Salesforce Certified Nonprofit Cloud Consultant Exam Sample Questions (Q58-Q63):

NEW QUESTION # 58

A nonprofit trade association sells research papers, certifications, and other products online to its existing members who are primarily universities and companies.

What should a consultant recommend to sell these items?

- A. Salesforce B2B Commerce
- B. Salesforce B2C Commerce
- C. Salesforce Billing
- D. Salesforce Experience Cloud

Answer: A

Explanation:

For a nonprofit trade association that sells research papers, certifications, and other products online to its existing members who are primarily universities and companies, Salesforce B2B Commerce is the most suitable solution:

Salesforce B2B Commerce:

Salesforce B2B Commerce is designed for business-to-business transactions, making it ideal for organizations that sell products and services to other businesses, such as universities and companies.

It provides features for managing complex pricing, bulk orders, and accounts, which are essential for a trade association dealing with institutional members.

Features and Benefits:

B2B Commerce offers personalized buying experiences, self-service portals for customers, and streamlined order management processes.

It integrates seamlessly with Salesforce CRM, allowing the nonprofit to manage member relationships, sales, and order histories within a single platform.

NEW QUESTION # 59

A nonprofit, who does a lot of mail appeals to donors, asks their consultant for the best solution to keep their constituents' addresses formatted properly to ensure the mail reaches them.

What should the consultant recommend?

- A. Sender Authentication Package
- B. Customer Data Platform
- C. Insights Platform Data Integrity
- D. NPSP Address Management

Answer: D

Explanation:

For a nonprofit that does a lot of mail appeals to donors and wants to ensure addresses are formatted correctly, the consultant should recommend:

* NPSP Address Management:

* NPSP Address Management helps ensure that addresses are standardized and formatted correctly.

It includes tools and processes to manage and validate addresses, thus reducing errors in mailings and improving delivery rates.

NEW QUESTION # 60

A consultant is helping a nonprofit diagnose and address some issues they have with NPSP. The consultant sees the customer is hitting governor limit errors on a particular job.

Which action should the consultant take to resolve the issue?

- A. Decrease the batch size for that job.
- B. Increase the batch size for that job.
- C. Schedule that job to run more frequently.
- D. Reschedule that nightly job.

Answer: A

NEW QUESTION # 61

The system administrator accidentally deletes the NPSP 00 - Error Processing job. What should the consultant recommend?

- A. Go to the Recycle Bin and undelete the job.
- B. Go to the NPSP Data Imports | Bulk Data Processes | Batch Process Settings to automatically recreate it.
- C. Go to help and create a case and ask Salesforce Support to reschedule this job.
- D. Go to NPSP Settings | Bulk Data Processes | Batch Process Settings to automatically recreate it.

Answer: D

Explanation:

If the NPSP 00 - Error Processing job is accidentally deleted, you can recreate it using the NPSP settings. Here's how:

Access NPSP Settings:

Navigate to the App Launcher and search for "NPSP Settings".

Go to Bulk Data Processes:

In the NPSP Settings, find the "Bulk Data Processes" section.

Batch Process Settings:

Click on "Batch Process Settings".

Here, you can find options to recreate various batch jobs, including the NPSP 00 - Error Processing job.

Recreate the Job:

Follow the prompts to recreate the NPSP 00 - Error Processing job.

Save your settings.

By using the NPSP Settings to recreate the job, you ensure that the necessary error processing is back in place without needing to manually configure or contact support.

NEW QUESTION # 62

A nonprofit organization using NPSP does a lot of mailings and wants to ensure states and countries are entered accurately into Salesforce. The nonprofit has heard about State and Country Picklists and asked its consultant about enabling them. What are two considerations the consultant should raise about enabling State and Country Picklists and asked its consultant about enabling them. What are two considerations the consultant should raise about enabling State and Country Picklists for NPSP?

- A. Predefined State and Country abbreviations on Address records must be used
- B. State and Country Picklist values can only be configured on the Address object
- C. The Individual ("Bucket") account model does not support State and Country Picklists
- D. NPSP Data Import object doesn't support State and Country abbreviations in picklist form
