Chrome-Enterprise-Administrator Excellect Pass Rate & Associate Chrome-Enterprise-Administrator Level Exam

With infallible content for your reference, our Chrome-Enterprise-Administrator study guide contains the newest and the most important exam questions to practice. And our technicals are always trying to update our Chrome-Enterprise-Administrator learning quiz to the latest. Only by regular practice can you ingest more useful information than others. And our Chrome-Enterprise-Administrator Exam Questions can help you change your fate and choosing our Chrome-Enterprise-Administrator preparation materials is foreshadow of your success.

Google Professional Chrome Enterprise Administrator Certification Exam Sample Questions (Q44-Q49):

NEW QUESTION # 44
Which option is a security event that Google Chrome captures?

- A. Unauthorized file downloads
- B. User inactivity
- C. Malware detection
- D. Password complexity

Answer: C

Explanation:

Chrome's Safe Browsing feature actively scans web pages, downloads, and extensions for known malware.
When malware is detected, it is reported as a security event. While unauthorized file downloads could be a consequence of a security issue, Chrome's direct detection focuses on the malware itself. Password complexity is a setting for password management, and user inactivity is a system or application-level event, not a direct security event captured by Chrome in the same way as malware detection.

NEW QUESTION # 45

A Chrome administrator is trying to apply a new policy to the Finance organizational unit (OU) in the Google Admin console, but some managed browsers in the Finance OU display an unexpected policy value What could be causing the discrepancy in policy value for the affected managed browsers'?

- A. The Finance OU has Inheritance for the policy set to 'Locally applied'
- B. Another OU at the same hierarchical level as the Finance OU has the same policy configured with a different value
- C. A user group has the same policy configured with a different value
- D. A sub-OU under the Finance OU has Inheritance for the same policy set to 'Finance'

Answer: C

Explanation:
Policy conflicts can arise if the same policy is configured at multiple levels with different values. User group policies have a higher precedence than OU policies. Therefore, if a user within the Finance OU is also a member of a group with a conflicting policy setting, the group policy will override the OU policy. Policies at the same hierarchical level do not typically conflict in this way.If the Finance OU has "Locally applied," it would mean it's not inheriting, but it wouldn't explain a *discrepancy* within the OU itself unless multiple local settings were applied. A sub-OU inheriting from Finance wouldn't cause a discrepancy at the Finance OU level.

NEW QUESTION # 46

To reduce risk, an organization is required to maintain a minimum Chrome browser version. The organization allows updates but finds that not all browsers are within one major version of the stable release.
Which policy option would help an admin enforce Chrome browser updates to the latest major stable version via automatic updates'?

- A. Component updates
- B. Relaunch notification
- C. Rollback to target version
- D. Auto-update check period

Answer: D

Explanation:
While not directly stating "enforce to the latest major stable version," the "Auto-update check period" policy, when configured appropriately (shorter intervals), ensures that devices check for andapply updates more frequently. This increases the likelihood of browsers reaching and staying closer to the latest stable version over time. "Rollback to target version" is for reverting updates, "Component updates" manages specific browser components, and "Relaunch notification" prompts users to restart after an update.

NEW QUESTION # 47

The security team has a request to approve two extensions with similar functionality. They only want to approve one extension for use in the environment to avoid redundancy What is an objective measurement that the security team can use to help determine which extension may be safer to use?

- A. Chrome Manifest Version
- B. Permission Count
- C. 3rd Party Risk Score
- D. Chrome Web Store Ratings

Answer: C

Explanation:
A "3rd Party Risk Score" provides an objective assessment of the extension's security and privacy risks, often based on automated

analysis of its code, requested permissions, developer reputation, and other factors. This is a more data-driven approach to evaluating safety compared to simply counting permissions (which doesn't account for the sensitivity of each permission), the Manifest version (which indicates features but not necessarily safety), or Chrome Web Store ratings (which are subjective and can be manipulated).

NEW QUESTION # 48

An organization is deploying 50 new devices which will be managed by a Mobile Device Management solution Which method should be used to enroll the Chrome browser on those devices into Chrome Enterprise Core?

- A. Use Google Admin to generate 50 individual device registration keys and distribute them using mobile device management software
- B. Use Google Admin to generate an enrollment token and distribute it using mobile device management software
- C. Generate a single device enrollment token and email it to all users, instructing them to enroll their devices individually
- D. Use Google Admin console bulk enrollment feature to generate a set of unique tokens, and then distribute them via secure file sharing platform

Answer: B

Explanation:
The study guide emphasizes using enrollment tokens generated in the Google Admin console for enrolling browsers. When using an MDM solution, the most efficient and recommended method is to generate a single enrollment token and then deploy it to the devices through the MDM software. This allows for automated and scalable enrollment. Bulk enrollment features in the Admin console are typically for direct enrollment, not through MDM. Individual tokens or keys would be inefficient for a large deployment.

NEW QUESTION # 49

......

Our qualified team of Google Professional Chrome Enterprise Administrator Certification Exam study material to improve the quality and to match the changes in the syllabus and pattern shared by Chrome-Enterprise-Administrator. Our desktop Google Chrome-Enterprise-Administrator Practice Exam software is designed for all those candidates who want to learn and practice in the actual Google Chrome-Enterprise-Administrator exam environment.

Chrome-Enterprise-Administrator Excellect Pass Rate: https://www.surepassexams.com/Chrome-Enterprise-Administrator-exam-bootcamp.html

If you master our Chrome-Enterprise-Administrator quiz torrent and pass the exam it proves that you have excellent working abilities and can be suitable for a good job, Our Chrome-Enterprise-Administrator learning materials are highly praised for their good performance, In the past 13 years, we constantly aid each one candidate get through the Chrome-Enterprise-Administrator Excellect Pass Rate - Professional Chrome Enterprise Administrator Certification Exam test as well as make him a huge success in the road of his career, Google Valid Chrome-Enterprise-Administrator Test Materials The remaining installation process will not bother you.

Assessing interference and air" quality, This chapter Chrome-Enterprise-Administrator has the potential to be the most valuable for designers wanting to start along the path of iOS app design, If you master our Chrome-Enterprise-Administrator Quiz torrent and pass the exam it proves that you have excellent working abilities and can be suitable for a good job.

Google Chrome-Enterprise-Administrator Desktop-Based Practice Exam Software

Our Chrome-Enterprise-Administrator learning materials are highly praised for their good performance, In the past 13 years, we constantly aid each one candidate get through the Professional Chrome Enterprise Administrator Certification Exam test as well as make him a huge success in the road of his career.
