

# New 1z0-071 Test Labs - Real 1z0-071 Exams

2026 Latest VCEPrep 1z0-071 PDF Dumps and 1z0-071 Exam Engine Free Share: <https://drive.google.com/open?id=1U02YmZP8YDe64xqidh0sSjkUbvIFVdSQ>

For one thing, the most advanced operation system in our company which can assure you the fastest delivery speed on our 1z0-071 exam questions. For another thing, with the online app version of our 1z0-071 actual exam, you can just feel free to practice the questions in our 1z0-071 Training Materials on all kinds of electronic devices. In addition, under the help of our 1z0-071 exam questions, the pass rate among our customers has reached as high as 98% to 100%. We are look forward to become your learning partner in the near future.

To prepare for the Oracle 1z1-071 Exam, candidates should have a solid understanding of SQL fundamentals, including syntax and basic data manipulation. They should also be familiar with Oracle databases and have experience working with SQL in a professional setting. Candidates can prepare for the exam by taking Oracle-approved training courses, studying exam guides and practice exams, and working with Oracle databases and SQL in a real-world environment.

Oracle 1z0-071 Certification is highly valued in the IT industry, and passing the exam can open up many job opportunities for professionals. Oracle Database SQL certification serves as proof of one's SQL skills and knowledge, making them a valuable asset to organizations that rely heavily on databases. Many companies require their employees to hold this certification to ensure that they have the necessary skills to work with complex databases.

## Oracle 1z0-071 Dumps PDF To Gain Brilliant Result

On the one hand, Oracle Database SQL test torrent is revised and updated according to the changes in the syllabus and the latest developments in theory and practice. On the other hand, a simple, easy-to-understand language of 1z0-071 test answers frees any learner from any learning difficulties - whether you are a student or a staff member. These two characteristics determine that almost all of the candidates who use 1z0-071 Guide Torrent can pass the test at one time. This is not self-determination. According to statistics, by far, our 1z0-071 guide torrent has achieved a high pass rate of 98% to 99%, which exceeds all others to a considerable extent. At the same time, there are specialized staffs to check whether the Oracle Database SQL test torrent is updated every day.

## Oracle Database SQL Sample Questions (Q149-Q154):

### NEW QUESTION # 149

Which two statements are true about \* TABLES views?

- A. USER TABLES displays all tables owned by the current user.
- B. You must have SELECT privileges on a table to view it in ALL TABLES.
- C. All users can query DBA TABLES successfully.

- D. You must have SELECT privileges on a table to view it in DBA TABLES.
- E. All TABLES displays all tables owned by the current user.
- F. You must have SELECT privileges on a table to view it in USER TABLES.

**Answer: A,C**

Explanation:

For the \*TABLES views in Oracle:

\* Option C: USER\_TABLES displays all tables owned by the current user.

\* USER\_TABLES is an Oracle data dictionary view that shows all tables owned by the user issuing the query.

\* Option F: All users can query DBA\_TABLES successfully.

\* While all users can attempt to query DBA\_TABLES, only users with the necessary privileges will receive results; however, the question's wording implies the ability to query, not necessarily to receive results.

Options A, B, D, and E are incorrect:

\* Option A and Option E are incorrect because ALL\_TABLES and USER\_TABLES show tables accessible to or owned by the current user, respectively, without requiring individual SELECT privileges.

\* Option B is incorrect because DBA\_TABLES requires users to have the SELECT ANY TABLE privilege or equivalent, not SELECT privileges on each table.

\* Option D is incorrect because ALL\_TABLES displays all tables that the current user has access to, not just those owned by them.

### NEW QUESTION # 150

Which two actions can you perform with object privileges?

- A. Create roles.
- B. Create FOREIGN KEY constraints that reference tables in other schemas.
- C. Execute a procedure or function in another schema.
- D. Set default and temporary tablespaces for a user.
- E. Delete rows from tables in any schema except sys.

**Answer: C,E**

Explanation:

Regarding object privileges in an Oracle database:

\* B. Delete rows from tables in any schema except sys: Object privileges include DELETE on tables, which can be granted by the owner of the table or a user with adequate privileges, excluding system schemas like SYS due to their critical role.

\* E. Execute a procedure or function in another schema: EXECUTE is a specific object privilege that can be granted on procedures and functions, allowing users to run these objects in schemas other than their own.

Incorrect options:

\* A: Creation of roles is related to system privileges, not object privileges.

\* C: Setting default and temporary tablespaces for a user involves system-level operations, not object-level privileges.

\* D: Creation of foreign key constraints involves referencing rights, which, while related, are not directly granted through object privileges but need appropriate REFERENCES permission.

### NEW QUESTION # 151

Examine the structure of the MEMBERS table:

□ Examine the SQL statement:

SQL> SELECT city, last\_name LNAME FROM MEMBERS ORDER BY 1, LNAME DESC; What would be the result execution? (Choose the best answer.)

- A. It fails because a column alias cannot be used in the ORDER BY clause.
- B. It displays all cities in ascending order, within which the last names are further sorted in descending order.
- C. It fails because a column number and a column alias cannot be used together in the ORDER BY clause.
- D. It displays all cities in descending order, within which the last names are further sorted in descending order.

**Answer: B**

### NEW QUESTION # 152

Examine this SQL statement:

Which two are true?

- A. All existing rows in the ORDERS table are updated.
- **B. The subquery is executed for every updated row in the ORDERS table.**
- C. The subquery is not a correlated subquery.
- **D. The UPDATE statement executes successfully even if the subquery selects multiple rows.**
- E. The subquery is executed before the UPDATE statement is executed.

**Answer: B,D**

### NEW QUESTION # 153

View the exhibit for the structure of the STUDENT and FACULTY tables.

You need to display the faculty name followed by the number of students handled by the faculty at the base location.

Examine the following two SQL statements:

Statement 1

```
SQL>SELECT faculty_name, COUNT(student_id)
FROM student JOIN faculty
USING (faculty_id, location_id)
GROUP BY faculty_name;
```

Statement 2

```
SQL>SELECT faculty_name, COUNT(student_id)
FROM student NATURAL JOIN faculty
GROUP BY faculty_name;
```

Which statement is true regarding the outcome?

- **A. Only statement 1 executes successfully and gives the required result.**
- B. Only statement 2 executes successfully and gives the required result.
- C. Both statements 1 and 2 execute successfully and give the same required result.
- D. Both statements 1 and 2 execute successfully and give different results.

**Answer: A**

### NEW QUESTION # 154

.....

Great concentrative progress has been made by our company, who aims at further cooperation with our candidates in the way of using our 1z0-071 exam engine as their study tool. Owing to the devotion of our professional research team and responsible working staff, our 1z0-071 Training Materials have received wide recognition and now, with more people joining in the 1z0-071 exam army, we has become the top-raking 1z0-071 learning guide provider in the international market.
