GARP SCR Exam is a comprehensive and rigorous certification program for professionals who want to specialize in sustainability and climate risk management. SCR exam covers a variety of topics, including climate science, green finance, sustainable investing, and ESG factors, and is designed to provide professionals with a holistic understanding of sustainability and climate risk. The GARP SCR Exam is recognized as the leading certification program in this area and is suitable for professionals who are looking to enhance their knowledge and skills or transition into this field.

GARP SCR Certification Exam is intended for individuals who are working in the financial services industry and want to enhance their understanding of the environmental, social, and governance (ESG) factors that are increasingly affecting business decisions. SCR exam covers a wide range of topics, including climate change, renewable energy, carbon markets, sustainable finance, and social responsibility. It also evaluates the candidate's ability to integrate ESG considerations into risk management frameworks.
