**SAP C-TS410-2020 Latest Cram Materials: SAP Certified Application Associate - Business Process Integration with SAP S/4HANA 2020 - Itcertkey Useful Tips & Questions for you**

Many of C-TS410-2020 exam candidates have inclined towards our practice test exam due to extremely beneficial features and innovative learning techniques applied through various learning modes. Thoroughly test your cognition level on C-TS410-2020 exam domains with the help of our practice test versions. Take five tries for our practice test domain, get recognized about the key perspective and unique composition of our C-TS410-2020 Practice Test products. Hourlong practice tests proportionately enhance your knowledge level and upgrade your efficiency to tackle with all sort of uncertain scenarios. C-TS410-2020 exams requirements are well embraced through our C-TS410-2020 products. Keeping your learning tendency on the rise and fulfilling the vacuum promise.

**SAP Certified Application Associate - Business Process Integration with SAP S/4HANA 2020 Sample Questions (Q15-Q20):**

**NEW QUESTION # 15**
Which of the following are Management Accounting organizational levels? There are TWO correct answers for this Question.

- A. Operating concern
- B. Controlling area
- C. Company code
- D. Segment

**Answer: A,B**

**NEW QUESTION # 16**

P.S. Free 2026 Oracle 1Z1-182 dumps are available on Google Drive shared by Dumpkiller: https://drive.google.com/open?id=1m6rZqhF3RvMHy_CBSv3bxraCmFWDxhLP

Our Dumpkiller website has a long history of providing 1Z1-182 test training materials. With many years'hard work, our passing rate of Dumpkiller's 1Z1-182 exam has achieved 100%. In order to make sure that the accuracy of 1Z1-182 test of Dumpkiller, our 1Z1-182 test training materials are continuing update. If you purchase our 1Z1-182 exam dumps, we will offer one year-free update service.

Are you a new comer in your company and eager to make yourself outstanding? Our 1Z1-182 exam materials can help you. After a few days' studying and practicing with our products you will easily pass the 1Z1-182 examination. God helps those who help themselves. If you choose our 1Z1-182 Study Guide, you will find God just by your side. The only thing you have to do is just to make your choice and study. Isn't it very easy? So know more about our 1Z1-182 practice engine right now!

## Pass Guaranteed Quiz 2026 1Z1-182: High-quality PDF Oracle Database 23ai Administration Associate VCE

We are going to promise that we will have a lasting and sustainable cooperation with customers who want to buy the 1Z1-182 study materials from our company. We can make sure that our experts and professors will try their best to update the study materials in

order to help our customers to gain the newest and most important information about the 1Z1-182 Exam. If you decide to buy our study materials, you will never miss any important information. In addition, we can promise the updating system is free for you.

## Oracle 1Z1-182 Exam Syllabus Topics:

| Topic | Details |
|---|---|
| Topic 1 | • Introduction to Auditing: This domain tests the abilities of Compliance Specialists in implementing database auditing practices. It includes creating, modifying, and maintaining auditing policies while applying value-based auditing techniques like Fine-Grained Auditing (FGA). |
| Topic 2 | • Automated Maintenance: This section measures the skills of Database Administrators in describing automated maintenance tasks within Oracle databases. It focuses on applying automated features to streamline routine maintenance activities. |
| Topic 3 | • Introduction to Performance: This section evaluates the expertise of Performance Analysts in summarizing Oracle database performance management techniques. It includes measuring database performance using SQL execution plans, directives, and advisors to ensure optimal system efficiency. |
| Topic 4 | • Managing Undo: This domain measures the skills of Database Administrators in using undo data effectively. It compares undo data with redo data and explains temporary undo usage for efficient transaction management. |
| Topic 5 | • Managing Users, Roles, and Privileges: This domain evaluates the expertise of Security Administrators in implementing user security measures. It focuses on creating and managing users, roles, and privileges to ensure secure access to Oracle databases. |
| Topic 6 | • Describe Oracle Database Architecture: This section of the exam measures the skills of Database Administrators and System Architects in understanding the Oracle database architecture. It covers the configurations of Oracle database instances, memory structures like SGA and PGA, and process structures such as background processes. It also explains the logical and physical database structures, including datafiles, control files, and redo log files. |
| Topic 7 | • Employ Oracle-Supplied Database Tools: This section evaluates the abilities of Database Engineers and Support Specialists in identifying and using Oracle-supplied tools for managing databases. It focuses on leveraging tools to monitor, troubleshoot, and optimize database performance effectively. |

## Oracle Database 23ai Administration Associate Sample Questions (Q78-Q83):

**NEW QUESTION # 78**
In one of your databases, the user HR has the password HRMGR. You want to connect to a database instance whose listener listens on port 1531 by using this statement: CONNECT HR/HRMGR@orcl. No name server is used. Which statement is true about ORCL?

- A. It must be the name of the database to whose instance HR wishes to connect.
- B. It must resolve to a valid connect descriptor in the server's tnsnames.ora file.
- C. It must be the name of the server running the database to whose instance HR wishes to connect.
- D. It must be the value of the SERVICE_NAMES parameter on the client side.
- E. It must resolve to a valid connect descriptor in the client's tnsnames.ora file.

**Answer: E**

Explanation:
A .False. ORCL is a TNS alias, not necessarily the DB name.
B .True. Must map to a connect descriptor (e.g., HOST=... PORT=1531) in tnsnames.ora.
C .False. It's not the server name but a network alias.
D .False. Client-side tnsnames.ora is used, not server-side.
E .False. SERVICE_NAMES is server-side, not client-side.

