## PRINCE2 Practitioner Exam 認定 PRINCE2-Practitioner 試験問題 (Q144-Q149):

### 質問 # 144

During stage 4, a work package was authorized for the 'delivered pilot courses' to be completed by the end of week 2. The 'finalized materials' work package will start in week 3. Both work packages have zero tolerances, and finalizing the materials is dependent on feedback from the pilot courses.

During week 1, there were some problems with the pilot courses, so at the start of week 2 the team manager rescheduled the courses to week 3, and reported this in the weekly checkpoint report as the end of week 2.

Should the team manager have reported this delay previously as an issue, and why?

- A. Yes, because the work package to deliver the pilot courses was forecast to exceed its time tolerance.
- B. No, because the feedback from the rescheduled courses can be used in week 4 to finalize the materials.
- **C. No, because the checkpoint report for week 1 should include information on any issues that occurred.**
- D. Yes, because a team manager should not change the scheduled order of a work package.

正解: C

### 質問 # 145

In which strategy would the change control process be recorded?

- A. Communication Management Strategy
- **B. Configuration Management Strategy**
- C. Risk Management Strategy
- D. Quality Management Strategy

正解: B

### 質問 # 146

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered. ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

□ End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him.

They promote existing training courses to other training companies and existing customers.

End of the additional information.

The executive identified that there would be a benefit to the construction companies as their working time lost due to accidents would be reduced. This was included as a benefit to ABC Company in the business case for the Health and Safety Training Project. Is this appropriate, and why?

- A. No, because it is the customer's benefits that should be used to justify the project business case.
- B. No, because ABC Company will not achieve their benefits if construction companies do not book the courses.
- C. Yes, because the benefits to the customer are an essential part of business justification for a project.
- D. Yes, because both tangible and intangible benefits should be included in the business case.

正解: C

#### 質問 # 147

Using the Project Scenario and the Extract from Stage Plan for stage 3 provided as additional information for this question in the Scenario Booklet, answer the following 5 questions.

The Stage Plan for stage 3 has been produced.

The Engineering Manager insists that there are to be no interruptions to operations whilst photographs are being taken of the engineering staff performing their everyday duties and operating machinery. Two weeks ago the professional photographer produced the photo session schedule based on the operational staff schedule.

The operational staff schedule is produced weekly and maintained by the Engineering Manager.

None of the E500 change budget has been used to date and this is available for the stage.

Which 2 statements apply to the Plan prerequisites section?

- A. Delete entry 4 because the customer list is a deliverable of stage 2, not a prerequisite for stage 3.
- B. Delete entry 3 because the production cost forecast is a deliverable of stage 2, not a prerequisite for stage 3.
- C. Add 'Compliance with the Data Protection Act'.
- D. Delete entry 2 because these are project benefits not prerequisites of the stage.
- E. Add 'Engineering team must be made available for photos'.

正解: A、D

Use the 'Additional Information' in the Scenario Booklet to answer this question.

The Operations Director is the executive for the project and has proposed that a senior course developer be appointed as project manager. The course developer works in the Training Development Manager's team and has a good understanding of the standard course development model. The course developer was a team manager on a previous project for which the Operations Director was the executive.

Is this proposed appointment appropriate, and why?

- A. No, because the course developer's team reports to the Business Development Director, not the Operations Director.
- B. No, because there is a conflict of interest as the Training Development Manager is responsible for gaining accreditation.
- **C. Yes, because the course developer is responsible for ensuring that trainers deliver courses to the required standard.**
- D. Yes, because the course developer is likely to have the project management and specialist knowledge required.
