

# 100% Pass 2026 CDCS-001: Newest Certified Data Centre Specialist (CDCS) Reliable Test Answers

---

## CDCS-001 Certified Data Centre Specialist Practice Exam

Question 1: What is the primary purpose of a data centre?

- A) To manufacture IT hardware
- B) To centralize and manage data processing and storage
- C) To develop software applications
- D) To provide internet connectivity only

Answer: B

Explanation: A data centre is designed to centralize computing resources for storage, processing, and management of data.

Question 2: Which term is used to describe the measurement of data centre efficiency related to energy use?

- A) PUE
- B) CPU
- C) SLA
- D) RAID

Answer: A

Explanation: Power Usage Effectiveness (PUE) measures the energy efficiency of a data centre.

Question 3: What does DCIM stand for in data centre management?

- A) Data Centre Integration Module
- B) Data Centre Infrastructure Management
- C) Digital Control and Information Monitor
- D) Data Communication and Internet Manager

Answer: B

Explanation: DCIM stands for Data Centre Infrastructure Management, which is used to monitor, measure, and manage data centre resources.

Question 4: Which of the following is not a type of data centre?

- A) Enterprise
- B) Colocation
- C) Hyperscale
- D) Retail

Answer: D

Explanation: Retail is not a type of data centre; the others are common classifications.

Question 5: Which player is primarily responsible for the physical construction and maintenance of a data centre?

- A) Cloud service provider
- B) Facilities management team
- C) Software developer
- D) End-user

Answer: B

Explanation: Facilities management teams handle the physical aspects including construction and ongoing maintenance.

## CDCS-001 actual test & CDCS-001 pass for sure & CDCS-001 test guide

If you do not quickly begin to improve your own strength, the next one facing the unemployment crisis is you. The time is very tight, and choosing CDCS-001 study questions can save you a lot of time. Without our CDCS-001 exam braindumps, you may have to find information from the books and online, and it is too broad for you to collect all of them. And at the same time, you have to

worry about the validity. But with our CDCS-001 Practice Engine, your concerns are all solved. Our CDCS-001 learning guide can offer you the latest and valid exam materials.

## GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q20-Q25):

### NEW QUESTION # 20

What is a Data Center?

- **A. A building or a portion of a building whose primary function is to house a computer room and its related support areas**
- B. A building or a portion of a building where debugging takes place
- C. A room in a building dedicated to monitoring data and information.
- D. A building or portion of a building whose primary function is to research new data.

**Answer: A**

Explanation:

Explanation

A building or a portion of a building whose primary function is to house a computer room and its related support areas. A Data Center is a secure, temperature-controlled environment that houses computer systems, equipment, and associated components. It is typically used to store, process, and distribute large amounts of data and information. Data Centers typically include server racks, storage arrays, network switches, firewalls, and other components necessary for the operation of computer systems.

### NEW QUESTION # 21

Which one of the following measures the real power drawn by the load equipment?

- A. Amperes
- B. Amps
- C. Volts
- **D. Watts**

**Answer: D**

Explanation:

Watts measures the real power drawn by the load equipment and is determined by multiplying the volts and amps of the load

### NEW QUESTION # 22

Which one of the following controls the voltage produced at the output of the alternator?

- A. Voltage Meter
- B. Voltage Backup Device
- **C. Voltage Regulator**
- D. Voltage Stabilizer

**Answer: C**

Explanation:

Explanation

A voltage regulator controls the voltage produced at the output of the alternator. It's a device that maintains the output voltage of an alternating current (AC) power source within a safe range. The voltage regulator compares the actual output voltage to the desired voltage level and adjusts the voltage accordingly.

Voltage Meter, Voltage Stabilizer, and Voltage Backup Device are not devices that control the voltage produced at the output of the alternator. They are different types of equipment and have different functions.

A voltage meter is a device used to measure the voltage in an electrical circuit. A voltage stabilizer is an electronic device that maintains a constant voltage level. A voltage backup device is a device that provides temporary backup power in case of an electrical outage.

### NEW QUESTION # 23

Which one of the following describes the amount of resistance electricity encounters?

- **A. Ohm**
- B. Volts
- C. Ampere
- D. Watts

**Answer: A**

Explanation:

Ohm (#) describes the amount of resistance electricity encounters. It is one of the base units of the International System of Units (SI), and is defined as the amount of resistance that a conductor has when a force of one volt is applied across it. Ohms are used to measure the electrical resistance of a circuit, and can be used to determine the power of a circuit or the amount of current flowing through it.

### NEW QUESTION # 24

Which type of circuit breaker uses an electromagnetic coil to trip the switch when the current exceeds safe limits?

- A. Pull
- **B. Magnetic (Selected)**
- C. Static
- D. Thermal

**Answer: B**

### NEW QUESTION # 25

.....

If you want to pass your CDCS-001 exam and get the CDCS-001 certification which is crucial for you successfully, I highly recommend that you should choose the CDCS-001 certification preparation materials from our company so that you can get a good understanding of the CDCS-001 Exam that you are going to prepare for. We believe that if you decide to buy the CDCS-001 exam materials from our company, you will pass your exam and get the CDCS-001 certification in a more relaxed way than other people.