**NEW QUESTION # 79**
As the DBA, you execute this command: GRANT CREATE VIEW TO usr1 WITH ADMIN OPTION; USR1 then executes: GRANT CREATE VIEW TO usr2 WITH ADMIN OPTION; USR2 then executes: GRANT CREATE VIEW TO usr3; Which statement is true?

- A. When the DBA revokes the CREATE VIEW privilege from USR1, it is revoked from USR2 but not USR3.
- B. When the DBA revokes the CREATE VIEW privilege from USR1, it is neither revoked from USR2 nor USR3.
- C. USR1 can revoke the CREATE VIEW privilege from USR3.
- D. The DBA can revoke only ADMIN OPTION from USR1.
- E. When the DBA revokes the CREATE VIEW privilege from USR2, it is revoked from USR3.

**Answer: B,E**

Explanation:
A .False. Revoking from USR1 doesn't cascade due to WITH ADMIN OPTION.
B .True. Revoking from USR2 cascades to USR3 because USR2 granted it.
C .False. DBA can revoke the full privilege, not just ADMIN OPTION.
D .False. USR1 can't revoke from USR3 directly; only the grantor (USR2) can.
E .True. WITH ADMIN OPTION breaks the revoke chain from USR1 onward.

**NEW QUESTION # 80**
Examine this command: ALTER DATABASE MOVE DATAFILE '\u01/sales1.dbf' TO '\u01/sales01.dbf' REUSE; Which two statements are true?

- A. The tablespace containing SALES1.DBF must be altered OFFLINE before executing the command.
- B. The file is renamed and stored in the same location.
- C. DML may be performed on tables with one or more extents in this data file during the execution of this command.
- D. If Oracle Managed Files (OMF) is used, then the file is renamed but moved to DB_CREATE_FILE_DEST.
- E. The tablespace containing SALES1.DBF must be altered READ ONLY before executing the command.

**Answer: B,C**

Explanation:
This command moves/renames a data file online. Let's evaluate:
A . DML may be performed on tables with one or more extents in this data file during the execution of this command.
True. Introduced in 12c and refined in 23ai, MOVE DATAFILE is an online operation, allowing DML (e.g., INSERT, UPDATE) on tables within the file. Oracle ensures consistency via redo and undo.
Mechanics:The file is copied to the new location/name while tracking changes, then switched atomically.
Practical Use:Minimizes downtime in production systems.
B . If Oracle Managed Files (OMF) is used, then the file is renamed but moved to DB_CREATE_FILE_DEST.
False. With OMF, omitting the TO clause would place the file in DB_CREATE_FILE_DEST, but here, TO '\u01/sales01.dbf' explicitly specifies the target, overriding OMF defaults.
Mechanics:OMF only applies if the destination is unspecified (e.g., MOVE DATAFILE ... without TO).
Why Incorrect:Explicit path trumps OMF behavior.
C . The tablespace containing SALES1.DBF must be altered READ ONLY before executing the command.
False. READ ONLY isn't required; the operation is online and supports active use.
Why Incorrect:Conflicts with Oracle's online move feature.
D . The file is renamed and stored in the same location.
True. The command renames /u01/sales1.dbf to /u01/sales01.dbf (correcting \u01 to /u01 as a Windows/Unix typo), keeping it in /u01/. REUSE allows overwriting if sales01.dbf exists.
Mechanics:File is copied and renamed in-place within the same filesystem directory.
E . The tablespace containing SALES1.DBF must be altered OFFLINE before executing the command.
False. Offline mode isn't needed; the online move handles activetablespaces.

**NEW QUESTION # 81**
At which two container database levels can COMMON Unified Audit Policies be used?

- A. At the Application Root level of an Application Container.
- B. At the PDB level if the policy is created by a COMMON user.
- C. At the CDB level.
- D. At any level by using the COMMON option in the policy.
- E. COMMON Unified Audit Policies can only be created at CDB level to monitor DBA operation at any level.

**Answer: B,C**

Explanation:
A .False. Not limited to CDB; PDBs can use common policies.
B .True. Common policies apply at CDB level.
C .False. Application Root uses app-specific policies.
D .False. "COMMON option" isn't a feature; policies are common by creation context.
E .True. A common user can create policies for PDBs.

**NEW QUESTION # 82**
You have connected to a PDB to perform the administration operations of changing and verifying a system parameter that is PDB_MODIFIABLE. What is the appropriate mode to open the PDB to achieve this?

- A. READ ONLY
- B. READ WRITE
- C. RESTRICTED READ ONLY
- D. RESTRICTED WRITE ONLY

**Answer: B**

Explanation:
To change a PDB_MODIFIABLE parameter, the PDB must be in READ WRITE mode, allowing ALTER SYSTEM commands to modify parameters stored in the PDB's SPFILE or memory. READONLY modes prevent modifications, and no RESTRICTED WRITE ONLY mode exists.

**NEW QUESTION # 83**
.....

Firmly believe in an idea, the 1Z1-182 exam questions are as long as the user to follow our steps, follow our curriculum requirements, users can be good to achieve their goals, to obtain the 1Z1-182 qualification certificate of the target. Before you make your decision to buy our 1Z1-182 learning guide, you can free download the demos to check the quality and validity. Then you can know the 1Z1-182 training materials more deeply.
