## MB-330 試験勉強資料、MB-330 試験内容、Microsoft Dynamics 365 Supply Chain Management Functional Consultant 試験合格率

MogiExamが提供した研修ツールはMicrosoftのMB-330の認定試験に向けて学習資料やシミュレーション訓練宿題で、重要なのは試験に近い練習問題と解答を提供いたします。MogiExamを選ばれば短時間にITの知識を身につけることができ、高い点数をとられます。

### Microsoft Dynamics 365 Supply Chain Management Functional Consultant 認定 MB-330 試験問題 (Q407-Q412):

#### 質問 # 407

A company uses Dynamics 365 Supply Chain Management. Inventory is valued through FIFO costing. The warehouse manager identifies item discrepancies and increases quantities in a counting journal. Finance then discovers that the cost on ItemA posted as zero dollars on the journal transaction. You need to configure the system to ensure that the cost is populated on the transaction. What should you configure? To answer, select the appropriate options in the answer area, NOTE: Each correct selection is worth one point.

正解:

解説:

Explanation

Box 1: Adjustment journal

Inventory adjustment

When you use an inventory adjustment journal, you can add cost to an item when you add inventory. The additional cost is automatically posted to a specific general ledger account, based on the setup of the item group posting profile. Use this inventory journal type to update gains and losses to inventory quantities when the item should keep its default general ledger offset account. When you post an inventory adjustment journal, an inventory receipt or issue is posted, the inventory values are changed, and ledger transactions are created.

Box 2: Counting journal

Counting journals let you correct the current on-hand inventory that is registered for items or groups of items, and then post the actual physical count, so that you can make the adjustments that are required to reconcile the differences.

#### 質問 # 408

You need to configure the system to meet the inventory team cost control requirement. Which processes should you run? To answer, drag the appropriate processes to the correct requirements. Each process may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

正解:

#### 質問 # 409

A parent company owns two subsidiaries. Some of the products manufactured in one of the subsidiaries must be sold to the other subsidiary so they can be sold in retail stores. You need to configure the customer and products for intercompany setup. How should you configure the setup? To answer, select the appropriate options in the answer areas. NOTE: Each selection is worth one point.

正解:

解説:

#### 質問 # 410

You create and maintain items in Dynamics 365 Supply Chain Management.

You create a product master named S-001 for metal screws. Screws come in three different lengths and two styles. You want to release only five of the six possible combinations.

You need to set up variants for the screw.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

#### 質問 # 411

A distribution company uses Dynamics 365 Supply Chain Management.

A high-volume warehouse for the distribution company automatically releases transfer order lines to the warehouse throughout the day.

Order line quantities are frequently changed after release to the warehouse. However, the load lines are not always updated.

You need to configure automatic updates to the load lines.

What should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.
