#### NEW QUESTION # 47

A user's availability is calculated as:

- A. Allocated time
- B. Allocated hours divided by the total capacity
- C. Capacity minus allocation
- D. Sum of allocated and confirmed hours, divided by the total capacity

**Answer: B**

Explanation:

Explanation

According to the ServiceNow documentation<sup>1</sup>, a user's availability is calculated as the ratio of allocated hours to total capacity, expressed as a percentage. Allocated hours are the hours that a user is assigned to work on a project or demand. Total capacity is the maximum number of hours that a user can work in a given period, based on their schedule and availability profile. A user's availability indicates how much of their time is already allocated and how much is still available for new assignments.

#### NEW QUESTION # 49

Which statement defines the Project Workspace?

- A. A central location for viewing and assessing business demands
- B. A central location transform the navigation of lists and forms into an interactive graphical experience
- C. A central location for creating and managing projects
- D. A central location to view of all projects in a portfolio to prioritize work

**Answer: C**

Explanation:

According to the ServiceNow documentation<sup>1</sup>, the Project Workspace is a central location for creating and managing projects. It provides a graphical interface that allows users to view and edit project information, such as tasks, resources, risks, issues, and dependencies. The Project Workspace also enables users to collaborate with team members and stakeholders, track project progress, and generate reports.

The other options are incorrect because:

A. A central location to view of all projects in a portfolio to prioritize work: This describes the Portfolio Workbench, not the Project Workspace<sup>2</sup>.

C. A central location transform the navigation of lists and forms into an interactive graphical experience: This describes the Lens, not

the Project Workspace3.

D . A central location for viewing and assessing business demands: This describes the Demand Workbench, not the Project Workspace.
