

# 100% Pass OGEA-101 - Fantastic TOGAF Enterprise Architecture Part 1 Exam Exam Topics Pdf

P.S. Free & New OGEA-101 dumps are available on Google Drive shared by FreePdfDump: <https://drive.google.com/open?id=1oZLQMNOHCNVsoKCXqkVYW6srHfTrJSD>

It is not hard to find that there are many different kinds of products in the education market now. It may be difficult for users to determine the best way to fit in the complex choices. We can tell you with confidence that the OGEA-101 study materials are superior in all respects to similar products. First, users can have a free trial of OGEA-101 Learning Materials, to help users better understand the OGEA-101 study materials. If the user discovers that the product is not appropriate for him, the user can choose another type of learning material.

There are a lot of experts and professors in our company in the field. In order to meet the demands of all people, these excellent experts and professors from our company have been working day and night. They tried their best to design the best OGEA-101 study materials from our company for all people. By our study materials, all people can prepare for their OGEA-101 exam in the more efficient method. We can guarantee that our study materials will be suitable for all people and meet the demands of all people, including students, workers and housewives and so on. If you decide to buy and use the OGEA-101 Study Materials from our company with dedication and enthusiasm step by step, it will be very easy for you to pass the exam without doubt. We sincerely hope that you can achieve your dream in the near future by the OGEA-101 study materials of our company.

## OGEA-101 Free Download & OGEA-101 Pass4sure Exam Prep

By using the FreePdfDump OGEA-101 valid exam lab questions, there is no need to purchase anything else or attend expensive training. We promise that you can pass the OGEA-101 certification at the first try. We will update our questions and answers in time after thorough analysis of latest real exams, so the OGEA-101 Exam Dumps shown front of you is the latest and valid. Besides, we offer you one year free update The Open Group study dumps after your purchase.

## The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 Exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Implementation Governance: This topic of The Open Group OGEA-101 exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.</li> </ul>

## The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q128-Q133):

### NEW QUESTION # 128

Which of the following is a responsibility of an Architecture Board?

- A. Allocating resources for architecture projects
- B. Establishing targets for re-use of components**
- C. Creating the Statement of Architecture Work
- D. Conducting assessments of the maturity level of architecture discipline within the organization

**Answer: B**

Explanation:

\* An Architecture Board is an executive-level group responsible for the review and maintenance of the strategic architecture and all of its sub-architectures<sup>1</sup>. It is a key element in a successful Architecture Governance strategy<sup>2</sup>.

\* An Architecture Board is typically made responsible, and accountable, for achieving some or all of the following goals<sup>2</sup>:  
 o Providing the basis for all decision-making with regard to the architectures  
 o Consistency between sub-architectures  
 o Establishing targets for re-use of components  
 o Flexibility of the Enterprise Architecture: To meet changing business needs  
 o Leverage new technologies  
 o Enforcement of Architecture Compliance  
 o Improving the maturity level of architecture discipline within the organization  
 o Ensuring that the discipline of architecture-based development is adopted  
 o Supporting a visible escalation capability for out-of-bounds decisions

\* Therefore, the correct answer is option D, which captures one of the goals of an Architecture Board as stated in the TOGAF Standard, Version 9.22.

\* Option A is incorrect, because conducting assessments of the maturity level of architecture discipline within the organization is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Capability Framework<sup>3</sup>.

\* Option B is incorrect, because allocating resources for architecture projects is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Governance Framework<sup>4</sup>.

\* Option C is incorrect, because creating the Statement of Architecture Work is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Development Method<sup>5</sup>. Reference:

\* 1: Architecture Board - The Open Group<sup>3</sup>

\* 2: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Board

- \* 3: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Capability Framework
- \* 4: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Governance Framework
- \* 5: TOGAF Standard, Version 9.2 - Part II: Architecture Development Method - Phase A: Architecture Vision

### NEW QUESTION # 129

Refer to the table below:

Which ADM Phase does this describe?

- A. Phase F
- B. Phase A
- C. Phase E
- D. Phase G

**Answer: D**

Explanation:

The table describes the output, outcome, and essential knowledge of an ADM phase that oversees the implementation of changes necessary to reach the adjusted target state. This corresponds to Phase G, also known as Implementation Governance, which ensures that the architecture defined in earlier phases is realized, and it oversees the development and implementation of projects to align with this architecture. The essential knowledge required during this phase includes understanding constraints on the implementation team and adjusting stakeholder priority and preference in response to success, value, effort, and risk of change.

References: TOGAF Version 9.1 - 1

### NEW QUESTION # 130

What structural framework does the TOGAF Standard define to support the management, leverage, and storage of architectural work products?

- A. The Architecture Capability
- B. The Enterprise Architecture Capability Model
- C. The Architecture Landscape
- D. The Architecture Repository

**Answer: D**

Explanation:

\* The Architecture Repository is the structural framework defined by TOGAF to store, manage, and leverage architecture artifacts, including reference models, standards, governance logs, and deliverables.

\* The Architecture Capability refers to governance and processes.

\* The Architecture Landscape shows Strategic, Segment, and Capability architectures, not storage.

\* The Enterprise Architecture Capability Model is not a defined TOGAF concept.

Reference: TOGAF Standard, Version 9.2, Part V: Enterprise Continuum and Tools - Architecture Repository.

### NEW QUESTION # 131

Consider the illustration.

What are the items labelled A, B and C?

- A. A-Enterprise Continuum, B-Architecture Continuum, C-Solutions Continuum
- B. A-Enterprise Architecture, B-Architecture Building Blocks, C-Solutions Building Blocks
- C. A-Architecture Vision, B-Business Architecture, C-Information Systems Architecture
- D. A-Enterprise Strategic Architecture, B-Segment Architecture, C-Solutions Architecture

**Answer: A**

Explanation:

The illustration shows the relationship between the Enterprise Continuum, the Architecture Continuum, and the Solutions Continuum, which are key concepts in the TOGAF framework. The Enterprise Continuum is a view of the Architecture Repository that shows how generic foundation architectures can be leveraged and specialized to support the requirements of an individual organization. The

Architecture Continuum specifies a structured classification for architectural artifacts, such as models, patterns, and descriptions, that can be reused and adapted across different domains and levels of abstraction. The Solutions Continuum identifies implemented solutions that support various stages of business and IT capability evolution, such as common systems, industry solutions, and organization-specific solutions. The illustration also shows how the architecture context and requirements are influenced by external factors, such as business drivers, stakeholders, and standards, and how they shape the generic and specific architectures and solutions. The illustration also shows how the deployed solutions become part of the architecture context for future iterations of the architecture development cycle. Reference:

\* TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Architecture Repository, Section 6.2 Enterprise Continuum

\* TOGAF Standard, 10th Edition, Part IV: Architecture Content Framework, Chapter 35: Enterprise Continuum and Tools, Section 35.1 Introduction.

## NEW QUESTION # 132

Exhibit:

□ Consider the image showing basic architectural concepts.

What are items A and B?

- A. A-Candidate Architecture, B-Trade-off
- **B. A-Stakeholder, B-Concern**
- C. A-Base Architecture, B-Target Architecture
- D. A-User, B-Requirement

**Answer: B**

Explanation:

In the context of TOGAF, a stakeholder is any individual, team, or organization who has interests in, or concerns relative to, the outcome of the architecture. Concerns are those interests which pertain to any aspect of the system's functioning, development or operation, including considerations such as performance, reliability, and security<sup>1</sup>.
