- **B. Design thinking**
- C. Participatory budgeting
- D. Lean Portfolio Management

Answer: B

Explanation:

Explanation

Design thinking is a method that provides a continuous understanding of the target market. Design thinking is a human-centered approach to problem-solving that involves empathy, ideation, experimentation, and implementation. Design thinking helps teams

discover the real needs and desires of their customers, generate innovative solutions that address those needs, validate their assumptions through fast feedback loops, and deliver value that delights their customers. Design thinking helps teams achieve the core competency of Customer Centricity in SAE. References: Customer Centricity, Design Thinking

NEW QUESTION # 39

Why do Business Owners assign business value to team PI Objectives?

- A. To determine what the teams should work on first
- **B. To empower teams to make decisions around work**
- C. To ensure the teams do not work on architectural Enablers
- D. To override the decisions made in WSJF prioritization

Answer: B

Explanation:

The reason why business owners assign business value to team PI objectives is to empower teams to make decisions around work. Business value is a relative measure of the importance of a work item or an outcome to the business. Team PI objectives are SMART (Specific, Measurable, Achievable, Relevant, Time-bound) goals that reflect the value that each team intends to deliver in a PI. Business owners assign business value points to each team PI objective based on their alignment with the program vision and objectives. This helps teams prioritize their work, balance their capacity, negotiate dependencies, and make trade-offs based on value delivery. References: PI Planning, Business Owners
