

# DP-800 Reliable Exam Book - New DP-800 Mock Test

You can pass your Microsoft DP-800 certification exam in less time, without wasting time and money on outdated or unreliable Developing AI-Enabled Database Solutions (DP-800) exam study materials. Don't let fear or a lack of resources hold you back from achieving your goals, trust FreePdfDump Developing AI-Enabled Database Solutions (DP-800) practice test material and achieve the highest marks in your Developing AI-Enabled Database Solutions (DP-800) exam.

## Microsoft DP-800 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Implement AI capabilities in database solutions: This domain covers designing and managing external AI models and embeddings, implementing full-text, semantic vector, and hybrid search strategies, and building retrieval-augmented generation (RAG) solutions that connect database outputs with language models.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Design and develop database solutions: This domain covers designing and building database objects such as tables, views, functions, stored procedures, and triggers, along with writing advanced T-SQL code and leveraging AI-assisted tools like GitHub Copilot and MCP for SQL development.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Secure, optimize, and deploy database solutions: This domain focuses on implementing data security measures like encryption, masking, and row-level security, optimizing query performance, managing CI</li><li>CD pipelines using SQL Database Projects, and integrating SQL solutions with Azure services including Data API builder and monitoring tools.</li></ul>

## 100% Pass Useful Microsoft - DP-800 - Developing AI-Enabled Database Solutions Reliable Exam Book

The DP-800 training vce offered by FreePdfDump will be the best tool for you to pass your actual test. The DP-800 questions & answers are especially suitable for the candidates like you for the coming exam test. The contents of Microsoft study dumps are edited by our experts who have rich experience, and easy for all of you to understand. So, with the skills and knowledge you get from DP-800 practice pdf, you can 100% pass and get the certification you want.

## Microsoft Developing AI-Enabled Database Solutions Sample Questions (Q23-Q28):

### NEW QUESTION # 23

You have a SQL database in Microsoft Fabric that contains a column named Payload. Payload stores customer data in JSON documents that have the following format.

```
{
  "date": "2020-01-25"
  "customer_email": "user1+promo@contoso.com",
  ...
}
```

Data analysis shows that some customers have subaddressing in their email address, for example, user1+promo@contoso.com. You need to return a normalized email value that removes the subaddressing, for example, user1+promo@contoso.com must be normalized to user1@contoso.com. Which Transact-SQL expression should you use?

- A. REGEXP\_REPLACE(JSON\_VALUE(Payload, '\$.customer\_email'), '\+.\*', '')
- B. REGEXP\_SUBSTR(JSON\_VALUE(Payload, '\$.customer\_email'),'
