Exam TDA-C01 Flashcards - TDA-C01 Test Certification Cost

Latest Tableau TDA-C01 Free Certification Exam Material with 92 Q&As [Q47-Q66]

Different from the common question bank on the market, TDA-C01 exam guide is a scientific and efficient learning system that is recognized by many industry experts. In normal times, you may take months or even a year to review a professional exam, but with TDA-C01 exam guide you only need to spend 20-30 hours to review before the exam. And with TDA-C01 learning question, you will no longer need any other review materials, because our study materials already contain all the important test sites. At the same time, TDA-C01 Test Prep helps you to master the knowledge in the course of the practice. And at the same time, there are many incomprehensible knowledge points and boring descriptions in the book, so that many people feel a headache and sleepy when reading books. But with TDA-C01 learning question, you will no longer have these troubles.

To become Tableau TDA-C01 certified, candidates must pass a rigorous exam that tests their knowledge and skills in using Tableau. TDA-C01 exam consists of multiple-choice questions, hands-on exercises, and scenario-based questions that test a candidate's ability to apply Tableau to real-world business problems. Candidates must score at least 75% to pass the exam and earn their certification.

The Tableau TDA-C01 exam covers a wide range of topics, including data connections, data visualization, calculations, mapping, and data analysis. Candidates are expected to have a solid understanding of data analysis techniques and be able to use Tableau software to create interactive dashboards and reports that effectively communicate insights from data. TDA-C01 Exam also assesses candidates' ability to manipulate data using Tableau Prep, a tool that allows users to clean, reshape, and combine data from multiple sources.

Almost all customers highly praise our TDA-C01 Exam simulation. In short, the guidance of our TDA-C01 practice questions will amaze you. Put down all your worries and come to purchase our TDA-C01 learning quiz! You won't regret for your wise choice.

Tableau Certified Data Analyst Sample Questions (Q89-Q94):

NEW QUESTION # 89
You have a workbook that connects to a database. The database requires authentication.
You plan to publish the workbook and schedule a daily refresh of the data.

Which two conditions must be met to schedule the refresh? Choose two.

- A. The data must be extracted.
- B. The credentials must be embedded.
- C. The data source must use a live connection.
- D. The data source must be stored as a hyper file.

Answer: A,B

Explanation:

To schedule a refresh of the data, you need to ensure that Tableau Server or Tableau Online can access the database without prompting for credentials. This can be done by embedding the credentials in the workbook or the published data source. You also need to extract the data from the database and publish it as a separate data source or as part of the workbook. A live connection would not allow you to refresh the data on a schedule, as it would always query the database directly. A hyper file is a format for storing extracted data, but it is not a requirement for scheduling a refresh. References:

NEW QUESTION # 90
Open the Link to Book1 found on the desktop. Open Map worksheet and use Superstore data source.
Create a filed map to show the distribution of total Sales by State across the United States.

Answer:

Explanation:
check the steps below in explanation.
Explanation:
To create a filled map to show the distribution of total Sales by State across the United States, you need to do the following steps:
Open the link to Book1 found on the desktop. This will open the Tableau workbook that uses the Superstore data source.
Click on the Map tab at the bottom of the workbook to open the Map worksheet. You will see a blank worksheet with no marks.
Drag State from the Dimensions pane to Detail on the Marks card. This will create a map that shows each state as a mark. You may need to zoom in or out to see the whole map.
Drag Sales from the Measures pane to Color on the Marks card. This will create a filled map that shows the distribution of total Sales by State across the United States. The color legend will show you the range of values and colors for Sales.
Optionally, you can adjust the color scheme, transparency, size, and borders of the marks by clicking on the Color menu on the Marks card. You can also add labels, tooltips, or filters to enhance your map.

NEW QUESTION # 91
Open the link to Book1 found on the desktop. Open Disciplines worksheet.
Filter the table to show the Top 10 NOC based on the number of medals won.

Answer:

Explanation:
check the steps below in explanation
Explanation:
To filter the table to show the Top 10 NOC based on the number of medals won, you need to do the following steps:
Open the link to Book1 found on the desktop. This will open the Tableau workbook that contains the Disciplines worksheet.
Click on the Disciplines tab at the bottom of the workbook to open the worksheet. You will see a table that shows the NOC, discipline, and medals for each country.
Drag Medals from the Measures pane to the Filters shelf. This will open a dialog box that allows you to filter by different criteria.
Select Top from the dialog box. This will show you options to filter by the top or bottom values of a field.
Enter 10 in the text box next to By field. This will filter by the top 10 values of Medals.
Select NOC from the drop-down list next to By field. This will filter by the top 10 values of NOC based on Medals.
Click OK to apply the filter. You will see that the table now shows only 10 rows, one for each NOC with the highest number of

medals.

NEW QUESTION # 92
You have the Mowing dashboard.
Which two elements are floating? Choose two.

- A. The little
- B. The map
- C. The state filter
- D. The Rate of Obesity chart
- E. The color legend

Answer: C,D

Explanation:
In Tableau dashboards, floating elements are those that can be freely moved over the dashboard canvas without being snapped into the tiled layout. The floating elements are often indicated by their standalone frames and the ability to overlap with other dashboard items. From the provided image, the state filter and the Rate of Obesity chart can be identified as floating if they can be moved independently of the tiled grid layout that constrains other elements.

NEW QUESTION # 93
You use a quick table calculation lo calculate the moving average of a measure named Sales.
You need to calculate the moving averages of the last three years.
Which setting should you change in the Table Calculation dialog box? {Click the appropriate Option in the Answer Area)

Answer:

Explanation:
Explanation:
