

# Accurate 350-501 Test Discount Voucher | Trustable 350-501 Valid Dumps Questions and Fast Download Implementing and Operating Cisco Service Provider Network Core Technologies Exam Simulator

P.S. Free & New 350-501 dumps are available on Google Drive shared by ITCertMagic: <https://drive.google.com/open?id=1BdV7ANUh8D0qY1TYuO9Du-p6a7iDaKwZ>

There are a lot of experts and professors in our company. All 350-501 study torrent of our company are designed by these excellent experts and professors in different area. We can make sure that our Cisco 350-501 test torrent has a higher quality than other study materials. The aim of our design is to improving your learning and helping you gains your Implementing and Operating Cisco Service Provider Network Core Technologies 350-501 Certification in the shortest time. If you long to gain the certification, our Implementing and Operating Cisco Service Provider Network Core Technologies guide torrent will be your best choice.

ITCertMagic beckons exam candidates around the world with our attractive characters. Our experts made significant contribution to their excellence. So we can say bluntly that our 350-501 simulating exam is the best. Our effort in building the content of our 350-501 study materials lead to the development of learning guide and strengthen their perfection. To add up your interests and simplify some difficult points, our experts try their best to design our 350-501 Study Material and help you understand the 350-501 learning guide better.

## 350-501 Valid Dumps Questions & 350-501 Exam Simulator

From the ITCertMagic platform, you will get the perfect match 350-501 actual test for study. 350-501 practice download pdf are researched and produced by Professional Certification Experts who are constantly using industry experience to produce precise, and logical 350-501 Training Material. 350-501 study material is constantly begining revised and updated for relevance and accuracy. You will pass your real test with our accurate 350-501 practice questions and answers.

Cisco 350-501 Exam consists of 60-70 questions and has a time limit of 120 minutes. 350-501 exam is available in English and Japanese and can be taken at any Pearson VUE testing center. Candidates can prepare for the exam by attending Cisco's official training courses or by self-study using Cisco's learning resources. 350-501 exam is rigorous, and candidates must have an in-depth understanding of service provider network technologies to pass. Successful candidates will have demonstrated their ability to implement and operate service provider network infrastructure efficiently and effectively, making them valuable assets in the service provider industry.

## Cisco Implementing and Operating Cisco Service Provider Network Core Technologies Sample Questions (Q100-Q105):

### NEW QUESTION # 100

Refer to the exhibit. Routers P4 and P5 receive the 0.0.0.0/0 route from the ISP via eBGP peering. P4 is the primary Internet

gateway router, and P5 is its backup. P5 is already advertising a default route into the OSPF domain. Which configuration must be applied to P4 so that it advertises a default route into OSPF and becomes the primary Internet gateway for the network?

- A. configure terminal  
router ospfv3 100  
address-family ipv4 unicast  
default-information originate always metric 40 metric-type 1 end
- B. configure terminal  
router ospfv3 100  
address-family ipv4 unicast  
default-information originate metric 40 metric-type 2  
end
- C. configure terminal  
router ospfv3 100  
address-family ipv4 unicast  
default-information originate metric 40 metric-type 1  
end
- D. configure terminal  
router ospfv3 100  
address-family ipv4 unicast  
redistribute bgp 65500 metric 40 metric-type 1  
end

**Answer: B**

#### NEW QUESTION # 101

A customer of an ISP requests support to setup a BGP routing policy. Which BGP attribute should be configured to choose specific BGP speakers as preferred points for the customer AS?

- A. lowest local preference inbound
- B. highest local preference outbound
- C. highest local preference inbound
- D. lowest multi-exit discriminator

**Answer: B**

Explanation:

Section: Networking

#### NEW QUESTION # 102

Refer to the exhibit:

This configuration is being applied on an IOS XR router.

Which statement about this configuration is true?

- A. It is used to identify MIB entries and has a list of YANG models
- B. It is used to create a subscription to specify the streaming interval
- C. It is used to create a sensor-group and has a list of YANG models for streaming
- D. It is used to identify traps for SNMP polling

**Answer: C**

#### NEW QUESTION # 103

Refer to the exhibit.

Refer to the exhibit. Router 1 and Router 2 were installed in the data center. Router 1 is the core router in the network, but it fails to establish an OSPF peering with Router 2, and customer traffic is unable to pass. Router 1 also reports an increase in CPU and memory usage. However, the CPU for R2 is stable. Which action resolves this issue?

- A. Change the transport mode to WAN on Router 1.
- B. Disable Cisco Express Forwarding on Router 2.
- C. Enable MPLS on Router 2.
- D. Change the MTU to 1524 on Router 1.

**Answer: D**

Explanation:

The issue of Router 1 failing to establish an OSPF peering with Router 2, and the increase in CPU and memory usage can be attributed to a mismatch in MTU (Maximum Transmission Unit) sizes. In OSPF, for a successful adjacency to be formed, the MTU size on the interfaces that are trying to form this adjacency must match. In this case, changing the MTU to 1524 on Router 1 will make it compatible with Router 2, allowing OSPF peering to be established and customer traffic to pass through successfully.

#### NEW QUESTION # 104

A network engineer must enable the helper router to terminate the OSPF graceful restart process if it detects any changes in the LSA. Which command enables this feature?

- A. `nsf ietf helper strict-lsa-checking`
- B. `nsf ietf helper disable`
- C. `nsf cisco helper disable`
- D. `nsf cisco enforce global`

**Answer: A**

Explanation:

The command `nsf ietf helper strict-lsa-checking` is used to configure the router to terminate the OSPF graceful restart process if it detects any changes in the LSA during the restart. This ensures that the network remains stable and consistent by preventing the use of outdated or incorrect routing information.

#### NEW QUESTION # 105

.....

As we all know, the 350-501 certificate has a very high reputation in the global market and has a great influence. But how to get the certificate has become a headache for many people. Our 350-501 learning materials provide you with an opportunity. Once you choose our 350-501 Exam Practice, we will do our best to provide you with a full range of thoughtful services. Whenever you have questions about our 350-501 study guide, our service will give you the most professional advice.
