

100% Pass Quiz 2026 GARP High-quality SCR: Study Sustainability and Climate Risk Tool

TestInsides assists people in better understanding, studying, and passing more difficult certification exams. We take pride in successfully servicing industry experts by always delivering safe and dependable exam preparation materials. TestInsides SCR Exam Questions make it possible to appear in the Sustainability and Climate Risk exam confidently without any fear of failure. TestInsides has extensive experience in compiling the SCR exam questions for the GARP exam.

One of the key reasons for the importance of the GARP SCR Certification Exam is the increasing recognition of the financial risks associated with climate change. As the world becomes more aware of the potential impacts of climate change, investors and regulators are increasingly demanding that financial institutions take a more proactive approach to managing these risks. The GARP SCR Certification Exam provides professionals with the tools they need to meet these demands and ensure that their organizations are well-prepared for the challenges ahead.

GARP offer updated GARP SCR Exam products to our valuable customers. Real GARP SCR exam questions along with answers are being provided in two formats.

GARP Sustainability and Climate Risk Sample Questions (Q69-Q74):

NEW QUESTION # 69

A sustainability analyst at a global energy company assesses trends in the electric power sector for the next 10 years. To inform strategy, the analyst focuses on the interaction among climate risks, advancements in renewable energy, and stranded asset risk for fossil fuels.

According to the analyst, what trend will likely emerge during the next decade?

- A. The transportation sector faces technology risk if the trajectory of the learning curve for battery storage remains the same.
- B. Power plants that replace natural gas with coal will reduce transition risks in the event of rising carbon prices.
- C. Solar and wind newbuilds require stronger subsidies to be competitive in most parts of the world.
- D. The global levelized cost of energy for renewables increases to compete with fossil fuel energy generation.

Answer: A

NEW QUESTION # 70

The Commissioners of Insurance for a state in the western United States recommends all insurers now report annually on climate change, using TCFD guidance.

Which of the following sectors do the commissioners correctly identify as encompassing the full scope of the TCFD recommendations?

- A. Asset managers and owners, endowments, foundations, and additional financial sector representatives
- B. Institutional Investors Group-based benchmarking and GRI-derived data on climate change
- **C. Asset managers and owners, endowments, foundations, and additional financial and non-financial organizations**
- D. Energy, transportation, materials and buildings, agriculture, land and forestry companies

Answer: C

NEW QUESTION # 71

An industry association in Germany surveys members on business alignment with nationally determined contributions (NDCs). The association members express concern about potential cascading legal repercussions or penalties if governments do not conform to Paris Agreement pledges. An attorney at the association researches this issue and sends a memo to members.

The memo should state the Paris Agreement legally obliges signatories to take what action?

- A. Provide financing to help developing countries achieve NDC goals.
- B. Penalize industries exceeding NDC emissions thresholds.
- C. Revise NDC targets annually.
- **D. Report on NDC progress every 5 years.**

Answer: D

NEW QUESTION # 72

A global investment bank expands its risk department to include climate risk assessment. Senior management directs the department to implement approaches for evaluating how climate change affects traditional risk types. A risk manager recommends risk metrics for key risk types that measure physical and transition risk impacts.

To measure credit risk, which metric should the analyst recommend?

- A. Loan-to-deposit ratio
- B. Bid-ask spread
- C. Loss given default
- **D. Level of company preparedness**

Answer: D

NEW QUESTION # 73

A venture capital coalition integrates ESG considerations into an investment strategy for generative AI startups. An external consultant assesses sustainability risks to align coalition strategy with ESG benchmarks.

Which of the following insights will most effectively inform the coalition investment strategy?

- A. Green finance initiatives are part of sustainability but not part of ESG frameworks.
- **B. Non-financial corporations incorporate ESG factors primarily for risk management rather than strategic objectives.**
- C. Government climate change policies are part of sustainable development rather than ESG.
- D. Environmental risk management is part of sustainability but not part of ESG frameworks.

Answer: B

NEW QUESTION # 74

.....
