TestPassKing APMG-International AgilePM-Foundation Exam Questions are Valid and Verified By Subject Matters Experts

The APMG-International AgilePM-Foundation certification exam is one of the hottest and career-oriented certifications in the market. This Agile Project Management (AgilePM) Foundation Exam (AgilePM-Foundation) certification exam has been inspiring beginners and experienced professionals since its beginning. Over this long time period, countless Agile Project Management (AgilePM) Foundation Exam (AgilePM-Foundation) exam candidates have passed their Agile Project Management (AgilePM)

Foundation Exam (AgilePM-Foundation) certification exam, and now they are offering their services to the top world brands.

The AgilePM Foundation exam covers the basic concepts of Agile project management, including the AgilePM lifecycle, roles and responsibilities, and techniques for planning and control. AgilePM-Foundation exam also covers the AgilePM philosophy and principles, which emphasize collaboration, flexibility, and continuous improvement. AgilePM-Foundation Exam is designed to test the knowledge and understanding of individuals who want to work on Agile projects or who want to become Agile project managers.

APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q72-Q77):

NEW QUESTION # 72
Identify the missing words in the following sentence.
Each event and artifact of [?] has a clear role and is interconnected. If one is removed [...] leg. (The end of the sentence appears cut off, but the key context is in the first part).

- A. AgilePM
- B. Scrum
- C. all Agile approaches
- D. both Scrum and AgilePM

Answer: B

Explanation:
This wording aligns with Scrum. Scrum explicitly defines a small set of events (Sprint, Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective) and artifacts (Product Backlog, Sprint Backlog, Increment) that are interconnected and each serve a clear purpose. Scrum theory emphasizes empiricism supported by three pillars-transparency, inspection, and adaptation-often likened to a three-legged stool: remove a leg and the system becomes unstable. Likewise, removing or watering down any Scrum event or artifact reduces transparency and weakens inspection/adaptation, undermining outcomes. AgilePM has products/roles/phases rather than this specific "events + artifacts" construct, and "all Agile approaches" is too broad. Therefore, the missing framework is Scrum.

NEW QUESTION # 73
Which of the key principles, for building and maintaining engagement throughout change, is demonstrated through sharing information about why change is necessary and when it will take place?

- A. Connectivity.
- B. Inclusivity.
- C. Empathy.
- D. Transparency.

Answer: D

Explanation:
* Transparency: Sharing the rationale and timeline for change ensures openness and builds trust among stakeholders. Transparency is fundamental to managing expectations and mitigating resistance.
* Other Options:
* Inclusivity: Focuses on ensuring all voices are heard.
* Connectivity: Refers to fostering relationships.
* Empathy: Relates to understanding others' feelings, not information sharing.
Key AgilePM Concepts Referenced:
* Transparent Communication: AgilePM Handbook, Chapter 4, Section 4.2.

NEW QUESTION # 74
According to Tuckman, in what stage of the team development model will members of the team be 'working collectively to achieve results'?

- A. Adjourning.
- B. Performing.
- C. Storming.
- D. Forming.

Answer: B

Explanation:
* Performing Stage: In this stage, team members work cohesively towards achieving results. Roles and processes are clear, and collaboration is at its peak.
* Other Stages:
* Forming: Initial setup with limited collaboration.
* Storming: Characterized by conflict and role clarification.
* Adjourning: Focused on disbanding after tasks are completed.
Key AgilePM Concepts Referenced:
* Team Development Models: AgilePM Handbook, Chapter 5, Section 5.4.

NEW QUESTION # 75
When is a Timebox Plan updated?

- A. Each time a Timebox is completed
- B. At the Daily Start-ups
- C. As needed by the Project Manager
- D. At Timebox Kick-ups

Answer: A

NEW QUESTION # 76
What kind of power is conveyed by a manager who is admired and respected by their subordinates and seen as a role model?

- A. Coercive.
- B. Reward.
- C. Referent.
- D. Legitimate.

Answer: C

Explanation:
* Referent Power: This form of power is derived from the personal qualities of the leader, such as charisma, integrity, or ability to inspire, making them a role model for others. AgilePM values leaders who lead by influence rather than authority.
* Other Options:
* Legitimate: Based on a formal position or title.
* Reward: Tied to the ability to offer incentives.
* Coercive: Involves using fear or threats, which is not ideal in Agile environments.
Key AgilePM Concepts Referenced:
* Leadership Styles: AgilePM Handbook, Chapter 4, Section 4.5.
