## Microsoft AB-730 Latest Exam Preparation | AB-730 Exam Registration

There are rare products which can rival with our products and enjoy the high recognition and trust by the clients like our products. Our products provide the AB-730 study materials to clients and help they pass the test AB-730 certification which is highly authorized and valuable. Our company is a famous company which bears the world-wide influences and our AB-730 Study Materials are recognized as the most representative and advanced study materials among the same kinds of products. Whether the qualities and functions or the service of our product, are leading and we boost the most professional expert team domestically.

## Microsoft AI Business Professional Sample Questions (Q83-Q88):

NEW QUESTION # 83

You use Microsoft 365 Copilot.

You regularly upload the same five files to Copilot chats.

You need to simplify referencing the files in the chats.

What are two ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Zip the documents and upload the ZIP file to the chats.
- **B. Create a notebook that references the files.**
- **C. Send a prompt that includes the files, and then save the prompt.**
- D. Ask the data engineers to create a fine-tuned model.
- E. Create an agent that has a knowledge source.

**Answer: B,C**

Explanation:

[B]

You can streamline your workflow in Microsoft 365 Copilot by saving complex prompts that reference a specific set of files, allowing for easy reuse without re-uploading or re-linking them each time.

Here is how to save and reuse prompts with referenced files:

How to Save a Prompt with Files

1. Start a Chat: Open Microsoft 365 Chat (in Teams, browser, or M365 app).
2. Reference Files: Use the "Reference a file" button or type "/" followed by the file names to attach your documents (up to 5 items in chat, or up to 20 in Notebooks).
3. Create and Run Prompt: Type your detailed prompt (e.g., "Summarize the key points in /ProjectPlan and /BudgetDoc and create a risk log").
4. Save the Prompt: After Copilot responds, hover over your prompt text and click the Bookmark (Save prompt) icon.
5. Name and Save: Give the prompt a recognizable title (e.g., "Weekly Project Status") in the prompt gallery.

[C]

Use Copilot Notebooks for Project Collections

For ongoing work, Copilot Notebooks act as a persistent workspace where your references stay attached across sessions.

Setup: Create a notebook and add your set of files once via the References tab.

Benefit: You can reference up to 100 files for grounding, though only the first 100 are used for active reasoning.

#### NEW QUESTION # 84

You receive several images from a colleague.

You suspect that the images were generated by using Microsoft 365 Copilot.

What can you use to verify whether the images were AI-generated?

- A. file names
- B. file descriptions
- **C. content credentials**
- D. watermarks

**Answer: C**

Explanation:

Comprehensive and Detailed 150 to 200 words of Explanation Microsoft AI Business professional documents:

Microsoft's approach to transparency for AI-generated media relies on provenance signals rather than cosmetic indicators. File names and descriptions can be edited easily and are not reliable evidence of how an image was created. Watermarks may appear in some contexts, but they are not consistently applied across all AI image-generation workflows and can sometimes be removed or lost through copying, screenshotting, or file conversion.

Microsoft supports the use of content credentials to help users verify whether digital content was created or modified with AI.

Content credentials are part of a provenance standard (often associated with C2PA) that can embed tamper-evident metadata into media files. When present, these credentials can show information about the tool or process used to generate or edit the image, providing a verifiable chain of origin.

Therefore, the most dependable way to verify whether the images were AI-generated is to check for content credentials (option C), since they are designed specifically to provide authenticity and provenance information for AI-created or AI-edited content.

### NEW QUESTION # 85

You use Microsoft 365 Copilot.

You regularly upload the same five files to Copilot chats.

You need to simplify referencing the files in the chats.

What are two ways to achieve the goal?

- A. Create an agent that has a knowledge source.
- B. Zip the documents and upload the ZIP file to the chats.
- C. Create a notebook that references the files.
- D. Ask the data engineers to create a fine-tuned model.
- E. Send a prompt that includes the files, and then save the prompt.

**Answer: A,C**

Explanation:

Microsoft 365 Copilot provides structured ways to persist and reuse knowledge sources to avoid repeatedly uploading the same files.

Creating a notebook that references the five files (Option B) allows those documents to remain attached within a persistent workspace. Copilot can then consistently ground responses in those files without re-uploading them for every conversation.

Creating an agent with a defined knowledge source (Option D) also provides a reusable solution. By configuring the five files as part of the agent's knowledge base, the agent can automatically reference them in future interactions.

Saving a prompt does not persist file attachments. Fine-tuning models is not part of standard Microsoft 365 Copilot user workflows.

Uploading a ZIP file does not improve reference management and may reduce accessibility of individual documents.

Therefore, the correct solutions are to create a notebook that references the files and to create an agent with a knowledge source.

### NEW QUESTION # 86

What is the purpose of predictive analytics in business?

- A. To automate business workflows
- B. To generate random forecasts for uncertainty analysis
- C. To control supply chain logistics in real time
- D. To predict future events based on historical data

**Answer: D**

Explanation:

Predictive analytics uses historical data, machine learning algorithms, and statistical techniques to make predictions about future trends. This helps businesses anticipate demand, customer behavior, and other important factors to guide decision-making.

### NEW QUESTION # 87

You create an agent in the Microsoft 365 Copilot app by using a template.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

When creating an agent in the Microsoft 365 Copilot app using a template, administrators or authorized users can configure specific behaviors and knowledge sources for the agent. Therefore, it is correct that you can choose which knowledge sources the agent can use. This ensures proper grounding in approved Microsoft 365 data such as SharePoint sites, OneDrive folders, or other organizational repositories. Controlling knowledge sources supports responsible AI principles, including data security, relevance, and compliance.

Agents created within Microsoft 365 are designed primarily for internal organizational use. As a result, sharing the agent with users inside the organization is supported, enabling collaboration and productivity improvements across teams.

However, sharing the agent with external users is not supported by default. External sharing would introduce security and compliance risks, so Microsoft enforces tenant-level boundaries to protect enterprise data.

These capabilities reflect best practices in managing AI prompts and agents securely within enterprise environments.

## NEW QUESTION # 88

.....

The latest AB-730 latest questions will be sent to you email, so please check then, and just feel free to contact with us if you have any problem. Our reliable AB-730 exam material will help pass the exam smoothly. With our numerous advantages of our AB-730 latest questions and service, what are you hesitating for? Our company always serves our clients with professional and precise attitudes, and we know that your satisfaction is the most important thing for us. We always aim to help you pass the AB-730 Exam smoothly and sincerely hope that all of our candidates can enjoy the tremendous benefit of our AB-730 exam material, which might lead you to a better future!
