Salesforce Certified Sharing and Visibility Architect is a prestigious certification that validates an individual's expertise in designing and implementing sharing and visibility solutions in Salesforce. It is a highly specialized certification that requires a deep understanding of Salesforce security and sharing models, as well as the ability to design and implement complex sharing rules, permission sets, and role hierarchies. Salesforce Certified Sharing and Visibility Architect certification exam is intended for experienced Salesforce architects, developers, and administrators who have a thorough understanding of Salesforce security and sharing features.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q77-Q82):

NEW QUESTION # 77
The architect has a requirement to create a criteria-based sharing rule based on the customer Social.. up the rule in Contact Sharing, the field is not shown on the list of available fields.
What might cause this?

- A. The field has been configured for encryption.
- B. The architect's profile does not have field level Security (FLS) for this field.
- C. The architect does not have permission to Compliance fields.
- D. fields with validation rules are not available for sharing rules.

Answer: A

Explanation:
Explanation
The field has been configured for encryption, which might cause it to not show up on the list of available fields for creating a criteria-based sharing rule. Encrypted fields are not available for sharing rules, as they may contain sensitive data that should not be exposed. Option B is incorrect, since the architect does not need permission to Compliance fields to create a sharing rule. Option C is incorrect, since the architect's profile does not need field-level security for this field to create a sharing rule. Option D is incorrect, since fields with validation rules are available for sharing rules.

NEW QUESTION # 78
If a Case requires involvement from one of the Legal team, the Case owner adds one of the corporate lawyers to the Legal SME field on the case.
Since cases are private, how can we grant a lawyer access to a specific case when their assistance is needed?

- A. Create a Criteria Based Sharing Rule that shares to the Legal Public Group when the "legal assistance needed?" field is checked.
- B. Create an Criteria Based Sharing Rule that shares to the Corporate Legal Tear Role when the "legal assistance needed?" field is checked.
- C. Use Apex Managed sharing in a case Trigger that shares the record to the user identified in the Legal SME field.

Answer: C

Explanation:
Since Cases are private, standard sharing mechanisms like criteria-based sharing rules cannot grant access to a specific user identified in the Legal SME field. Apex Managed Sharing offers the flexibility to programmatically share the record with the identified lawyer whenever the Legal SME field is updated.
* Option A: Criteria-based sharing rules cannot dynamically share records with a specific user in the Legal SME field.
* Option C: Sharing to a Legal Public Group is unnecessary if only one lawyer (not the entire group) needs access.

NEW QUESTION # 79
Universal Containers (UC) has 600 sales reps. UC has rollout plan to deploy salesforce in 3 weeks. At the end of the second week,

they received a "User Role Limit Exceeded" error.

After investigation, they discovered that during the user provisioning process, a new role was generated for every new user.

Which two recommendations could solve this problem?

Choose 2 answers.

- A. Contact salesforce support and request to increase the number of users' roles allowed.
- B. Remove role hierarchy from salesforce org and control the record access using apex managed sharing.
- C. Review the user provisioning process to not automatically create a user role for any new user.
- D. Create an Apex class to replace the User Roles by generic one as soon as they are created.

Answer: A,C

NEW QUESTION # 80

User A at Universal Containers is in the default account team for User B. User B owns the ACME account and changed User A's team member access to the account. What is the impact of this change?

- A. Changes affect only the ACME Account
- B. Changes affect the default Opportunity team.
- C. Changes affect the default Account team.
- D. Changes affect all child ACME Accounts.

Answer: A

Explanation:
Explanation
Changes affect only the ACME Account. Changing the team member access to the account does not affect the default account team, the default opportunity team, or the child accounts. The team member access is specific to the individual account record.

NEW QUESTION # 81

If a Case requires involvement from one of the Legal team, the Case owner adds one of the corporate lawyers to the Legal SME field on the case.

Since cases are private, how can we grant a lawyer access to a specific case when their assistance is needed?

- A. Create a Criteria Based Sharing Rule that shares to the Legal Public Group when the "legal assistance needed?" field is checked.
- B. Create an Criteria Based Sharing Rule that shares to the Corporate Legal Tear Role when the "legal assistance needed?" field is checked.
- C. Use Apex Managed sharing in a case Trigger that shares the record to the user identified in the Legal SME field.

Answer: C
