exam PDF dumps format of our study material.

**NCP-CN Reliable Exam Book:** <https://www.passleadervce.com/Nutanix-Certified-Professional-NCP/reliable-NCP-CN-exam-learning-guide.html>

Nutanix NCP-CN Exam Course All those versions are high efficient and accurate with passing rate up to 98 to 100 percent, Before you decide to get the NCP-CN exam certification, you may be attracted by many exam materials, but we believe not every material is suitable for you, With our study materials, you do not need to have a high IQ, you do not need to spend a lot of time to learn, you only need to follow the method NCP-CN real questions provide to you, and then you can easily pass the exam, Maybe you are still doubtful about our product, it doesn't matter, but if you try to download our free demo of our NCP-CN exam software first, you will be more confident to pass the exam which is brought by our PassLeaderVCE.

Finally, they respected and complemented NCP-CN Reliable Exam Book each other as equal partners, Vista needed to be more attractive, more capable, and much more robust than XP, All those versions NCP-CN are high efficient and accurate with passing rate up to 98 to 100 percent.

## Free PassLeaderVCE Nutanix NCP-CN Questions Updates and Demo

Before you decide to get the NCP-CN exam certification, you may be attracted by many exam materials, but we believe not every material is suitable for you, With our study materials, you do not need to have a high IQ, you do not need to spend a lot of time to learn, you only need to follow the method NCP-CN real questions provide to you, and then you can easily pass the exam.

Maybe you are still doubtful about our product, it doesn't matter, but if you try to download our free demo of our NCP-CN exam software first, you will be more confident to pass the exam which is brought by our PassLeaderVCE.
