High Pass-Rate UiPath-TAEPv1–100% Free Braindumps Pdf | Vce UiPath-TAEPv1 Torrent

id=1iR5Bqm8l2bHymTGKlP8ycto9zDNnrF5c

Our UiPath-TAEPv1 study materials can help you pass the exam faster and take the certificate you want with the least time and efforts. Then you will have one more chip to get a good job. Our UiPath-TAEPv1 study braindumps allow you to stand at a higher starting point, pass the UiPath-TAEPv1 Exam one step faster than others, and take advantage of opportunities faster than others. With a high pass rate as 98% to 100%, our UiPath-TAEPv1 training questions can help you achieve your dream easily.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	• UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 2	• UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.
Topic 3	• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 4	• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.
Topic 5	• Environments, Applications, and • or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 6	• UiPath Robot: This section of the exam measures the skills of RPA Developers and explains the role of testing robots and their connectivity with UiPath Orchestrator. It discusses the execution of test cases using both on-premises and cloud-based robots and highlights how different robot types support automation testing in a scalable environment.
Topic 7	• UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.
Topic 8	• CI • CD Implementation: This section of the exam measures the skills of RPA Developers and introduces the concepts of Continuous Integration and Continuous Delivery (CI • CD). It covers how to implement pipelines and perform tasks using the UiPath Command Line Interface (CLI) for streamlined and automated deployments of test workflows and processes.

2026 UiPath UiPath-TAEPv1 –Newest Braindumps Pdf

The price for UiPath-TAEPv1 study materials is quite reasonable, and no matter you are a student or you are an employee, you can afford the expense. Besides, UiPath-TAEPv1 exam materials are compiled by skilled professionals, therefore quality can be guaranteed. UiPath-TAEPv1 Study Materials cover most knowledge points for the exam, and you can learn lots of professional knowledge in the process of trainning. We provide you with free update for 365 days after purchasing UiPath-TAEPv1 exam dumps from us.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q60-Q65):

NEW QUESTION # 60
What are the prerequisites before executing automated tests through the 'Execute Automated' option in UiPath Test Manager?

- A. There are no specific prerequisites to execute automated tests.
- B. There is a need for at least one automated test case in a test set and should be either linked from Orchestrator or created in Test Manager with test cases linked from Studio.
- C. There is a need to have at least one manual test case in a test set.
- D. There is a need to have all the test cases automated in your test set.

Answer: B

Explanation:
Before executing automated tests using the 'Execute Automated' option in UiPath Test Manager, there must be at least one automated test case in the test set. These test cases must be linked from Orchestrator or created in Test Manager and linked from Studio, ensuring they are properly connected for execution.

NEW QUESTION # 61
What are the specific benefits of using coded automations in UiPath?

- A. Coding can increase productivity, manage complex automation scenarios, work seamlessly with low-code automations, enhance performance, and improve code readability.
- B. Coded automations are used only in complex automation scenarios and they have no role in productivity, performance, hybrid automation or code readability.
- C. Coded automations are primarily used to create structured code with no enhanced productivity, performance improvement, or increased readability.
- D. Coded automations allow to work with low-code automations only, manage basic automation scenarios and developers find it challenging to maintain the code.

Answer: A

Explanation:
Coded automations in UiPath bring several benefits, including increased productivity, the ability to manage complex automation scenarios, seamless integration with low-code automations, improved performance, and better code readability. This enables developers to write more efficient and maintainable code, especially in scenarios where complex logic or custom functions are required.

NEW QUESTION # 62
How can the test data queue items be uploaded to a queue?

- A. Only through Orchestrator.
- B. Directly in Orchestrator or through Studio.
- C. Directly in Orchestrator or through Test manager.
- D. Only through Studio.

Answer: B

Explanation:
The test data queue items can be uploaded directly in Orchestrator or through Studio. These two platforms allow users to manage and upload test data to the test data queue, enabling integration and execution of data-driven tests.

NEW QUESTION # 63
What is the scope of custom fields in UiPath Test Suite?

- A. Define project-specific custom attributes for the requirements workflows, test sets, and test executions.
- B. Define project-specific custom attributes for the requirements, test cases, test sets, and reports.
- C. Define project-specific custom attributes for the requirements, test cases, and test sets.
- D. Define custom attributes unique to the project and the set of APIs, test cases, and test sets.

Answer: C

Explanation:
The scope of custom fields in UiPath Test Suite is to define project-specific custom attributes for requirements, test cases, and test sets. These custom fields allow for better categorization and management of test data and help tailor the test management process to the project's specific needs.

NEW QUESTION # 64
What color code in the status tab represents a test without a definitive results or that have not been executed yet but is a part of a test set that is currently being executed?

- A. Grey
- B. Black
- C. Red
- D. Green

Answer: A

Explanation:
In UiPath Test Manager, the Grey color code in the status tab represents a test case that has not yet been executed or does not have a definitive result, but is part of a test set that is currently being executed.

NEW QUESTION # 65
......

Actual4Cert's senior team of experts has developed training materials for UiPath UiPath-TAEPv1 exam.Through Actual4Cert's training and learning passing UiPath certification UiPath-TAEPv1 exam will be very simple. Actual4Cert can 100% guarantee you pass your first time to participate in the UiPath Certification UiPath-TAEPv1 Exam successfully. And you will find that our practice questions will appear in your actual exam. When you choose our help, Actual4Cert can not only give you the accurate and comprehensive examination materials, but also give you a year free update service.
