Getting a high passing score is just a piece of cake.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q152-Q157):

NEW QUESTION # 152

Ursa Major Solar would like to make an external user an Experience Site Moderator.

What are two of the several moderation permissions available to assign an external user in order for them to be an effective Experience Site Moderator?

Choose 2 answers

- A. Manage Setup
- B. Access Sharing Sets
- C. Manage Experiences
- D. Access Experience Management

Answer: C,D

Explanation:

To make an external user an Experience Site Moderator, two of the several moderation permissions available to assign are Access Experience Management and Manage Experiences. Access Experience Management allows an external user to access Experience

Workspaces and Builder from an ExperienceCloud site. Manage Experiences allows an external user to create, edit, and delete experiences, as well as manage settings and content for existing experiences.

NEW QUESTION # 153

Northern Trail Outfitters has an Experience Cloud site using the Customer Service template. They have noticed that many questions take a long time to receive a response or go completely unanswered.

Which functionality would allow questions to get internal visibility?

- A. Tell users to submit a case for unanswered questions.
- B. Create moderators for each topic.
- C. **Enable Escalate to Case.**
- D. Limit the number of questions posted per day.

Answer: C

Explanation:

This functionality allows UMS to create a case from a question that has not received a response or has received an unsatisfactory response. UMS can enable this functionality from Experience Builder settings and specify the criteria for escalating a question, such as the number of days without a reply or the number of downvotes. UMS can also assign a queue or an owner for the escalated cases and notify them by email.

NEW QUESTION # 154

Northern trail Outfitters has created a microsite digital experience for its Gold-Level VIP customers. The digital experience is not yet active.

The community manager would like to send welcome emails on a specific day, which include a promotion for participating in the community.

In which order should the community manager perform activation steps?

- A. Publish the community, which will send out the welcome emails.
- B. Set the Community to Active, and available profiles and permission sets to the Admin Workspace, enable Contacts as community users, and set welcome emails to Enabled.
- C. **Add available profiles and permission sets to the Admin Workspace, enable Contacts as community users, set welcome emails to Enabled, and set the community to Active.**
- D. Set the community to Active, and available profiles and permission sets to the Admin Workspace, and create a process to send the welcome emails.

Answer: C

Explanation:

The order in which the community manager should perform activation steps is A. To activate a site in Experience Cloud, you need to complete several steps, such as adding profiles and permission sets, enabling contacts as community users, setting welcome emails, and setting the site to active. The order of these steps is important, because some steps depend on others. For example, you need to add profiles and permission sets before you can enable contacts as community users, and you need to set welcome emails before you can set the site to active.

NEW QUESTION # 155

Ursa Major Solar (UMS) is evaluating Salesforce Partner Relationship Management (PRM) to help improve its current channel sales performance.

In which two ways can Salesforce PRM help UMS accelerate channel sales?

Choose 2 answers

- A. **Extend automated quoting capabilities to partners**
- B. Use partner tiering in channel sales hierarchy
- C. Automate partner entitlement assignment in Channel Sales teams
- D. **Enable partner lead routing**

Answer: A,D

Explanation:

Partner lead routing allows UMS to assign leads to partners based on predefined criteria, such as location, product, or industry. This helps UMS distribute leads more efficiently and increase partner engagement.

Automated quoting capabilities allow partners to generate quotes for customers using UMS's pricing and discount rules. This helps partners close deals faster and more accurately.

NEW QUESTION # 156

Cloud Kicks (CK) is planning to launch a public site. The site will contain a variety of digital content, including static content as well as dynamic content. CK is planning to use Content Delivery Network (CDN).

Which statement is true about using CDN with Experience Cloud?

- A. CDN can help consistency attaching content timestamps as key-value pairs to both static and dynamic content.
- B. CDN can help reliability by allowing local cloning for static resources.
- **C. CDN can help performance by caching public resources.**
- D. CDN can help availability by allowing remote cloning for dynamic resources.

Answer: C

Explanation:

CDN can help performance by caching public resources, such as images, JavaScript, and CSS files. This can enhance the user experience and reduce the load on CK's server. CDN stands for Content Delivery Network, which is a feature that allows CK to improve the performance of its site by caching static resources on servers that are closer to CK's site visitors.

NEW QUESTION # 157

.....

ValidExam exam material is best suited to busy specialized who can now learn in their seemly timings.
