問題 #20

Cloud Kicks (CK) wants to create a public site to recruit potential volunteers. Volunteering events are stored in a custom

VolunteeringEvent object.

How can CK give guest users access to a custom object?

- A. Through guest user organization-wide defaults (OWD)
- B. Through guest user roles
- C. Through guest user Sharing Sets
- D. Through guest user Sharing Rules

答案: A

解題說明:

To give guest users access to a custom object, CK can use guest user organization-wide defaults (OWD). OWD are a feature that allows you to set the default level of access that guest users have to records of a custom object. You can use OWD to grant Read Only or Read/Write access to guest users for a custom object. For example, CK can use OWD to give guest users Read Only access to the VolunteeringEvent object.

問題 #21

Which two statements regarding data categories are true?

Choose 2 answers

- A. Customer Portal users and partner portal users inherit data category visibility settings of the role assigned to their account (owner) managers by default.
- B. When a category is made visible to a user through custom settings or is made visible by default, its child and parent categories are not included.
- C. Translated articles will not follow the master article data category. Therefore, translated articles can be assigned to a different data category.
- D. Child roles cannot see more data categories than their parent role. If the parent role's visibility changes, the child role's category visibility is reset to its parent's category visibility.

答案: A,D
