## IIBA Certificate in Product Ownership Analysis (IIBA-CPOA) Sample Questions (Q25-Q30):

### NEW QUESTION # 25

Iteration reviews and user acceptance testing to validate product features will be negatively impacted if:

- A. product changes while building product features are not communicated with customers.
- B. details about resource planning are not communicated with customers.
- C. retrospective meeting plans and reviews are not communicated with stakeholders.
- D. iteration plan is not published.

**Answer: A**

Explanation:

If changes made during feature development are not communicated with customers, iteration reviews and user acceptance testing suffer because stakeholders may be unaware of modifications, leading to misaligned expectations and incomplete validation.

### NEW QUESTION # 26

A balanced scorecard is used as part of assessing financial viability by:

- A. understanding the financial aspects of the product with specific attributes.
