질문 # 21

If a lens has four entities, which entity within the lens structure would not have a parent reference?

- A. Bottom entity
- B. Top-level entity
- C. Third-level entity
- D. Second-level entity

정답: B

설명:

Explanation

According to the ServiceNow documentation¹, a lens is a hierarchical structure that consists of entities and relationships. An entity is a data object that represents a business concept, such as a project, a demand, or a resource. A relationship is a link between two entities that defines how they are connected. A lens can have up to four levels of entities, each with a parent reference to the entity above it, except for the top-level entity, which has no parent reference. The top-level entity is the root of the lens and defines its scope and type. For example, a project lens has a project as the top-level entity, and a demand lens has a demand as the top-level entity.

질문 # 22

Using the Request type field on a resource plan, which options can be used to request a resource?

Choose 3 answers

- A. Day
- B. Month
- C. FTE
- D. Person Days
- E. Hours

정답: C,D,E

설명:

Using the Request type field on a resource plan, you can request a resource by specifying the amount of FTE, person days, or hours that you need for a task or a project. FTE stands for full-time equivalent and represents the percentage of a standard work week that a resource can perform. Person days are the number of days that a resource works on a task or a project. Hours are the number of hours that a resource works on a task or a project. You can find more information about the Request type field in the Product Documentation for ServiceNow.

질문 # 23

What role can create or modify a rate model?

- A. push_admin.
- B. time.card admin.
- C. it_pps_admin.
- D. release_admin.

정답: C

질문 # 24

If the 'Move project for WIP projects' property is enabled, project tasks associated with the project are also moved, except for tasks in which of the following states?

Choose 2 answers

- A. Closed
- B. Open
- C. Pending
- D. Work in Progress

정답: A,D

설명:

According to the Planning Console document, if the 'Move project for WIP projects' property is enabled, project tasks associated with the project are also moved, except for tasks in the Work in Progress or Closed states. The other options are not correct, as tasks in the Pending or Open states are moved along with the project.

질문 # 25

What is the first step in the process when configuring Portfolio Planning to work with ServiceNow Project Portfolio Management?

- A. Create personalized portfolio plans.
- B. Generate default mapping configurations.
- C. Create custom mapping configurations.
- D. Create an alignment integration.

정답: B

설명:

Explanation

According to the Portfolio Planning document, the first step in the process when configuring Portfolio Planning to work with ServiceNow Project Portfolio Management is to generate default mapping configurations. This step creates the default mappings between the Portfolio Planning fields and the ServiceNow Project Portfolio Management fields. The other options are not correct, as they are not the first step in the process. Creating an alignment integration is the second step, creating custom mapping configurations is the third step, and creating personalized portfolio plans is the fourth step.
